CAMPUS REPORT

from the Office of the Vice President No. 1, November, 1965
University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
FEB 27 1967
UNIVERSITY OF ILLINOIS

FIRST ISSUE OF CAMPUS REPORT

CAMPUS REPORT is being initiated to improve communication with faculty members at the Medical Center campus.

CAMPUS REPORT will seek to inform the faculty more fully than is now possible about activities and events involving their colleagues, and will relay to the faculty the full text or a summary of items of general interest.

Although official statements from the Office of the Vice President may also be included, CAMPUS REPORT does not supplant any current procedure for providing official statements to the faculty.

Suggestions as to topics in which there is wide interest will be welcome, and may be filed with the Office of the Vice President.

NINE ELECTED TO FACULTY ADVISORY COMMITTEE

According to procedure outlined in Section 6(m) of the University of Illinois Statutes, revised recently by the Board of Trustees, nine people have been elected to the Faculty Advisory Committee at the Medical Center Campus. They are:

Dr. Nicholas J. Cotsonas Dr. Theodore R. Sherrod Dr. Adrian M. Ostfeld	Elected for three years
Dr. Thomas K. Barber Dr. Mary K. Mullane Dr. John M. Spence	Elected for two years
Dr. Bernard L. Greenberg Dr. Roy Gillette Dr. Conrad A. Blomquist	Elected for one year

The revised Statutes provide for a Faculty Advisory Committee at each campus composed of and elected by the academic staff (those having the rank of instructor or higher), three of whom shall be elected each year for three-year terms. Committee members were elected to terms of one, two, and three years, those receiving the most votes being elected to the longest terms.

In future years, election of new members will take place in the Spring. Replacement of those elected for just one year will take place in April, 1967.

The functions of the Committee as stated in Section 6(m) are *"to provide for the orderly voicing of suggestions for the good of the University, for affording added recourse for the consideration of grievances, and for furnishing a channel for direct and concerted communication with administrative officers of the University ...*

"In performing its functions, the Committee upon the request of the President, or any member of the academic staff, or upon its own initiative, shall make such investigations and hold such consultations as it may deem to be in the best interest of the University."

The nine members of the Faculty Advisory Committee (which is not a Senate Committee but a General University Committee on each campus) and the twenty-nine other nominees were nominated by petitions signed by three members of the academic staff and filed with the Clerk or Secretary of the Senate on or before October 1.

CONFERENCE ON EVANS REPORT – NOVEMBER 22-23

A Faculty Conference to consider the report (prepared by Dr. Lester J. Evans), THE UNIVERSITY AND EDUCATION FOR THE HEALTH PROFESSIONS — The University of Illinois: A Case Study, will be held November 22-23 at the Illinois Beach State Park Lodge.

President David D. Henry, Executive Vice President and Provost Lyle H. Lanier, and Vice President Joseph S. Begando will attend the conference along with eighty other faculty members. The Steering Committee in charge of arrangements includes:

Dr. William J. Grove, *Chairman*	
Dr. Conrad A. Blomquist	Dr. Donald J. Caseley
Dr. Mary Lohr	Dr. Maury Massler
Dr. George E. Miller	Dr. Arnold V. Wolf

The theme for the conference is: *"From Medical Center to Health Center: An Emerging Concept in a Changing World."* Three working papers explore the

challenges to administrative and academic organization, patient care, and health professions education that a changing world places upon the Medical Center Campus.

Members of the sub-committee that will explore the challenges to the administrative and academic organization are:

Dr. Melvin Sabshin, *Chairman*	Dr. James E. Gearien
Miss Edna L. Anderson	Dr. Arnold V. Wolf

There are six members in the sub-committee that will prepare discussion material on the challenge to patient care:

Dr. Donald J. Caseley, *Chairman*	Mr. Herbert S. Carlin
Dr. Bruce L. Douglas	Dr. Mary Lohr
Dr. Adrian M. Ostfeld	Dr. John Williamson

Serving on the sub-committee that will explore the challenge to health professions education are:

Dr. Maury Massler, *Chairman*	Dr. Nicholas J. Cotsonas
Dr. Thomas C. King	Dr. Virginia M. Ohlson

A tentative agenda for the conference includes three work sessions the first day of the conference, and two the second day. The conference will not legislate, but will identify issues for further examination in normal faculty channels. At the closing work session, the Resolutions Committee will present for the consideration of conferees resolutions reflecting a consensus of discussions of the faculties during the two-day conference. Members of the Resolutions Committee are:

Miss Helen Dunn, *Chairman*	Dr. Thomas K. Barber
Dr. Alfred J. Perkins	Dr. Stuart S. Roberts

These resolutions and other aspects of the Faculty Conference will be reported in a later issue of CAMPUS REPORT.

COMMITTEE ON HUMAN RELATIONS AND EQUAL OPPORTUNITY APPOINTED

In a letter dated August 23, 1965, Vice President Joseph S. Begando invited the following people to serve on the Committee on Human Relations and Equal Opportunity for the Medical Center Campus:

Faculty Representatives	*Terms of Office*
Dr. Stephen B. Binkley, *Chairman*	September 1, 1965
Dr. Martin I. Blake	through
Miss Wilma J. Phipps	August 31, 1966
Miss Joan M. King	September 1, 1965
Dr. Earl W. Renfroe	through
Dr. Irving Schulman	August 31, 1967
Dr. Thomas K. Barber	September 1, 1965
Dr. Charles L. Bell	through
Dr. Theodore R. Sherrod	August 31, 1968
Student Representatives	
Mr. Theophilus Gray	September 1, 1965
Mr. Sherman Horan	through August 31, 1966
Personnel Office Representative	
Mr. George F. McGregor	September 1, 1965 through August 31, 1966

Members of the Committee serve three-year terms except for the first two years when terms of members will be staggered by one- and two-year appointments.

The general purpose of the Committee will be to stimulate study of the critical issues and problems of equal opportunity at the Medical Center Campus. The Committee will be expected to suggest ways and means of studying these problems and to serve as a continuing advisory body and clearing house for disseminating information about activities related to human relations and equal opportunity at the Medical Center Campus.

An organizational meeting of the Committee was held on October 13. In attendance was Mr. William K. Williams, who has been appointed Staff Associate, Office of the President, to work with the Committees on all three campuses.

Three members of the Committee will be appointed to serve on an all-University Committee on Human Relations and Equal Opportunity composed of representatives from each campus.

BRIEFLY NOTED ...

Senate representatives to the Vice President's Advisory Council are: **Dr. James A. Yaeger,** who is serving one year to complete the unexpired term of Dean Yale; **Miss Cecelia Fenessy,** who will finish her three-year term in 1967; and **Dr. William V. Whitehorn,** who just began his three-year term in 1965.

Dr. John P. Marbarger, director of the Aeromedical Laboratory and chairman of the Campus Planning Committee, has been asked to continue serving on the University Building Program Committee for the biennium 1965-1967. Also serving on the Committee is Vice President **Joseph S. Begando.**

"Your Doctor Speaks" is the title of a new radio series featuring twelve faculty members from the Medical Center Campus. **Dr. William C. Dolowy,** administrator at the Medical Research Laboratory, hosts the series which will be broadcast on the National Association of Educational Broadcasters Network. Producer of the series is **Jack W. Righeimer,** assistant director of Public Information. Participants in the series are:

Dr. Harry A. Bliss, Dr. Conrad A. Blomquist, Dr. Marvin Cornblath, Dr. John W. Curtin, Dr. Theodore A. Fox, Dr. Joel S. Handler, Dr. Francis L. Lederer, Dr. Armand Littman, Dr. Maury Massler, Dr. Gerald O. McDonald, Dr. John R. Necheles, and **Dr. Adrian M. Ostfeld.**

A total of 1,871 men and 512 women registered for the Fall Quarter 1965-66 at the Medical Center Campus. Although all five colleges showed a greater enrollment than last year, there were 39 fewer students than last year when the Jane Addams Graduate School of Social Work was associated with the Medical Center Campus. Social Work has now moved to the Chicago Circle Campus. For the seventh consecutive year, the Urbana-Champaign Campus posted an all-time record enrollment — 27,941. At the Chicago Circle Campus 8,629 students registered for classes.

The Medical Center Campus received $4,549,821 from the United States Public Health Service during

the 1964 fiscal year. The University of Illinois as a whole received $11,009,601, or $2.25 million more than during the preceding year.

Two members of the Medical Center Campus staff have been given additional responsibilities at the Chicago Circle Campus. **Mr. Frank E. Hostettler,** associate director of Physical Plant, will be in charge of planning and construction for the Circle and Medical Center Campuses. **Mr. Frank W. Houck,** superintendent of Buildings and Grounds, will be responsible for physical plant operation and maintenance for both campuses. The separation of these responsibilities by function rather than by campus is expected to improve Physical Plant Department services on both campuses.

President David D. Henry recently named four faculty members from the Medical Center Campus to the Faculty Honors Council. Serving from 1965 to 1966 will be: **Dr. William J. Grove, Dr. Mary K. Mullane, Dr. Alfred J. Perkins,** and **Dean Seymour H. Yale.**

Dr. George G. Jackson, professor of medicine, will continue to serve on the University Committee on Promotions. He will be a member of the committee through the 1966-67 academic year.

GRANTS TOTALING $3,132,052 ACCEPTED SINCE JULY 1

Research and training grants totaling over $3,132,052 have been accepted by the Medical Center Campus since the beginning of the fiscal year, July 1, 1965.

The College of Medicine received over $2,450,438 during this period, and the College of Dentistry received $399,420.

Grants amounting to $231,636 and $50,558 were awarded to the Colleges of Nursing and Pharmacy respectively.

The largest grant received since July 1 was $312,760 from the Public Health Service for the General Clinical Research Center under the supervision of Dr. Harry F. Dowling, professor and head of the Department of Medicine.

Research grants over $5,000 are listed below by college, department and name of investigator.

COLLEGE OF DENTISTRY

Administration

Dean Seymour H. Yale, $40,306, general research support, Public Health Service.

Histology

Dr. James A. Yaeger, $52,403, graduate training, Public Health Service; $34,137, graduate training program in embryology and development, Public Health Service; and $10,980, study of experimental alterations in mineralization, Public Health Service.

Operative Dentistry

Dr. John M. Spence, $42,848, undergraduate training, Public Health Service.

Oral Diagnosis

Dr. Bruce Douglas, $25,000, effect of fluoridation upon dental practice, Public Health Service; and $15,000, community gerondontic project for senior dental students, Division of Hospitals and Chronic Illness, Illinois Department of Public Health.

Orthodontics

Dr. Philip Goland, $16,626, study of preservation of teeth by Dichloro-S-Triazines, Public Health Service.

Pedodontics

Dr. Thomas K. Barber, $11,583, study of cephalometric roentgenography to pedodontic research, Public Health Service.

Radiology

Dean Yale, $150,540, study of the temporomandibular joint and associated structures, Public Health Service.

COLLEGE OF MEDICINE

Administration

Dr. William J. Grove, $210,300, general research support, Public Health Service.

Dr. Granville Bennett, $25,000, establishment of cardiovascular teaching, Public Health Service.

Anatomy

Dr. L. M. Larramendi, $8,351, study of electron microscopy of neonatal synapse formation, Public Health Service.

Dr. Samuel R. M. Reynolds, $33,296, graduate training program in anatomy (multidisciplinary), Public Health Service; and $6,242, study of effects of low temperatures on amphibian metamorphosis, Public Health Service.

Dr. Anthony J. Schmidt, $31,846, graduate training, Public Health Service.

Biological Chemistry

Dr. Stephen Binkley, $17,261, study of analogues of pyrimidines, Public Health Service.

Dr. William Howes, $10,108, investigation of molecular and genetic basis of phenotypic resistance to bacterial virus infection, American Cancer Society.

Dr. Henry Jeffay, $17,644, study of synthesis and utilization of serum proteins, Public Health Service.

Dr. Terrell C. Myers, $19,992, study of phosphonic acid analogs of nucleoside phosphates, Public Health Service; and $7,172, research of phosphonic acid analogs of nucleoside phosphates, Central Council Leukemia Research Foundation.

Dr. Bernard Weissman, $21,561, study of isolation and structure of acid mucopolysaccharides, Public Health Service.

Dr. Richard J. Winzler, $65,920, graduate training program on biochemistry.

Medicine

Dr. Lionel M. Bernstein, $17,496, study of unilateral renal functions using ureteral compression, Public Health Service.

Dr. Neil S. Cherniack, $16,436, development award (the role of cerebral blood flow in respiratory control), Public Health Service.

Dr. Harry F. Dowling, $312,760, for the General Clinical Research Center, Public Health Service; and $89,256, training grant for infectious diseases, Public Health Service.

Dr. Clarence L. Gantt, $5,400, studies of various anti-aldosterone agents, Merck, Sharp & Dohme.

Dr. Georgiana M. Jagiello, $14,996, detection and induction of meiotic abnormalities, Public Health Service; and $11,738, investigate meiotic abnormalities in mammals, the National Foundation.

Dr. Robert M. Kark, $63,196, study of biopsy of kidney structures and function, Public Health Service.
Dr. Victor E. Pollak, $23,310, development award (investigation on the kidney in health and disease), Public Health Service.
Dr. Robert J. Ryan, $12,094, search for long-acting antithyroid compounds, Lloyd Brothers, Inc.
Dr. Max Samter, $25,380, training in allergy and immunology, Public Health Service.
Dr. Theodore B. Schwartz, $33,804, graduate training, Public Health Service.
Dr. John T. Sharp, $18,337, study of thoracic mechanics in human health and disease, Public Health Service.
Dr. Malcolm Stanley, $20,763, study of iodine metabolism in the gut of man, Public Health Service; and $5,024, study of iodide metabolism in the gut of man, Public Health Service.
Dr. Gerald A. Williams, $10,621, study of metabolism of bovine parathyroid hormone, Public Health Service.

Occupational Therapy
Miss Beatrice Wade, $16,809, teaching traineeship, Public Health Service.

Ophthalmology
Dr. Peter C. Kronfeld, $51,716, training grant in ophthalmology, Public Health Service.

Orthopaedic Surgery
Dr. Claude C. Lambert, $18,397, study of juvenile amputees, Public Health Service.
Dr. Robert D. Ray, $29,649, graduate training, Public Health Service.
Dr. Jo Miller, $5,390, private practitioner orthopaedic diagnostic registry, Orthopaedic Research and Education Foundation.

Otolaryngology
Dr. Shirley Heinze, $23,536, study of auditory to vibratory translation, Public Health Service.
Dr. Francis L. Lederer, $105,626, training grant, Public Health Service.

Pathology
Dr. Hartmann Friederici, $25,711, study of capillaries of skin and subcutis, Public Health Service.
Dr. Cecil A. Krakower, $21,605, studies on the capillary wall, Public Health Service.
Dr. Kurt Stern, $12,529, radioisotopic studies of reticulaendothelial phagocytosis in relation to normal and neoplastic growth, and to immune phenomena, United State Atomic Energy Commission.
Dr. Ruth L. Wong, $6,000, study of injury and repair in the gastrointestinal tract, Public Health Service.

Pediatrics
Dr. Melvin Cornblath, $27,480, study of carbohydrate metabolism in neonate, Public Health Service; and $24,000, graduate training, Public Health Service.
Dr. Herbert J. Grossman, $33,907, exemplary service for neurological disorders in children, Public Health Service.
Dr. Bessie L. Lendrum, $18,000, study of cardio-renal function after cardiopulmonary by-pass, Public Health Service.
Dr. Robert A. Miller, $43,273, study of computer analysis of the orthogonal ECG in children, Public Health Service.
Dr. Irving Schulman, $39,084, graduate training, Public Health Service; $21,158, study of longevity of coagulation factors in hemophilic children, Public Health Service.

Pharmacology
Dr. E. G. Anderson, $13,010, study of spinal synaptic transmission and biogenic amines, Public Health Service.
Dr. Harold Feinberg, $12,045, research on nitrogen metabolism in the functioning myocardium, American Heart Association; and $11,000, force-velocity studies in the intact heart, Chicago Heart Association.
Dr. Everett W. Maynert, $18,624, study of metabolic fate of neuropharmacological agents, Public Health Service; and $17,449, study of pharmacology of brain norepinephrine, Public Health Service.
Dr. Martin P. Schulman, $129,536, graduate training program, Public Health Service.
Dr. Cedric M. Smith, $25,000, neuropharmacology training, Public Health Service; and $11,232, neuropharmacology training grant, Public Health Service.
Dr. Klaus R. Unna, $133,095, graduate training, Public Health Service.

Physical Medicine
Dr. David I. Abramson, $38,085, teaching grant in rehabilitation medicine, Public Health Service; and $22,434, study of vascular responses in skin and muscle to various states, Public Health Service.

Physiology
Dr. Norman R. Alpert, $28,196, study of regulation of metabolism, Public Health Service.
Dr. Arnold V. Wolf, $66,001, graduate training program, Public Health Service; and $11,460, study of regulation of concentration in body liquids, Public Health Service.

Psychiatry
Dr. Leo Abood and *Dr. K. Koketzu*, $12,000, relation of neural metabolism to function, Illinois Department of Mental Health.
Dr. Alvin G. Burstein, $22,464, graduate training, Public Health Service.
Dr. Nahman Greenberg, $68,500, psychosomatic differentiation in infancy, Department of Mental Health; and $21,517, research career development, Public Health Service.
Dr. Ernest A. Haggard, $17,883, studies in learning and personality, Public Health Service.
Dr. Melvin Sabshin, $100,571, basic residency, Public Health Service; $50,000, residency training in psychiatry, Illinois Department of Mental Health; $45,367, undergraduate training, Public Health Service; and $18,296, graduate training, Public Health Service.

Surgery
Dr. Warren H. Cole, $37,633, study of cancer cells in the circulating blood, Public Health Service.
Dr. Ormand C. Julian, $8,293, measurement of flow and pressure in externalized vessels of the intact animal, Chicago and Illinois Heart Association.
Dr. John C. Kukral, $17,739, study of plasma protein metabolism in burned patients, Public Health Service.
Dr. Gerald O. McDonald, $30,000, institutional research grant No. LN-9G, American Cancer Society.

COLLEGE OF NURSING
Miss Rachel Bliss, $30,762, undergraduate training, Public Health Service.
Dr. Mary M. Lohr, $132,374, graduate training, Public Health Service.
Dr. Mary K. Mullane, $55,000, professional nurse traineeship grant, Public Health Service; and $13,500, traineeship grant, Public Health Service.

COLLEGE OF PHARMACY
Chemistry
Dr. Ludwig Bauer, $19,264, study of condensed pyrimidine N-oxides in cancer chemotherapy, Public Health Service.
Dr. Ralph Daniels, $15,613, study of polyhalocyclopropanes as general anesthetics, Public Health Service.
Dr. James E. Gearien, $15,681, study of tetrahydroquinolines of biological interest, Public Health Service.

CAMPUS REPORT

from the Office of the Vice President No. 2, December, 1965

University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
FEB 27 1967
UNIVERSITY OF ILLINOIS

FIRST ALL-CAMPUS FACULTY CONFERENCE: THE EVANS REPORT

ILLINOIS BEACH STATE PARK LODGE, NOVEMBER 22-23, 1965

Eighty-two faculty members attended the conference to consider the report (prepared by Dr. Lester J. Evans), THE UNIVERSITY AND EDUCATION FOR THE HEALTH PROFESSIONS--The University of Illinois: A Case Study.

President David D. Henry, Executive Vice President and Provost Lyle H. Lanier, and Vice President Joseph S. Begando attended the conference which was called to study working papers exploring the challenges to academic and administrative organization, patient care, and health professions education that a changing world places upon the Medical Center Campus. The theme for the conference was: "From Medical Center to Health Center: An Emerging Concept in a Changing World."

Copies of the EVANS REPORT and conference working papers will soon be available for study in the library and departmental offices.

OPENING REMARKS OF THE STEERING COMMITTEE CHAIRMAN

BY DR. WILLIAM J. GROVE, ASSOCIATE DEAN OF THE COLLEGE OF MEDICINE

Welcome to the first all-campus conference for the faculty of the Medical Center. The members of the Conference Steering Committee thank each of you for arranging your affairs in order that you might be present. The Committee is especially appreciative that President Henry and Provost Lanier are able to sit with us as we discuss the concepts suggested by the expression "From Medical Center to Health Center", and as we consider the courses of actions described in the working papers for dealing with the challenges to the health profession as enumerated by Dr. Evans in his report to the University.

To those not directly associated with the Medical Center Campus we extend a special welcome and invitation to enter fully into the activities. The Steering Committee has been guided in planning the Conference by Vice President Begando's statement in the foreword to the EVANS REPORT: "A conference to examine in depth the implications of the EVANS REPORT for the University of Illinois and its Medical Center Campus."

The Committee is solely responsible for extending invitations to the participants. Neither the deans nor the vice president were consulted. No effort was made to have every "area" represented. It was hoped that everyone attending the conference would be able to contribute to the future development of the campus--no matter what direction that development might take. It should be remembered that there are more than sixteen hundred faculty members on this campus. Even when only the salaried full-time faculty is considered this conference provides an opportunity for only one faculty member in six or seven to be heard How will these others be heard? What will be the real significance of the recommendations or resolutions which this conference with so few faculty present may develop? President Henry succinctly answers these queries in the preface to the report with the statement "Out of such review and analysis will come specific recommendations for action within the legislative and administrative channels of the University organization". And lest anyone be unusually concerned about "administrative channels" let me call to your attention another comment by President Henry in the preface, "its (*i.e.*, the report's) ultimate implementation depends upon its acceptance by the faculty and the associated professional leadership." It should be clear then that there is no intent by anyone to mount a lobby for some predetermined plan of action.

The Steering Committee from the outset was aware that the EVANS REPORT did not review at length the past or future role of traditional basic biological research. Yet its role in the future development of the health profession must be examined as carefully as all the other areas of vested interest, i.e., administration, professional interest (both basic and clinical), faculty traditions, etc.

Research in the biological and physical sciences in the past twenty years has received unprecedented support from society and has produced an unprecedented amount of knowledge both factual and conceptual. It is the hope of the committee that the conferees will

concede these self-evident points and further concede that ongoing, expanding support for this type of research activity must not diminish. The committee is hopeful that the members of this conference will deal with such questions as the following: Should there be a health center as contrasted with the traditional, more narrowly conceived medical center? Should the professional colleges of the University be concerned only with disease or should they widen their horizons? If we should be concerned with more than the biological aspect of disease how should we apply ourselves to that concern? Do we really wish to be an integral part of the University of Illinois or are our professional affiliations such that we seek the shelter of the University only when fired upon and reject the discipline of the whole University (i.e., faculty, students and administration) when our own professional goals are not under attack? If we want to be University colleges are we prepared to negotiate with and at times accede to the wishes of the various segments of our campus and other campuses? How can we preserve the traditional purposes of the University and meet the challenges of increasing populations, knowledge, demand for health care, and relatively decreasing health care manpower?

The "why" and the "when" with which this conference must deal are clear. The "what" and "how" are much less definite.

Let us approach the "what" and "how" of the future with vigor ever mindful that we review and critique the past not to depreciate the efforts of those who have gone before us, but rather to build upon their successes in planning for the future.

TEXT OF THE RESOLUTIONS

At the close of the First All-Campus Faculty Conference agreement was reached on the following points. It should not be assumed, however, that every participant necessarily subscribed to every detail of every statement or that every important idea had been incorporated. The conference was not a legislative session--the resolutions adopted will be directed through normal faculty channels.

The Resolutions Committee met with the recorders of the individual discussion groups for the purpose of formulating those resolutions which appeared to represent a general consensus. It was evident that the only subjects discussed in sufficient depth to warrant resolutions were those related to programs for the study of patient care and community health. Discussions related to changes in education for the health professions and in academic and administrative structure were too fragmentary to lead to any general consensus or resolutions.

Those members of the faculty of the University of Illinois informally assembled to consider the report entitled THE UNIVERSITY AND EDUCATION FOR THE HEALTH PROFESSIONS affirms the principle that the Medical Center Campus as a whole has functions and responsibilities which transcend those of the individual colleges. One such responsibility is to address itself to the complex series of new problems at the interface between the community and the University which are inter-disciplinary and inter-professional.

"Therefore be it resolved that:

1. The faculties continue discussion relative to the EVANS REPORT on campus with appropriate committees charged with the study of specific problems.
2. The Vice-President convene future off-campus conferences, if it seems appropriate.
3. The University take steps to establish a Center for the Study of Patient Care and Community Health, this center to include representation from appropriate colleges and campuses.

PROGRAM FOR THE CONFERENCE

MONDAY, NOVEMBER 22

8:00–10:00 a.m.	Registration
10:00–12:00 noon	General session
	The Charge ..... William J. Grove
	The Keynote ..... Joseph S. Begando
	The Report ..... Lester J. Evans
	The Challenge to the Administrative and Academic Organization .... Melvin Sabshin
	General discussion
12:15– 1:45 p.m.	Discussion group luncheon
1:45– 2:30 p.m.	General session
	The Challenge to Medical Care ..... Donald J. Caseley
	General discussion
2:30– 4:30	Small group discussions
6:00– 7:00 p.m.	Social hour
7:00– 8:30	Dinner
8:30– 9:30 p.m.	President's Hour ..... David D. Henry

TUESDAY, NOVEMBER 23

7:30– 8:30 a.m.	Breakfast
8:30–10:00 a.m.	General session
	Impressions ..... Robert W. Rogers, Glenn Terrell
	The Challenge to Education for the Health Professions ..... Maury Massler
	General discussion
10:00–10:15 a.m.	Coffee
10:15–12:00 noon	Small group discussions
12:15– 2:00 p.m.	Luncheon
2:00– 4:30 p.m.	General session
	Report of Resolutions Committee ..... Helen W. Dunn
	Discussion and adoption of resolutions
	Impressions ..... Odin W. Anderson, Hans Mauksch
	Reflections ..... Lyle H. Lanier
4:30 p.m.	Adjournment

Dr. John Williamson

CONFERENCE PARTICIPANTS

* *indicates discussion group leader*
** *indicates discussion group recorder*

Edna L. Anderson
Administrative Assistant to the Dean and Assistant Professor of Nursing, College of Nursing

Odin W. Anderson
Professor and Research Director, Center for Health Administration Studies, University of Chicago

Robert J. Baker
Clinical Assistant Professor of Surgery, College of Medicine

Thomas K. Barber
Professor and Head of the Department of Pedodontics, College of Dentistry

Joseph S. Begando
Vice President, Medical Center Campus

Granville A. Bennett
Dean, College of Medicine

Betty S. Bergerson*
Associate Professor of Nursing, College of Nursing

Lionel Bernstein*
Associate Professor of Medicine, College of Medicine

Stephen B. Binkley
Professor and Acting Head of the Department of Biological Chemistry, College of Medicine

Martin I. Blake
Professor and Head of the Department of Pharmacy, College of Pharmacy

Conrad A. Blomquist
Assistant Dean, College of Pharmacy and Associate Professor of Zoology

Norman A. Brady
Executive Vice President Presbyterian-St. Luke's Hospital

Barbara Brodie
Assistant Professor of Nursing, College of Nursing

M. Rue Bucher**
Associate Professor of Sociology, Department of Psychiatry, College of Medicine

Arlene K. Burroughs
Associate Professor of Nursing, College of Nursing

James A. Campbell
President of Presbyterian-St. Luke's Hospital and Professor of Medicine, College of Medicine

Herbert S. Carlin
Assistant Professor and Director of Hospital Pharmacy

Donald J. Caseley
Medical Director, Research and Educational Hospitals and Associate Dean, College of Medicine

Nicholas J. Cotsonas, Jr.
Professor of Medicine College of Medicine

Frank A. Crane**
Associate Professor of Pharmacognosy, College of Pharmacy

Ralph Daniels
Professor Chemistry, College of Pharmacy

Bruce L. Douglas
Associate Professor of Oral Diagnosis, College of Dentistry

Harry F. Dowling
Professor and Head of the Department of Medicine, College of Medicine

Sheldon Dray
Professor and Head of the Department of Microbiology, College of Medicine

Helen W. Dunn
Director of Nursing, Research and Educational Hospitals and Assistant Professor, Supporting Courses, College of Nursing

Bernard Ecanow
Associate Professor of Pharmacy, College of Pharmacy

Lester J. Evans
Consultant in Education for the Health Professions

I. E. Farber
Professor and Head of the Department of Psychology, Chicago Circle Campus

Cecelia Fennessy
Assistant Professor of Nursing, College of Nursing

Robert W. French
Staff Associate, Chicago Office of the President

William J. Grove
Associate Dean of the College of Medicine and Professor of Surgery

Roger A. Harvey
Professor and Head of the Department of Radiology, College of Medicine

David D. Henry
President of the University

Edsel K. Hudson
Assistant Professor of Medicine, College of Medicine

Ormand C. Julian
Professor of Surgery, College of Medicine

Thomas C. King
Chief, Training Section, Office of Research in Medical Education and Associate Professor of Surgery, College of Medicine

Peter P. Klassen
Professor and Head of the Department of Sociology and Anthropology, Chicago Circle Campus

Lyle H. Lanier
Executive Vice President and Provost

Mark H. Lepper
Professor and Head of the Department of Preventive Medicine and Acting Head of the Department of Public Health, College of Medicine

Mary Lohr
Associate Professor of Nursing, College of Nursing

Nancy L. Martin
Assistant Professor of Nursing, College of Nursing

Maury Massler
Assistant Dean for Postgraduate and Teacher Education and Professor of Pedodontics, College of Dentistry

Hans Mauksch
Dean, College of Liberal Arts and Sciences, Illinois Institute of Technology

Elizabeth A. McGrew
Professor of Pathology, College of Medicine

George E. Miller
Professor of Medicine and Director, Research in Medical Education, College of Medicine

Harry Monsen
Associate Professor of Anatomy, College of Medicine

Ralph W. Morris
Associate Professor of Pharmacology, College of Pharmacy

Mary K. Mullane
Dean, College of Nursing

Milan V. Novak
Associate Dean, Graduate College and Professor of Microbiology

Virginia M. Ohlson
Associate Professor of Nursing, College of Nursing

Adrian M. Ostfeld
Professor of Preventive Medicine, College of Medicine

Alfred J. Perkins
Professor of Chemistry, College of Pharmacy

Wilma J. Phipps**
Associate Professor of Nursing, College of Nursing

Earl W. Renfroe
Professor of Orthodontics, College of Dentistry

Victor E. Ricks
Professor of Education and Director of the Division of Education, Chicago Circle Campus

Norman B. Roberg
Professor of Medicine, College of Medicine

Stuart S. Roberts
Associate Professor of Surgery, College of Medicine

Robert W. Rogers
Dean, College of Liberal Arts and Sciences, Champaign-Urbana Campus

Robert J. Ryan
Associate Professor of Medicine, College of Medicine

Melvin Sabshin
Professor and Head of the Department of Psychiatry, College of Medicine

Max Samter
Professor of Medicine, College of Medicine

Paul Sanazaro
Associate Director, Association of American Medical Colleges

Irving Schulman
Professor and Head of the Department of Pediatrics, College of Medicine

Neena Schwartz*
Associate Professor of Physiology, College of Medicine

Irving I. Secter
Associate Professor of Oral Diagnosis, College of Dentistry

Harry R. Shepard
Associate Professor of Endodontics, College of Dentistry

W. Paul Simon
Assistant Director, Jane Addams Graduate School of Social Work, Chicago Circle Campus

Cedric M. Smith
Professor and Acting Head of the Department of Pharmacology, College of Medicine

John M. Spence
Assistant Dean for Clinics and Professor of Operative Dentistry, College of Dentistry

Martin Swerdlow*
Clinical Professor of Pathology, College of Medicine

Glenn Terrell
Dean of Faculties, Chicago Circle Campus and Professor of Psychology

Wilma Troxel
Librarian, Quine Library of Medical Sciences and Professor of Library Administration

Robert B. Underwood
Professor and Head of the Department of Prosthodontics, College of Dentistry

Paul Verden
Assistant Professor of Nursing, College of Nursing

Donald A. Wallace
Professor of Dental Radiology, College of Dentistry

George L. Webster
Dean, College of Pharmacy

Marvin B. Weiss
Associate Professor and Acting Head of the Department of Operative Dentistry, College of Dentistry

William V. Whitehorn**
Professor of Physiology and Coordinator, Chiengmai Project, College of Medicine

John W. Williamson
Senior Associate, Office of Research in Medical Education, College of Medicine

Arnold V. Wolf
Professor and Head of the Department of Physiology, College of Medicine

James A. Yaeger**
Associate Professor of Histology, College of Dentistry

Seymour H. Yale
Dean, College of Dentistry

CAMPUS REPORT

from the Office of the Vice President No. 3, February, 1965

University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE

FEB 27 1967

UNIVERSITY OF ILLINOIS

TASK FORCE APPOINTED TO CONSIDER EVANS CONFERENCE RESOLUTION

Twenty faculty members have been named to a campus-wide task force to prepare a plan to implement resolution three adopted by participants in the First Faculty Conference, held November 22-23, 1965 to consider the Evans Report. The resolution calls for: "The University (to) take steps to establish a Center for the Study of Patient Care and Community Health, this center to include representation from appropriate colleges and campuses."

In a letter announcing the appointment of the task force, Vice President Joseph S. Begando stated: "It is imperative that a thoughtful, well-conceived plan be prepared for review by the faculty and ultimately for recommendation to the administration and the Board of Trustees.....it is hoped that a preliminary report will be available by July 1, 1966."

In closing, Dr. Begando noted: "The University of Illinois at the Medical Center, Chicago, has the opportunity to be in the forefront of the developing national interest in the concept of research in patient care."

Dr. William J. Grove agreed to serve as chairman of the task force which met January 13. Serving on the task force are:

Dr. William J. Grove, Chairman
Dr. Thomas K. Barber
Dr. Martin I. Blake
Dr. Donald J. Caseley
Dr. Herbert S. Carlin
Dr. Nicholas J. Cotsonas
Dr. Bruce L. Douglas
Dr. Sheldon Dray
Dr. Ormand C. Julian
Dr. Thomas C. King
Dr. Joyce C. Lashof
Dr. Mark H. Lepper
Dr. Mary Lohr
Dr. Elizabeth A. McGrew
Dr. Virginia M. Ohlson
Dr. Adrian M. Ostfeld
Dr. Melvin Sabshin
Dr. Paul Sanazaro
Dr. Irving Schulman
Dr. W. Randolph Tucker

OFFICE OF SPACE UTILIZATION CREATED

The Office of Space Utilization at the Medical Center Campus, Chicago, was established December 1, 1965 for the purpose of providing assistance in collecting data related to space inventories and space utilization. There is a Central Office on the Use of Space in Urbana and another Office of Space Utilization on the Circle Campus established May 1, 1965.

In a recent letter to Executive Vice President and Provost Lyle H. Lanier, Vice President Joseph S. Begando proposed that an Office of Space Utilization be created. Dr. Begando suggested that the functions of the office include:

1. Allocating instructional space that may be used by more than one department (mainly classrooms) for each quarter
2. Scheduling space for use by other than scheduled instruction
3. Enforcing University regulations with respect to use of facilities by student organizations and outside groups
4. Advising Vice President with respect to assignment of existing space, subject to conformity with long-range planning
5. With respect to existing buildings--
   a. Analyzing and coordinating requests for remodeling to be considered by the local Committee on Nonrecurring Appropriations
   b. Preparing items on remodeling to be financed from Capital Appropriations, in conjunction with Physical Plant Department
6. With respect to new buildings
   a. Preparing Program Statements
   b. Recommending space assignments in completed buildings
7. Developing proposed building space planning standards
8. Maintaining an inventory of existing space
9. Providing certain staff services to Campus Planning Committee

Named director of the new office is James F.

Pfister, former assistant to the associate director of the Physical Plant Department. He reports directly to the Office of the Vice President. Joachim H. Minx, formerly a space analyist II in Physical Plant, assists Mr. Pfister in the same capacity.

One of Mr. Pfister's responsibilities is to make space estimates for proposed new buildings. When calculating the total amount of space needed by personnel who will occupy the structure, he must evaluate the educational, research, and service programs planned by administrative officials in terms of the number of classrooms, laboratories, offices, clinics, and hospital rooms. Resource materials providing information about similar structures at other universities, an inventory of past requirements, and minimum space standards for different types of educational and medical facilities are all used to determine the specifications for the new building.

Recently, Mr. Pfister made space estimates for the proposed new College of Nursing Building, the East Dentistry-Medicine-Pharmacy Building Addition, and the 7th and 8th floor additions to the Medical Sciences Addition. Projects presently under way include estimates for structures to be considered for the 1967-69 building program and a comprehensive study of space requirements for the Research and Educational Hospitals.

In addition to space estimates, the Office of Space Utilization is responsible for a detailed inventory of the space occupied by every department and office on this campus. The purpose of the inventory is to provide statistical data on the use of space. These space estimates and inventories are essential not only when planning new facilities but also when applying for matching federal funds, a procedure demanding carefully computed estimates of space requirements and detailed technical information.

Also, the office compiles a Program Statement for new construction or remodeling projects. This comprehensive report catalogs all data relative to the construction of a facility, including space allocations, equipment, and costs.

Assignment of classrooms and enforcement of University regulations with respect to use of the facilities will also be under the direction of Mr. Pfister's office by next fall.

FIELD SAFETY OFFICER APPOINTED

Raymond S. Stephens, recently appointed Safety Officer, is charged with maintaining and expanding a safety and fire prevention program for the Medical Center Campus. A former safety consultant in private industry, Mr. Stephens joined the University when the Safety Office was established October 4, 1965 at the request of Vice President Joseph S. Begando. He is under the administrative direction of the Office of the Vice President.

Mr. Stephens' responsibilities are similar to those of the Safety Officers at the Urbana and Circle Campuses. He is expected to:

1. Recommend codes and standards and interpret the UNIVERSITY STANDARDS FOR SAFETY for the Medical Center Campus
2. Consult with faculty and staff persons in matters of safety
3. Cooperate with committees concerned with matters of safety
4. Provide problem-solving services
5. Investigate injuries and accidents with a view toward improving methods and equipment and removing hazards
6. Review plans for new construction and building alterations for points of safety and fire safety
7. Maintain a complete library of technical literature
8. Establish a liaison with state and local safety and fire prevention authorities
9. Provide inspection services related to safety and fire prevention

BRIEFLY NOTED

Dr. Adrian M. Ostfeld was elected chairman of the Faculty Advisory Committee in a meeting held December 3, 1965.

A committee has been appointed by Vice President Joseph S. Begando to represent the Medical Center Campus in planning for the University Centennial, February, 1967 to March, 1968. Named to the committee are: **Dr. Conrad A. Blomquist**, chairman, **Dr. Thomas K. Barber, Dr. Donald J. Caseley, Dean Maurice J. Galbraith, Professor A. Hooker Goodwin, Mr. Stuart M. Kaminsky, Mr. Clarence C. Leverenz, Mr. Max I. Light, Dr. Donald M. Martin, Dr. Melvin Sabshin, Miss Nancy Stence** and **Mr. Warren F. Wakerlin**, president of the Executive Student Council.

Following nomination by the Senate, President David D. Henry recently named **Dr. Nicholas J. Cotsonas**, professor of medicine, to the Budget Committee for 1965-67. Vice President Joseph S. Begando is an ex officio member of the committee.

Student leaders from the Medical Center Campus joined President David D. Henry January 26 at an annual luncheon meeting to promote better communication between students and administration. A question and answer period followed the lunch and address by President Henry.

The University of Illinois received $40,361,941 in gifts and grants from outside sources--an increase of $3,240,524--during the fiscal year which ended June 30, 1965, President David D. Henry reported at a recent Board of Trustees meeting.

"Medically Speaking" is the name of a new weekly television series featuring faculty members from the Medical Center Campus. **Dr. William C. Dolowy** hosts the 11 shows which can be seen Tuesdays at 9:30 p.m. on Channel 11, February 1 through April 12. Participants in the series are: **Dr. Louis D. Boshes, Dr. Frank A. Crane, Dr. Theodore A. Fox, Dr. Mark H. Lepper, Dr. Armand Littman, Dr. Gerald O. McDonald, Dr. Donald E. Ore, Dr. Adrian M. Ostfeld, Dr. Theodore R. Sherrod, Dr. Irving E. Steck** and **Dr. Francis J. Tenczar.**

On the recommendation of Executive Vice President and Provost Lyle H. Lanier, President David D. Henry recently appointed three Medical Center Campus faculty members to the all-University Committee on Human Relations and Equal Opportunity. **Dr. Thomas K. Barber, Dr. Stephen B. Binkley,** and **Dr. Theodore R. Sherrod** will serve this year.

Following nomination by the Medical Center Senate, **Dr. John M. Spence** has been reappointed to the Advisory Committee to the Board of Trustees of the State Universities Retirement System. He will serve a three-year term beginning January 1, 1966.

Membership of the Committee on Institutional Data has been expanded to include representatives from the two Chicago Campuses. **David W. Bonham, Ottie P. Carter,** and **Anthony J. Diekema** will represent the Medical Center Campus on the committee whose primary purpose will be to develop plans and procedures for effecting better coordination among the major administrative offices of the University as regards the flow and analysis of institutional data.

Dr. Donald J. Caseley has been named to the newly created University Council on Extension and Public Service. The primary responsibility of the all-University committee will be to advise President David D. Henry concerning the objectives, policies, organization, and operation of the University's adult-education and other public-service functions throughout the state.

Three members of the Medical Center Campus faculty are serving three-year terms on the Senate Coordinating Council. They are: **Dr. Melvin Sabshin,** whose term expires in 1966; **Dr. Ralph Daniels,** who will serve until 1967; and **Dr. Maury Massler,** serving until 1968.

President David D. Henry recently named four faculty members from the Medical Center Campus to the University Council on General Education. Serving on the council for the 1965-67 biennium are: **Dr. Maury Massler, Dr. Ralph W. Morris, Miss Wilma J. Phipps, and Dr. Melvin Sabshin.**

Named to the Life Sciences Committee for the biennium 1965-67 are two Medical Center Campus faculty members. **Dr. Conrad A. Blomquist** and **Dr. Harold O. Feinberg** were asked by President David D. Henry to serve on the committee.

GRANTS TOTALING $1,793,831 ACCEPTED DURING THREE-MONTH PERIOD

During the past three months research and training grants totaling over $1,793,831 were accepted by the Medical Center Campus.

The College of Medicine received $1,678,567 and the College of Dentistry received $92,325 for the period ending January 24, 1966.

Grants amounting to $17,853 and $5,086 were awarded to the Colleges of Pharmacy and Nursing respectively.

The largest grant was $197,901, awarded by the Public Health Service for general research support under the supervision of Dr. William J. Grove, associate dean of the College of Medicine and professor of surgery.

Research grants over $5,000 are listed below by college, department, and name of investigator.

COLLEGE OF DENTISTRY

Administrative

Dean Seymour H. Yale, $62,036, general research support, Public Health Service.

Histology

Dr. Arthur F. Grimm, $15,541, growing or enlarged striated musculature, Public Health Service.

Oral Pathology

Dr. Herman Medak, $14,748, oral cytologic study of nonsmokers and smokers, Public Health Service.

COLLEGE OF MEDICINE

Administrative

Dr. William J. Grove, $197,901, general research support, Public Health Service.

Biological Chemistry

Dr. Henry Jeffay, $8,414, protein metabolism in oral tissue, Public Health Service.

Dr. Janos Molnar, $13,806, metabolism of plasma glycoproteins, Public Health Service.

Dr. Joseph Samachson, $21,006, surface chemistry of bone, dentin, and enamel, Public Health Service.

Medicine

Dr. Harry F. Dowling, $58,598, repeated infections and progress of chronic bronchitis, Public Health Service.

Dr. Jerome J. Hahn, $11,774, chemistry of C and CX reactive proteins, Public Health Service.

Dr. George G. Jackson, $31,383, viruses causing common respiratory infections, Public Health Service.

Dr. Max Samter, $10,132, sulfhydryl groups in eosinophilia, Public Health Service.

Pediatrics

Dr. Irving Schulman, $6,455, anti-leukemic therapy, Central Council Leukemia Research Foundation.

Pharmacology

Dr. Martin P. Schulman, $17,522, effect of desoxypyridoxine in porphyria, Public Health Service.

Physiology

Dr. Ruven Greenberg, $15,896, role of adrenal medullary granules, Public Health Service.

Dr. Pierto O. Bramante, $12,000, energy metabolism of experimental myocardial lesions, Public Health Service.

Preventive Medicine

Dr. Adrian M. Ostfeld, $125,363, epidemiology of cerebrovascular disease, Public Health Service.

Psychiatry

Dr. M. Rue Bucher, $15,661, mechanisms of professional socialization, Public Health Service.

Dr. Shepard G. Kellam, $59,053, adaptation and mental illness in the classrooms of a small, urban community, Illinois Department of Mental Health.

Dr. Hyman L. Muslin, $15,300, teaching and learning of psychiatric interviewing, Illinois Department of Mental Health.

Surgery

Dr. Robert J. Jensik, $39,904, lung cancer pre-operative radiation therapy study, Public Health Service.

Dr. John C. Kukral, $18,399, role of the liver in plasma protein metabolism, Public Health Service.

COLLEGE OF NURSING

Dean Mary K. Mullane, $5,086, professional nurse traineeship grant. Public Health Service

COLLEGE OF PHARMACY

Pharmacognosy and Pharmacology

Dr. Bernard Greenberg, $17,853, host-contaminant biology of muscoid flies, Public Health Service.

FEB 27 1967
UNIVERSITY OF ILLINOIS

SERVICE RECOGNITION DINNER SET FOR MAY 3, 1966

Retirees and staff members with 25 years of service to the University will be honored at the Service Recognition Dinner scheduled for 6 p.m., May 3, in the Chicago Illini Union Building. Speaker at the program will be Mr. Herbert O. Farber, Vice President and Comptroller.

Staff members with 25 years of service are:

Dr. Evan M. Barton
Dr. Herbert C. Breuhaus
Miss Grace A. Calmer
Mrs. Marian Florio
Dr. Stanton A. Friedberg
Dr. James A. Gagnon
Dr. Earle Gray
Dr. C. Jack Harrison
Dr. Everett T. Hoppe
Mr. Gust M. Hultquist
Dr. Roland L. Kesler
Dr. Matthew M. Lewiston
Miss Beata Link
Dr. Rocco V. Lobraico, Jr.
Miss Clarice Marriott
Mrs. Dorothy C. McCullough
Mrs. Frances M. McGinn
Dr. Bertram G. Nelson
Dr. John Post
Dr. Karl J. Scheribel
Dr. Armin F. Schick
Dr. Noel G. Shaw
Dr. Albert H. Slepyan
Dr. Fay M. Squire
Dr. Elizabeth M. Straus
Dr. Samuel G. Taylor, III
Mr. Frank Wajda
Dr. Linden J. Wallner
Dr. Norman T. Welford

Retirees being honored at the dinner include:

Mr. Hershel G. Baker
Mr. Jack J. Billow
Dr. Allan G. Brodie
Dr. Hugh T. Carmichael
Dr. Warren H. Cole
Mr. Dominick Constantine
Mrs. Elizabeth D. Costa
Dr. William F. Dove
Professor Herbert M. Emig
Mrs. W. Frances Furlow
Mrs. Elizabeth Furnas
Dr. William Haines
Mrs. Minie Henderson
Dr. Franz E. Hirsch
Mrs. Lucille Hoff
Mr. Fred A. Howe
Mr. Alvin W. Hughes
Mrs. Joseph Juhasz
Dr. William J. Kirby
Mrs. Helen G. Kittilson
Dr. Theodore B. Kurtz
Mrs. Rachel Purnell
Dr. Colquitt O. Ritch
Dr. Frederick J. Roos
Mrs. Erna M. Russell
Mrs. Florence Sanborn
Dr. Frederick W. Schacht
Dr. Lindon Seed
Dr. Parke H. Simer
Dr. Alfred Solomon
Dr. George W. Stuppy
Miss Annabel Wheeler
Dr. Seymour Weinstein
Miss Helen E. Wyle

BRIEFLY NOTED...

President David D. Henry and Executive Vice President and Provost Lyle H. Lanier have delegated to **Vice President Joseph S. Begando** authority for final administrative approval of all appointments to the academic staff for whom contracts issued by the Board of Trustees are not required. The appointments initially will include assistants and members of the nonsalaried staff.

Annual Open House for the Medical Center Campus will be held Friday, April 22, 7:00 p.m. to 9 p.m. Guests will be directed to specific rooms where tours will originate for the Colleges of Dentistry, Medicine (including School of Associated Medical Sciences), Nursing, and Pharmacy, and the Research and Educational Hospitals.

Dr. M. Rue Bucher, assistant professor of sociology in the Department of Psychiatry, has been added to the campus-wide task force appointed by Dr. Joseph S. Begando (See CAMPUS REPORT, No. 3, February, 1966) to prepare a plan to implement resolution three adopted by Evans Conference participants in November. The resolution calls for the University to establish a Center for the Study of Patient Care and Community Health.

GRANTS TOTALING $919,373 ACCEPTED SINCE JANUARY 24, 1966

Research and training grants totaling over $919,373 have been accepted by the Medical Center Campus since January 24, 1966.

The College of Medicine received $731,576 and the College of Dentistry received $159,846 for the period ending March 28, 1966. Over $27,933 was awarded to the College of Pharmacy.

COLLEGE OF DENTISTRY

Histology

Dr. Franklin C. McLean, $19,680, regulatory processes in growth and metabolism of bone, Public Health Service.

Dr. James A. Yaeger, $115,763, hard tissue-soft tissue interfaces in teeth and bone, Public Health Service.

Oral Pathology

Dr. Julia Meyer, $24,403, studies on normal and altered oral mucosa, Public Health Service.

COLLEGE OF MEDICINE

Anatomy

Dr. Arthur A. LaVelle, $15,667, lipid and nucleoprotein in developing nerve cells, Public Health Service.

Biological Chemistry

Dr. Clyde C. Doughty, $14,164, microorganism growth on glycerate and glyceraldehyde, Public Health Service.

Dr. Clarence A. Johnson, $12,350, studies on nonheme components of human erythrocytes, Public Health Service.

Dr. Bernard Weissman, $13,019, origins of urinary purine bases, Public Health Service.

Medicine

Dr. Robert W. Carton, $6,974, lung function in heritable disorders of connective tissue, The National Foundation.

Dr. Harry F. Dowling, $9,000, work of an investigative nature in infectious diseases and related fields, Lederle Laboratories Division of American Cyanamid Company.

Dr. Walter Fried, $13,127, the mechanism of regulation of the haematologic stem cell compartment, American Cancer Society, Illinois Division.

Dr. George G. Jackson, $33,000, transmission of the common cold to volunteers under controlled conditions, Department of the Army, Office of the Surgeon General; $31,186, bacterial species and host response in pyelonephritis, Public Health Service; $18,000, unrestricted grant, E. 1. DuPont de Nemours Co., Inc.; $12,000, transmission of the common cold to volunteers under controlled conditions, Department of the Army, Office of the Surgeon General.

Dr. Robert J. Ryan, $17,965, pituitary gonadotrophic hormones, Public Health Service.

Microbiology

Dr. Sheldon Dray, $49,624, serum protein allotypes, Public Health Service.

Pediatrics

Dr. Marvin Cornblath, $13,886, development of rate limiting enzymes in carbohydrate metabolism, National Foundation.

Dr. Samuel P. Gotoff, $20,493, immunologic diagnosis of intrauterine infection and it's relationship to congenital cerebral abnormalities and mental retardation, Illinois Department of Mental Health.

Dr. Hilda Knobloch, $24,182, training in child development, Division of Health Services, Health, Education and Welfare.

Dr. Irving Schulman, $34,151, hemorrhagic disease in infants and children, Public Health Service.

Pharmacology

Dr. Allen W. Gomoll, $15,592, digitalis on adrenal cortical hormone formation, Public Health Service.

Dr. Martin P. Schulman, $24,240, metabolism of aliphatic alcohols, Public Health Service.

Dr. Cedric M. Smith, $23,227, drug effects on muscle afferent systems, Public Health Service.

Physiology

Dr. Norman R. Alpert, $10,000, study in education and development of medical education for national defense, Department of the Navy.

Dr. William J. Moressi, $10,314, analysis of radiation-induced survival patterns of sarcoma cells, American Cancer Society, Illinois Division.

Dr. A. V. Wolf, $32,000, refractometric analysis of water in body fluids, Department of the Army, Office of the Surgeon General.

Preventive Medicine

Dr. Mark H. Lepper, $48,132, epidemiology of gram negative rods in hospitals, Public Health Service.

Dr. Adrian M. Ostfeld, $11,200, studies of MK-615 and clinical pharmacology, Merck Sharp & Dohme Research Laboratories.

Psychiatry

Dr. M. Rue Bucher, $27,672, mechanism of professional socialization, Public Health Service; $9,967, mechanism of professional socialization, Public Health Service.

Dr. Arthur Kling, $65,677, experimental CNS lesions and psychosomatic maturation, Public Health Service.

Dr. Sheldon K. Schiff, $62,952, evaluation of a community-wide program in first grade, Public Health Service.

Surgery

Dr. Ormand C. Julian, $6,816, adequacy of tissue perfusion during cardiac by-pass, Public Health Service.

Dr. Gerald O. McDonald, $33,470, effect of drugs upon DNA synthesis, Public Health Service.

Dr. Stuart S. Roberts, $6,240, reduced resistance to cancer caused by stress, Public Health Service.

Dr. Danely P. Slaughter, $5,289, continuing grant-supported training program, Public Health Service.

COLLEGE OF PHARMACY

Chemistry

Dr. Cecilio E. Gracias, $27,933, analytical studies of air pollution, Public Health Service.

SENATE STANDING COMMITTEES ELECTED

Standing committees and representatives to University councils for 1966-67 were announced recently by the Senate of the University of Illinois at the Medical Center. New members, replacing those whose terms expire this year, were elected April 6 following presentation of a slate of nominees by the Senate Committee on Committees.

Listed below are the names of all committee members and newly-appointed representatives, their terms, and chairmen of the committees.

Committee on Committees
Dr. William V. Whitehorn,** 1966-67
Dr. Maury, Massler, 1966-67
Dean Mary K. Mullane, 1966-67
Dr. Adrian M. Ostfeld, 1966-67
Dr. Alfred J. Perkins, 1966-67

Committee on Library†
Dr. Roy Gillette,** 1964-67
Dr. Harry F. Dowling,* 1965-68
Miss Wilma J. Troxel, 1964-67
Miss Ruth M. Barnard, 1966-69
Dr. Martin I Blake, 1966-69

Committee on Honorary Degrees
Dean Milan V. Novak,** 1964-67
Mrs. Vernita Kay,* 1965-68
Dr. Marvin B. Weiss, 1965-68
Dr. Luis de la Torre, 1966-69
Dr. Hubert R. Catchpole, 1966-69

Committee on Acodemic Freedom ond Tenure†
Dr. Charles L. Bell,** 1966-69
Dr. Thomas K. Barber,* 1965-68
Miss Barbara Brodie, 1964-67
Dr. Adolph Rostenberg, Jr., 1964-67
Dr. George G. Jackson, 1966-69

Committee on Educotionol Policy†
Dr. Adrian M. Ostfeld,** 1964-67
Dr. Virginia M. Ohlson,* 1964-67
Dr. Frederick P. Siegel, 1964-67
Dr. James A. Yaeger, 1964-67
Dr. Arnold V. Wolf, 1965-68
Dr. Peter C. Kronfeld, 1965-68
Dr. Sheldon Dray, 1966-69
Dr. Bernard Greenberg, 1966-69
Dr. Joan M. King, 1966-69
Dr. Earl W. Renfroe, 1966-69

Senote Coordinoting Council Representotives
Dr. Irving Schulman, 1966-69
Dr. Maury Massler, 1965-68
Dr. Ralph Daniels, 1964-67

Committee on University Colendor
Mr. George E. Moon,** 1964-67
Dr. Verda E. James,* 1966-69
Miss Edna L. Anderson, 1965-68
Dr. William J. Grove, 1965-68
Dr. Conrad A. Blomquist, 1966-69

Committee on Student Discipline
Dr. Joseph S. Begando**
Dean Granville A. Bennett
Dean Maurice J. Galbraith
Mr. George E. Moon
Dean Mary K. Mullane
Dean Milan V. Novak
Dean George L. Webster
Dean Seymour H. Yale

INSTRUCTIONAL TELEVISION DEVELOPED AT MEDICAL CENTER CAMPUS

Richard J. Bowman heads the new Instructional Television Section of Illustration Studios which offers closed-circuit and videotape productions to all departments at no charge. As ITV Coordinator, Mr. Bowman is general administrator of the section, producer-director of the closed-circuit television at the Medical Center Campus, and member of the 18-man Committee on Instructional Resources.

In a recent report to the Committee, Mr. Bowman examined the potential use and value of instructional television at the Medical Center Campus. He stated that for a long time the role of his section will be that of a service facility for the faculty.

By recording the demonstration portions of their lectures on videotape, faculty members can insure the success of complicated experiments and save valuable time from setting them up for each class. Unique clinical cases can be permanently recorded, edited, and presented at appropriate times. And, time can be condensed so that a 50-minute videotape shows students a surgical procedure, postoperative treatment, and healing process which actually occured over a period of weeks.

With permission of the film maker, a film can also be transferred to videotape and used without re-ordering or renting each time it is to be shown. According to Mr. Bowman, this process is particularly useful in the Medical Sciences Addition.

From Mr. Bowman's arrival at the Medical Center Campus in September to the middle of June, 1966, a total of 95 classes utilized instructional television. In addition, 46 lessons were recorded on videotape for future use.

On December 3, Mr. Bowman directed Medical Center Campus participation in the experimental television and Urbana-Champaign Campuses. Initial evaluation has shown that such a hookup is both technical feasible and in many areas useful.

Permanent installation of audio and video lines connecting the three University of Illinois campuses, major medical centers in the Midwest, and eventually the entire nation may be necessary in the forseeable future, reports Mr. Bowman. The sharing of videotape information, demonstrations, and lectures is already being studied by the Committee on Inter-institutional Cooperation.

At the present time, newly-remodeled room 421 of the Dentistry-Medicine-Pharmacy Building serves as a production studio for Mr. Bowman and his staff. Mr. Bradley Anderson, who has been working with instructional television in the Aeromedical Laboratories for five years, is the closed-circuit television engineer. Television camerman Mr. Raymond V. Johnson is also a former employee of the Aeromedical Laboratories. Another television camerman, Mr. Albert Venture, worked with closed-circuit equipment under Dr. John M. Spence in the College of Dentistry.

BRIEFLY NOTED . . .

Executive Vice President and Provost Lyle H. Lanier recently invited representatives from the Medical Center Campus to serve on two Ad Hoc committees of the University.

Members of the Ad Hoc Committee on Financial Aid to Students are **Dr. Joseph S. Begando, Dr. Anthony J. Diekema,** and **Dean Maurice J. Galbraith.** The Committee recommends: criteria to be used in the allocation of funds among the campuses; policies to be followed in awarding scholarships; and organizational arrangements for conducting the scholarship programs, including coordination among the responsible administrative agencies at the University's three campuses.

Dr. Anthony J. Diekema and **Dean Maurice J. Galbraith** also represent the Medical Center Campus on the Ad Hoc Committee on University Articulation with Schools and Junior Colleges. The Committee examines and formulates policies for the University's articulation programs which are aimed at improving preparation and readiness of high school students tor University work through coordination of curricula and better orientation.

Copies of the commencement address delivered by Dr. John S. Millis, president of Western Reserve University at the June 10 graduation exercises are available from the Office of the Vice President. President Millis spoke to 464 graduates of the University of Illinois at the Medical Center, Chicago.

The appointments of three new department heads at the Medical Center Campus have been approved recently by the University's Board of Trustees. In the College of Dentistry, **Dr. James A. Yeager** will head the Department of Histology and **Dr. Earl W. Renfroe,** the Department of Orthodontics. The College of Medicine's Department of Preventive Medicine and Community Health will be headed by **Dr. Adrian M. Ostfeld.**

On the recommendation of the Dean of the College of Veterinary Medicine and Director of the Center for Zoonoses Research, **Dr. William C. Dolowy,** administrator for the Medical Research Laboratory at the Medical Center Campus, has been named a Senior Member of the Center for an indefinite tenure.

GRANTS TOTALING $1,142,334 ACCEPTED SINCE APRIL

Research and training grants totaling over $1,142,334 have been accepted by the Medical Center Campus since the middle of April.

The College of Medicine received over $814,842 during this period, and the College of Dentistry received $263,577. Grants amounting to $63,915 were awarded to the College of Pharmacy.

The largest grant received since April 14 was $234,113 from the Department of Health, Education and Welfare for the "Development of a Center for Continuing Education," under the supervision of Dr. George E. Miller, director of the Office of Research in Medical Education.

Research grants over $5,000 are listed below by college, department, and name of investigator.

COLLEGE OF DENTISTRY

Administrative

Dean Seymour H. Yale, $29,917, general research support, Public Health Service.

Cleft Palate Clinic

Dr. Samuel Pruzansky, $58,568, congenital malformations of the head, Public Health Service.

Histology

Dr. Arthur F. Grimm, $85,115, growth and function of the oral striated musculature, Public Health Service.

Oral Pathology

Dr. Herman Medak, $70,942, community cancer demonstration project for the early detection of oral cancer, Public Health Service.

Dr. Maury Massler, $19,035, age changes in the epithelium of the oral mucosa, Public Health Service.

COLLEGE OF MEDICINE

Administrative

College of Medicine, $37,380, National Fund for Medical Education.

Dr. William J. Grove, $139,660, general research support, Public Health Service.

Biological Chemistry

Dr. Paul Kohn, $13,677, intestinal absorption of carbohydrates, Public Health Service.

Dr. Janos Molnar, $34,706, metabolism of glycoproteins, American Cancer Society.

Medicine

Dr. Neil S. Cherniack, $17,683, role of PH in causing unstable respiratory control, Public Health Service.

Dr. Nicholas V. Costea, $27,715, study of cold agglutinin production and inhibition in rabbits, Public Health Service.

Dr. Clarence L. Gantt, $21,232, non-aldosterone renal sodium retaining mechanisms, Public Health Service.

Microbiology

Dr. Sheldon Dray, $42,080, allergy and immunology, Public Health Service.

Dr. Carolyn W. Hammond, $15,778, radiation protection by cultured hemic cells, Public Health Service.

Dr. David H. Lavrin, $18,918, immunological study of viruses associated with mammary tumorigenicity in mice of C3H tentype, American Cancer Society.

Orthopaedic Surgery

Dr. Robert D. Ray, $52,239, mobilization of radioactive emitters from bone, Atomic Energy Commission.

Otolaryngology

Dr. Nicholas Torok, $11,513, clinical nystagmography, Public Health Service.

Pathology

Dr. Kurt Stern, $15,069, isosensitization caused by pregnancy or transfusion, Public Health Service.

Pediatrics

Dr. H. David Mosier, $10,643, effect of nicotine on the fetal and neonatal rat, Public Health Service.

Dr. Jo Anne Whitaker, $10,926, bone marrow, Parke, Davis & Company.

Pharmacology

Dr. Bernard P. Salafsky, $15,444, extent of neuronal control on skeletal muscle, Public Health Service.

Physiology

Dr. Neena B. Schwartz, $31,607, environmental and hormonal interplay of ovulation, Public Health Service.

Dr. Lawrence Stark, $40,068, biomedical engineering, Public Health Service.

Dr. William V. Whitehorn, $24,401, endocrine factors in myocardial function, Public Health Service.

Dr. George E. Miller, $234,113, development of a center for continuing education, Department of Health, Education and Welfare.

COLLEGE OF PHARMACY

Chemistry

Dr. Ludwig Bauer, $28,704, anti-radiation drugs, Department of the Army, Office of the Surgeon General.

Dr. Dominick A. Coviello, $15,343, a-alkysoximinomercaptans for protection in radiotherapy, Public Health Service.

Pharmacy

Dr. Martin I. Blake, $19,868, studies with fully deuteriated antibiotics, Public Health Service.

CAMPUS REPORT

from the Office of the Chancellor No. 6, September, 1966

University of Illinois at the Medical Center, Chicago

PARKING PROGRAM FOR MEDICAL CENTER CAMPUS

The present parking program at the Medical Center Campus had its beginning in October, 1959, when the Committee on Parking and Traffic first met to discuss parking problems and appropriate solutions. After almost two years of investigation, data gathering, consultation and meetings, the Committee on Parking and Traffic recommended a self-supporting paid parking program. Following administrative review the program was approved by the University of Illinois Board of Trustees and became effective in September, 1961.

Income from parking fees has been used to provide improvements in the existing parking lots and occasional additions to the total parking facilities. However, new building construction will result in the loss of a number of parking areas now in use. For example, construction of the College of Nursing building later this academic year will result in the loss of over 200 parking spaces in the A-2/A-3 lot (located approximately at the corner of Damen Avenue and Taylor Street). It is anticipated that a future extension of the Residence Hall-Union Building complex will result in the loss of 39 parking spaces in the A-1 lot (located at the corner of Damen Avenue and Polk Street). New buildings for which funds are being requested in the 1967-69 biennium will result in the additional loss of over 400 parking spaces.

With more intense use of available land for new buildings, it is necessary that additional parking areas be constructed. Because appropriated funds are not available for parking programs, financing must be accomplished through the use of borrowed funds. The first phase of a new program now underway includes leveling, paving, fencing, lighting and installation of control gates for the following areas:

(1) the area between Hermitage Avenue and the elevated right of way between Polk and Taylor streets (presently identified as E-2/E-3, to be known as E-1 after October 1, 1966

(2) the south half of the block bounded by Polk, Taylor, Paulina and Marshfield Streets (presently identified as F-2/F-3, to be known as F-1 after October 1, 1966

(3) the lot located at the northeast corner of Marshfield Street and Taylor Street (identified as Lot G-3)

The north half of the block bounded by Polk, Taylor, Paulina and Marshfield Streets will also be controlled, but improvements will be minimal inasmuch as this area has been designated as the site for the proposed College of Dentistry building, and thus may be in service only for a period of two years. The second phase of the program is to be improvement of the area between the elevated tracks and Paulina Street between Polk and Taylor Streets.

The first phase of construction is programmed for completion by October 1, 1966, and will double the number of controlled parking spaces presently available. This increase will not only offset the losses in stalls described in the above paragraphs, but will provide additional controlled parking spaces in order to meet the expanding needs of the campus. Completion of the second phase will add 300 additional controlled stalls. The total capital cost for both phases of construction is estimated to be $385,000.

Funds for the first phase of the program have been provided through an agreement with the University of Illinois Foundation, by which a ten-year bank loan was negotiated. Income from the paid parking program must be sufficient to cover the cost of principal and interest payments and the cost of operation and maintenance of the parking lots. All University lots (existing as well as new lots) will be a part of the paid parking program, and the revenue received from them is pledged for the above purposes.

Parking fees for the 1966-67 parking year have been adjusted to meet the costs noted above. The parking fees, which become effective October 1, 1966, are as follows:

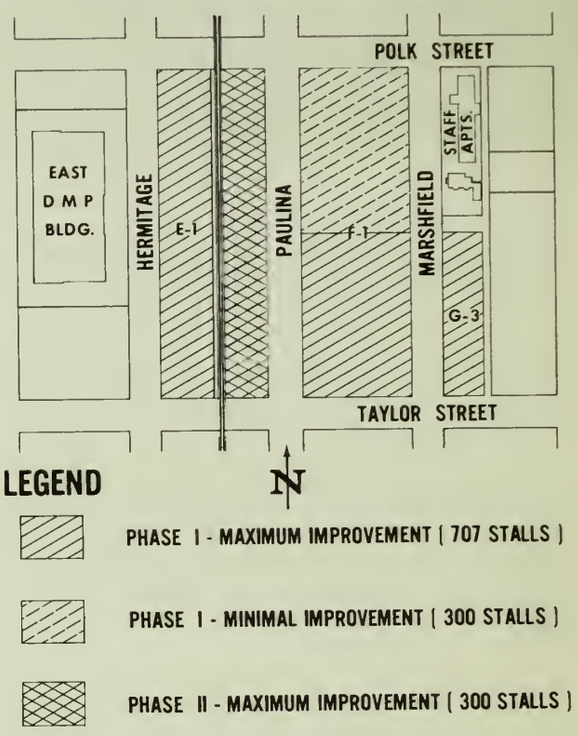
Controlled Access Lot	$60.00 per year
Reserved Stall	$80.00 per year
Coin-Operated Lot.....	$.25 in and $.25 out

Approximately one half of the income from parking fees will be used for debt service payments (principal and interest on the ten-year loan), and the remainder will be required to operate and maintain the lots.

A similar borrowing program was undertaken a few years ago at the Urbana-Champaign Campus, and more recently at the Chicago Circle Campus. As a result, fees for parking are quite similar at all three campuses.

Information regarding application for a parking permit may be obtained from the Physical Plant Department at 721 South Wood Street. Application forms are also available at the Office of Student Affairs, University Police office, University Business office, Hospital Administration office, and departmental offices in each of the colleges.

CURRENT PARKING LOT CONSTRUCTION PROGRAM



ASSIGNMENT OF GENERAL UNIVERSITY CLASSROOMS

In a memorandum dated August 12, 1964, the assignment of general University classrooms at the Medical Center Campus both for regular instructional use and for special events was consolidated in the office of Dr. John P. Marbarger, chairman of the Campus Planning Committee. At the time of the announcement it was understood that the space assignment function ultimately would be transferred to an office to be established for that purpose.

On December 1, 1965 the Office of Space Utilization was established. The duties assigned included scheduling of classroom space. Effective August 15, 1966, all requests for classroom assignments for instruction and for special events will be addressed to Mr. James F. Pfister, Director of the Office of Space Utilization, 315 Chicago Illini Union Building. Requests to be placed by telephone should be directed to Miss Dorothy McLaurin, extension 7140.

The rooms currently designated for central scheduling are as follows:

Building	Room Number	Facility
#909	106	lecture room
(1st Unit DMP)	217	classroom
	221	lecture room
	309	classroom
	311	classroom
	421	classroom
	423	lecture room
	536	classroom
#910	367	conference room
(2nd Unit DMP)	585	amphitheater
	670	classroom
	878	classroom
#924	55	lecture room
(East DMP)	56	lecture room
	141	classroom
	202	classroom
	406	classroom
	500	classroom
	512	classroom

CAMPUS REPORT

from the Office of the Chancellor No. 7, January, 1967

University of Illinois at the Medical Center, Chicago

FEB 27 1967

UNIVERSITY OF ILLINOIS

CAMPUS COMMITTEE APPOINTMENTS EFFECTIVE SEPTEMBER 1, 1966

The following committee appointments have been made by the Chancellor effective as of September 1, 1966. The majority of appointments are for the period September 1, 1966 through August 31, 1967. Exceptions are listed accordingly. The committees' list includes the chairman and regular members. Special explanation is noted in some instances.

** Chairman +Effective thru August 31, 1968 ++Effective thru August 31, 1969*

COMMITTEE ON ARRANGEMENTS FOR SPECIAL EVENTS

Dean Maurice J. Galbraith*
Dr. Truman O. Anderson
Miss Charleen C. Caldwell
Mr. Harry G. Higgins
Dr. Verda E. James
Dr. Terrell C. Meyers
Dr. Frederick P. Siegel
Dr. John M. Spence
Professor Beatrice D. Wade
Professor Jean M. Wood

CAMPUS CHEST COMMITTEE

Dean Maurice J. Galbraith*
Miss Edna L. Anderson
Mrs. Gertrude Meiers
Mr. Harry G. Higgins+
Dr. Charles E. Richards+
Dr. Marvin Weiss+
Miss Rose Ann Grundman++
Mr. Frank N. Brockway++
Mr. Ward L. Walhay++

CAMPUS PLANNING COMMITTEE

Dr. John P. Marbarger*
Professor Edna L. Anderson
Dr. Thomas K. Barber
Dean Granville A. Bennett
Dr. Donald J. Caseley
Dr. Ralph Daniels
Dr. William J. Grove
Dean Mary K. Mullane
Professor Wilma Troxel
Dean George L. Webster
Dean Seymour H. Yale

ADMINISTRATIVE STAFF MEMBERS:

Mr. Jesse C. Caraway
Mr. F. E. Hostettler
Mr. David W. Bonham
Mr. James F. Pfister

COMMITTEE ON COMMENCEMENT

Director George R. Moon*
Miss Charleen C. Caldwell
Miss Velma M. Davis
Dr. Anthony J. Diekema
Dean Maurice J. Galbraith
Dr. James E. Gearien
Mr. Frank W. Houck
Dr. Raymond C. Ingraham (Grand Marshall)
Dr. Clarence A. Johnson
Mr. Max I. Light
Professor Florence E. Sherbon
Dr. Irving Schulman (M.C.)
Dr. Donald A. Wallace

COMMITTEE ON HOUSING

Dr. William J. Grove*
Miss Edna L. Anderson
Dr. Conrad A. Blomquist
Mr. David W. Bonham
Dr. Donald J. Caseley
Dean Maurice J. Galbraith
Mr. Frank E. Hostettler
Dr. Verda E. James
Mr. Clarence C. Leverenz
Mr. George F. Mc Gregor

COMMITTEE ON HUMAN RELATIONS AND EQUAL OPPORTUNITY

Dr. Earl W. Renfroe*
Dr. John M. King
Dr. Irving Schulman
Dr. Thomas K. Barber+
Dr. Charles L. Bell+
Dr. Theodore R. Sherrod+
Miss Helen W. Dunn++
Dr. Henry Jeffay++
Dr. Edward Lutsch++
Mr. Dennis Page (student)
Miss Ethelyn Williams (student)
Mr. George F. Mc Gregor (Personnel Office)

COMMITTEE ON INSTITUTIONAL RESEARCH GRANT OF THE AMERICAN CANCER SOCIETY

Dr. Gerald O. Mc Donald*
Dr. Ludwig Bauer
Dr. Stephen B. Binkley
Dr. Akira Omachi
Dr. William Sangster
Dr. Anthony J. Schmidt
Dr. Malcolm M. Stanley
Dr. Herman Medak

COMMITTEE ON INSTRUCTIONAL RESOURCES AT THE MEDICAL CENTER

Dr. John M. Spence*
Dr. Conrad A. Blomquist
Mr. Richard J. Bowman
Mrs. Arlene K. Burroughs
Miss Helen W. Dunn
Mr. A. Hooker Goodwin
Mr. Frank W. Houck
Dr. Francis L. Lederer
Dr. John P. Marbarger
Dr. Elizabeth A. Mc Grew
Dr. George E. Miller
Mr. Jack W. Righeimer
Mr. Frederick Sharp
Dr. Ralph F. Voigt
Dr. Abe Widra
Dr. A. V. Wolf

COMMITTEE ON INTERNATIONAL PERSONNEL

Dr. Virginia M. Ohlson*
Dr. Madeleine F. Barnothy
Dr. Hartmann H. Friederici
Dean Maurice J. Galbraith
Mrs. Dorothy Greenhill, Secretary
Dr. Samuel R. M. Reynolds
Dr. Arthur Skupa

REPRESENTATIVES FROM:

Woman's Auxiliary
DAMES Club
Executive Student Council
International Student Group

COMMITTEE ON NEW STUDENT ORIENTATION

Dean Maurice J. Galbraith*
Professor Edna L. Anderson
Dr. Conrad A. Blomquist
Director George R. Moon
Dr. Nat E. Smith
Dr. Arthur J. Skupa

ADVISORY COMMITTEE TO THE OFFICE OF NONACADEMIC PERSONNEL

Dr. Conrad A. Blomquist*
Miss Helen W. Dunn
Dr. Henry M. Rosenberg
Dr. Lawrence A. Fisher+
Mr. Frank W. Houck+
Dr. Robert J. Ryan+
Mr. David W. Bonham+*
Dr. William C. Dolowy++
Dr. John M. Spence++

COMMITTEE ON NONRECURRING APPROPRIATIONS

Dr. Joseph S. Begando*
Dean Granville Bennett
Mr. David W. Bonham, Secretary
Dr. Donald J. Caseley
Mr. Frank E. Hostettler
Dean Mary K. Mullane
Dean Milan V. Novak
Mr. James F. Pfister
Dean George L. Webster
Dean Seymour H. Yale

COMMITTEE ON RADIOACTIVE ISOTOPES AND RADIATION PROTECTION

Dr. Roger A. Harvey*
Dr. William R. Best
Mr. Richard E. Haas
Dr. Henry Jeffay
Dr. Walter S. Moos
Dr. Robert J. Ryan
Dr. Kurt Stern

SUBCOMMITTEE ON RADIATION SAFETY

Dr. Walter S. Moos*
Mr. Albert A. Anderson (Consultant)
Dr. William C. Dolowy
Mr. Richard E. Haas, Secretary
Dr. Virginia N. Patterson
Dr. Henry M. Rosenberg
Dr. Martin P. Schulman

SAFETY AND FIRE PREVENTION ADVISORY COMMITTEE

Dr. Ernst R. Kirch*
Dr. Jeb Boswell (thru December 31, 1966)
Dr. Marvin J. Colbert (effective January 1, 1967)
Mr. James E. Harmon
Dr. Roger A. Harvey
Mr. Carl Heinze
Mr. George F. Mc Gregor
Dr. Robert B. Underwood
Mr. Philip J. Voegtle
Mr. Raymond S. Stephens, Secretary

COMMITTEE ON THE UNIVERSITY CENTENNIAL

(Appointed until March, 1968)

Dr. Conrad A. Blomquist*
Dr. Thomas K. Barber
Miss Ruth M. Barnard
Dr. Donald J. Caseley
Dean Maurice J. Galbraith
Professor A. Hooker Goodwin
Mr. Clarence C. Leverenz
Mr. Gerald Glaub
Mr. Max I. Light
Dr. Donald M. Martin
Dr. Melvin Sabshin
Mr. Warren F. Wakerlin (President of Executive Student Council

COMMITTEE ON WORK SCHOLARSHIPS

Dean Maurice J. Galbraith*
Professor Edna L. Anderson
Dr. Conrad A. Blomquist
Dr. Anthony J. Diekema
Mr. George F. Mc Gregor
Dr. Nat E. Smith
Dr. Arthur J. Skupa

NEW MEDICAL CENTER COLOR FLIM AVAILABLE

"Educating the Dedicated", the new 16-mm documentary film covers professional education in the health sciences including dentistry, medicine, pharmacy, nursing, graduate studies, and allied health sciences.

The 23-minute film which also features scenes in the University's Research and Educational Hospitals, was directed and produced by the Office of Public Information, Technical direction, editing and camera photography was done by Illustration Studios.

Written by Joel Willard, the film is narrated by Robert Emery.

Copies of the film are available upon request from the Office of Public Information and Illustration Studios.

REGULAR TOUR SERVICE ESTABLISHED

The Medical Center Campus Tour Service was established this summer under the auspices of the Office of Public Information. The Tour Service is the implementation of the "Report on Tours and Information," written by **Messrs. Max I. Light, Carl Heinze,** and **Clarence Leverenz,** which recommended such service be inaugurated. Tour Service Director is **Lawrence J. Kuzela.**

The Medical Center Campus Tour Service was created to encourage, administer, and conduct campus tours for professional, civic, fraternal, educational and other groups. It is intended that the most interesting and stimulating experience a visitor can encounter on a tour of limited duration be provided. Most tours will follow a basic introduction to the campus and a viewing of the new color film, *"Educating the Dedicated."*

A particular effort will be made to bring the teaching and research facilities to the attention of civic and business leaders. It is believed that personal experience with the campus renders the strongest, most favorable, enduring impression. Campus personnel--faculty, staff and students--are the most effective instruments available for the creation of good will.

Tours are scheduled by appointment Monday through Friday, 9:00 A.M. to 5:00 P.M. Reservations may be made through Mr. Kuzela, Office of Public Information, extension 7680.

BRIEFLY NOTED:

President David D. Henry recently requested **Dr. Donald J. Caseley** to serve as a member of the All-University Committee on Legislative Relations for the year 1966-67, or until a successor is appointed.

President David D. Henry recently requested **Dr. George G. Jackson** to serve as a member of the University Committee on Promotions for the year 1966-67 and **Doctors Charles L. Bell, Henry Jeffay,** and **Earl W. Renfroe** to serve as members of the All-University Committee on Human Relations and Equal Opportunity for the year 1966-67.

The 1966-67 fall quarter enrollment has set a record high of **2,496** students, an increase of 113 over the 1965-66 total of 2,383. The projected figures are proportionately higher with 2,594 for 1967-68 and 2,650 for 1968-69.

Dates to remember .... Annual Open House for the Medical Center Campus will be held **Friday, April 21, 1967.** The Service Recognition Program is set for **Wednesday, May 3, 1967.**

REVISED TUITION AND FEES SCHEDULES

effective September 1, 1966

GRANTS TOTALING $5,018,966 ACCEPTED SINCE JUNE

Research and training grants totaling over $5,018,966 have been accepted by the Medical Center Campus for the period of June 20, 1966 through November 11, 1966.

The College of Medicine received $4,010,929 and the College of Dentistry received $508,504.

The rest of the grants were allocated to the following departments: College of Nursing, $254,134; Student Affairs, $108,090; College of Pharmacy, $82,519; and Illustration Studios, $54,800.

The largest single grant for the period is $315,375, awarded by the Public Health Service to Dr. Harry F. Dowling, professor and head of the Department of Medicine, for the general clinical research center.

Research grants over $5,000 are listed below by college, department and name of investigator.

COLLEGE OF DENTISTRY

Administrative

Dean Seymour H. Yale, $159,099, the temporomandibular joint and associated structures, Public Health Service; and $68,430, health professions educational improvement program, Public Health Service.

Dental Clinics

Dr. John M. Spence, $42,848, dental auxiliary utilization training-undergraduate, Public Health Service.

Histology

Dr. James A. Yaeger, $54,563, basic science, Public Health Service; $34,035, embryology and development, Public Health Service; and $11,520, experimental alterations in mineralization, Public Health Service.

Dr. Eugenio Zerlotti, $15,540, biophysical and histochemical studies of the ameloblasts and developing enamel, Public Health Service.

Oral Diagnosis

Dr. Bruce L. Douglas, $101,692, impact of water fluoridation on dental practice, Public Health Service; $15,000, special patient project, Division of Hospitals and Chronic Illness Department of Public Health, State of Illinois; and $5,777, effect of fluoridation upon dental practice, Public Health Service.

Oral Pathology

Dr. Stanley J. Gerson, $15,541, quantitative histochemistry of keratinizing mucosa, Public Health Service.

COLLEGE OF MEDICINE

Administrative

Dean Granville A. Bennett, $142,825, health professions educational improvement program, Public Health Service; and $27,000, undergraduate clinical, Public Health Service.

Dr. William J. Grove, $10,000, study in education and development of medical education for national defense, Department of the Navy.

Anatomy

Dr. L. M. H. Larramendi, $35,944, an analysis of cerebellar subcellular fractions, Public Health Service; and $10,146, electron microscopy of neonatal synapse formation, Public Health Service.

Dr. Arthur La Velle and Dr. Pierson J. Van Alten, $9,501, immunochemical characteristics of nervous tissue, United Cerebral Palsy Research and Educational Foundation.

Dr. Helen C. Maibenco, $5,814, age nidation process in rats and hamsters, Public Health Service.

Dr. Samuel R. M. Reynolds, $33,359, training program in anatomy, Public Health Service.

Dr. W. Ann Reynolds, $6,520, the effects of low temperature on amphibian metamorphosis, Public Health Service.

Dr. Anthony J. Schmidt, $11,158, training in developmental biology, Public Health Service.

Biological Chemistry

Dr. Stephen B. Binkley, $5,682, study of analogues of pyrimidines, Public Health Service.

Dr. William V. Howes, $22,604, control of protein synthesis in lambda infected cells, Public Health Service; and $7,500, an investigation of the molecular and genetic basis of phenotypic resistance to bacterial virus infection, American Cancer Society.

Dr. Henry Jeffay, $18,718, protein metabolism in oral tissue, Public Health Service.

Dr. Ralph H. Kathan, $13,182, structure studies of viral hemagglutination inhibitors, Public Health Service.

Dr. Paul Kohn, $65,919, training grant in biochemistry, Public Health Service; $34,238, potential anti-cancer agents, Public Health Service; $9,989, potential anti-cancer agents, Public Health Service; and $9,612, preparation of potential anti-leukemia agents, Leukemia Foundation.

Dr. Janos Molnar, $18,001, metabolism of glycoproteins, Public Health Service.

Dr. Terrell C. Myers, $9,332, phosphonic acid analogs of nucleoside phosphates, Leukemia Foundation; and $6,663, phosphonic acid analogs of nucleoside phosphates, Public Health Service.

Dr. Edward B. Titchener, $8,063, mitochondrial synthesis and membrane-bound enzymes, Public Health Service.

Dr. Bernard Weissmann $20,646, isolation and structure of acid mucopolysaccharides, Public Health Service.

Medicine

Dr. Lionel M. Bernstein, $16,564, unilateral renal function using ureteral compression, Public Health Service.

Dr. Neil S. Cherniack, $17,970, the role of cerebral blood flow in respiratory control, Public Health Service; and $6,574, the role of carbonic anhydrase in the storage of carbon dioxide, the Tuberculosis Institute of Chicago.

Dr. Harry F. Dowling, $315,375, general clinical research center, Public Health Service; and $85,817, virology and rickettsiology "infectious diseases", Public Health Service.

Dr. Milton L. Fort, $6,300, Chicago Heart Association research fellowship, Chicago Heart Association.

Dr. Clarence L. Gantt, $12,000, clinical pharmacology of spirolactones, G. D. Searle and Company.

Dr. George G. Jackson, $79,500, study of vaccine for immunization, Department of Health, Education and Welfare, Public Health Service, National Institutes of Health; and $6,000, Warner-Lambert "Oxolinic Acid", Warner-Lambert Research Institute.

Dr. Georgiana Jagiello, $12,526, meiotic abnormalities in mammal, including human beings, using biopsy material and current chromosome techniques, The National Foundation.

Dr. Robert M. Kark, $67,937, biopsy studies of kidney structure and function, Public Health Service.

Dr. Max Samter, $21,602, training grant in allergy and immunology, Public Health Service; and $6,000, used to study Sandoz Pharmaceuticals; Sandoz Pharmaceuticals.

Dr. Theodore B. Schwartz, $33,804, training grant in endocrinology diabetes and metabolism, Public Health Service.

Dr. John T. Sharp, $19,966, thoracic mechanics in human health and disease, Public Health Service.

Dr. Malcolm M. Stanley, $20,763, iodine metabolism in the gut of man, Public Health Service.

Dr. Gerald Williams, $12,335, metabolism of bovine parathyroid hormone, Public Health Service.

Microbiology

Dr. Sheldon Dray, $231,700, genetic, chemical and immunologic studies of serum protein allotypes, National Science Foundation; and $20,400, serum protein allotypes, Public Health Service.

Dr. Newton Khoobyarian, $10,000, studies on adenovirus oncogenesis, American Cancer Society.

Dr. Alfred Nisonoff, $98,000, structural studies of antibodies and antigens, National Science Foundation.

Obstetrics and Gynecology

Dr. Harold A. Kaminetzky, $51,864, experimental dysplasia of the uterine cervix and vagina in the rhesus monkey, American Cancer Society.

Occupational Therapy

Miss Beatrice D. Wade, $8,348, traineeship in occupational therapy, Public Health Service.

Ophthalmology

Dr. Peter C. Kronfeld, $47,081, training grant in Ophthalmology, Public Health Service.

Orthopaedic Surgery

Dr. Claude N. Lambert, $18,397, study of juvenile amputees, Department of Health, Education and Welfare; and $17,278, juvenile amputees study, Division of Health Services of the Department of Health, Education and Welfare.

Dr. Robert D. Ray, $29,736, graduate training in Orthopaedic surgery, Public Health Service.

Otolaryngology

Dr. Arthur J. Derbyshire, $29,610, aer,cnv, and vascular measures of semantic change, Public Health Service.

Dr. Francis L. Lederer, $117,765, training grant in otolaryngology, Public Health Service; $7,992, training grant in otolaryngology, Public Health Service; and $6,000, fellowship in communicative sciences, Zenith Hearing Aid Sales Corporation.

Dr. Nicholas Torok, $8,656, analysis of variations in the normal vestibulo-ocular reflex in human subjects under basal and nonbasal conditions, G. D. Searle and Company.

Pathology

Dr. Hartmann Friederici, $26,010, capillaries of skin and subcutis, Public Health Service.

Dr. Cecil A. Krakower, $22,642, studies on capillary wall, Public Health Service.

Dr. Elie P. Leroy, $5,980, the blood-air barrier in interstitial pulmonary fibrosis, Illinois TB Association.

Dr. Kurt Stern, $13,000, radioisotopic studies of reticulaendothelial phagocytosis in relation to normal and neoplastic growth and to immune phenomena, Department of the U.S. Atomic Energy Commission.

Dr. Martin A. Swerdlow, $24,991, undergraduate cancer training program, Public Health Service.

Pediatrics

Dr. Marvin Cornblath, $40,993, carbohydrate metabolism in erthrocytes of newborns, Public Health Service; $35,066, development of rate limiting enzymes in carbohydrate metabolism, The National Foundation; $33,965, carbohydrate metabolism in neonate, Public Health Service; and $22,270, neonatal biochemistry and physiology, Public Health Service.

Dr. Samuel P. Gotoff, $19,904, studies of the beta C globulin in glomerulonephritis, Public Health Service.

Dr. Herbert J. Grossman, $28,519, exemplary service for neurological disorders in children, Public Health Service.

Dr. Eugene W. Isaacs, $10,790, effect of dietary protein on compensatory renal hyperplasia, Chicago Heart Association.

Dr. Hilda Knobloch, $57,457, training in child development, Division of Health Services, Department of Health, Education and Welfare.

Dr. Bessie Lendrum, $15,005, cardio-renal function after cardiopulmonary by-pass, Public Health Service.

Dr. Robert A. Miller, $50,905, computer analysis of the orthogonal ECG in children, Public Health Service.

Dr. Ira M. Rosenthal, $25,618, catecholamine metabolism in neuroblastoma, Public Health Service.

Dr. Irving Schulman, $28,771, training grant in pediatric hematology, Public Health Service; $25,679, longevity of coagulation factors in hemophilic children, Public Health Service; and $7,535, intravascular clotting in the pathogenesis of leukemic bleeding, Central Council Leukemia Research Foundation.

Pharmacology

Dr. Edmund Anderson, $19,025, spinal synaptic transmission and biogenic amines, Public Health Service.

Dr. Harold Feinberg, $19,920, adenine nucleotide 6-NH2 metabolism in heart muscle, Public Health Service; $12,320, catecholamine and contractile protein of cardiac and skeletal muscle, American Heart Association, Inc.; and $11,000, force velocity studies in the intact heart, Chicago and Illinois Heart Associations.

Dr. Tadeusz Marczynski, $26,796, neurohumoral supraspinal control of motor systems, Public Health Service.

Dr. Everett W. Maynert, $46,079, nerve ending particles and synaptic vesicles, Public Health Service; and $22,163, metabolic fate of neuropharmacological agents, Public Health Service.

Dr. Martin P. Schulman, $113,645, training grant in pharmacology, Public Health Service.

Dr. Cedric M. Smith, $52,124, neuropharmacology training grant, Public Health Service.

Dr. Klaus R. Unna, $124,455, research training-biological sciences, Public Health Service; and $5,000, sandoz pharmaceuticals--neuropharmacology (continuation), Sandoz Pharmaceuticals.

Physical Medicine and Rehabilitation

Dr. David I. Abramson, $46,487, undergraduate teaching and residency training, Public Health Service; and $23,827, vascular responses in skin and muscle to various states, Public Health Service.

Physiology

Dr. Pietro O. Bramante, $12,000, energy metabolism of experimental myocardial lesions, Public Health Service.

Dr. Ruven Greenberg, $46,644, study of an inhibitory agent present in autonomic tumors, American Cancer Society, Inc.

Dr. Akika Omachi, $25,308, role of phosphate metabolism in transport, Public Health Service.

Dr. A. V. Wolf, $70,170, training grant in physiology, Public Health Service; $32,000, analysis and regulation of concentration in body fluids, Department of the Army, Office of the Surgeon General; and $11,971, regulation of concentration in body liquids, Public Health Service.

Preventive Medicine

Dr. Adrian M. Ostfeld, $8,541, the epidemiology of cerebrovascular disease, Public Health Service.

Psychiatry

Psychiatry Clinic, $81,800, to provide services to mentally ill and mentally retarded persons residing in Illinois, Department of Mental Health, State of Illinois.

Dr. Ata A. Abdel-Latif, $15,262, studies on subcellar fractions of developing brain, Public Health Service.

Dr. Alvin G. Burstein, $41,904, clinical psychology, Public Health Service.

Dr. Rosalind D. Cartwright, $25,000, the function of dreaming and non-dreaming in the maintenance of normal behavior, State of Illinois Department of Mental Health.

Dr. Nahman H. Greenberg, $70,935, psychosomatic differentiation in infancy, State of Illinois Department of Mental Health; and $22,752, career development "psychosomatic differentiation in infancy", Public Health Service.

Dr. Ernest A. Haggard, $27,475, studies in learning and personality, Public Health Service.

Dr. Julian A. Miller, $128,833, psychiatry-basic residency, Public Health Service; and $51,840, psychiatry-gp residency training, Public Health Service.

Dr. Hyman L. Muslin, $17,658, teaching and learning of psychiatry interviewing, Illinois Department of Mental Health.

Dr. Aubrey L. Ruess, $76,798, a prospective study of handicapped children, Children's Bureau of the Department of Health, Education and Welfare.

Dr. Melvin Sabshin, $50,000, residency training in psychiatry, Illinois Department of Mental Health; and $45,368, undergraduate psychiatry, Public Health Service.

Dr. Sheldon Schiff, $14,952, evaluation of a community-wide program in first grade, Public Health Service.

Research in Medical Education

Dr. George E. Miller, $72,062, efficient use of medical manpower, Public Health Service; and $18,000, computer simulation study, IBM Corporation.

Surgery

Dr. John C. Kukral, $39,839, metabolism of plasma protein fractions after injury, Public Health Service.

Dr. Gerald O. McDonald, $30,000, institutional research, American Cancer Society.

COLLEGE OF NURSING

Miss Rachel Bliss, $14,359, undergraduate psychiatric nursing, Public Health Service.

Miss Mary M. Lohr, $121,698, psychiatric nursing, Public Health Service; and $19,698, special project-workshop on clinical nursing practice in psychiatric settings, Public Health Service.

Dean Mary K. Mullane, $72,355, professional nurse traineeship program, Public Health Service; $14,014, nurses traineeship grant, Public Health Service; and $12,000, workshops for education program for nurses, Illinois Department of Public Health.

COLLEGE OF PHARMACY

Chemistry

Dr. Ludwig Bauer, $16,417, condensed pyrimidine n-oxides in cancer chemotherapy, Public Health Service.

Dr. Ralph Daniels, $25,499, a study of anti-radiation drugs, Department of the Army, Office of the Surgeon General; and $16,320, polyhalocyclopropanes as general anesthetics, Public Health Service.

Dr. Cecilio E. Gracias, $9,792, analytical studies in air pollution, Public Health Service.

Dr. James E. Gearien, $14,491, 1,2,3,4-tetrahydroquinolines of biological interest, Public Health Service.

ILLUSTRATION STUDIOS

Mr. A. Hooker Goodwin, $54,800, maxillofacial prosthetic demonstration and research program, Public Health Service.

STUDENT AFFAIRS

Dean Maurice J. Galbraith, $40,000, health professions scholarship program in medicine, Public Health Service; $30,600, health professions scholarship program in pharmacy, Public Health Service; $19,290, educational opportunity grant, Office of Education, Department of Health, Education and Welfare; and $18,200, health professions scholarship program in dentistry, Public Health Service.

MAR 10 1967

UNIVERSITY OF ILLINOIS 100 CENTENNIAL YEAR 1967-68

CAMPUS REPORT

from the Office of the Chancellor No.8, February, 1967

University of Illinois at the Medical Center, Chicago

REORGANIZATION OF THE CHICAGO ILLINI UNION BOARD

In 1959, the Board of Trustees approved the reorganization of the 1941 original plan for the Chicago Illini Union Board. With the opening of the new building, creation of a new board was deemed essential in order to develop the full potential of the Union program in the new Chicago Illini Union building. With the concurrence of the President of the University a revised plan of organization for the Chicago Illini Union Board has been completed.

The Union board will have a majority of student members. In the new Chicago Illini Union board the six students, five staff member ratio gives the majority to student members. This is, by design, to place increased emphasis upon participation by students and the role that the Chicago Illini Union is intended to play in the student life on the Medical Center Campus. The following persons have been recommended to serve until May 15, 1967, when new appointments will be made for a full twelve-month term in accordance with the new Constitution and new By-Laws found in this issue of **CAMPUS REPORT.**

STUDENT MEMBERS

Mr. Thomas E. Coveny	*recommended by the Student Residence Hall Association*
Mr. Bruce A. Hillemeyer	*recommended by the Executive Student Council*
Miss Nancy K. Cowel Mr. Richard F. McBride Mr. Raymond L. Odle	*recommended by the Union Directorate (Constitution requires inclusion of the President of the Union Directorate)*
To be named later	*one student-at-large recommended by the Chicago Illini Union Board*

ACADEMIC STAFF MEMBERS

Dr. Donald J. Caseley
Dr. James E. Gearien
Miss Florence Sherbon
Miss Charleen C. Caldwell (*ex officio*)
Mr. Clarence C. Leverenz (*ex officio*)

REVISED CHICAGO ILLINI UNION BOARD CONSTITUTION

ARTICLE I

SECTION I - *Purpose*

The Chicago Illini Union Board is responsible for the development and administration of programs which serve the cultural, social and recreational needs of the University community, aiming to make free time activity a co-operative factor with study in education. It assists the Union in providing for the services, conveniences and amenities the members of the University family need in their daily life on the campus and and in promoting interdisciplinary understanding through informal association outside the classroom. In all its processes it encourages self-directed activity, giving maximum opportunity for self-realization and for growth in individual social competency and group effectiveness. Its goal is the development of persons as well as intellects.

SECTION II - *Functions*

A. Serve the Chicago Illini Union and the University community through the enactment of Board policies consistent with the philosophy and purpose expressed in the *"Role of the College Union,"* the official statement of purpose of the Association of College Unions--International, adopted at the general conference of the Association in April, 1956.

B. Define policies for and offer guidance in the organization and administration of activities and programs for the students, faculty, staff, and alumni of the University.

C. Review the total program conducted by the Union Directorate.

D. Serve in an advisory capacity to the Union Director with respect to general Union services and policies.

E. Encourage programs of a co-curricular nature which will round-out the professional preparation of Medical Center Campus students.

F. Perform special projects and research functions.

SECTION III - *Membership*

A. Appointed: Six students, three academic staff members.

1. The Executive Student Council and the Student Residence Hall Association shall recommend one student to serve as representative from its organization, subject to final appointment by the Chancellor.

2. The Union Directorate shall recommend three students, one of whom shall be the President of the Directorate, subject to final appointment by the Chancellor.

3. The Board shall recommend one student-at-large from the University of Illinois at the Medical Center, Chicago, subject to final appointment by the Chancellor.

4. Three academic staff members shall be appointed by the Chancellor.

B. Ex officio (With voting privilege); The Director of the Chicago Illini Union and the Program Director.

SECTION IV - *Officers*

The Chicago Illini Union Board officers shall consist of: an academic staff member as Chairman, elected by the Board; a student President, elected by the Board; and the Union Director. These officers shall constitute the Executive Committee of the Board, with the functions commonly assigned to an executive committee and the responsibility for emergency executive action. The President of the Board shall preside at the meetings of the Board. The Executive Committee shall make committee appointments. Members of the professional staff of the Chicago Illini Union or outside resource persons may be asked to serve in an advisory capacity to Board Committees or to the Board whenever deemed appropriate. The Program Director shall be responsible for maintaining the records of the Board.

SECTION V - *Amendments*

Amendments to this Constitution shall become effective when approved by a two-thirds vote of the entire membership of the Chicago Illini Union Board, at two regular meetings of the Board.

REVISED CHICAGO ILLINI UNION BOARD BY-LAWS

ARTICLE I

SECTION I - *Proxies*

The Director of the Chicago Illini Union and the Program Director of the Chicago Illini Union may be represented at meetings of the Board by proxies designated by them. Such proxies must be members of the professional staff of the Chicago Illlni Union who are not regular voting members of the Chicago Illini Union Board. These proxies shall have full powers and privileges in voting. The use of proxies is limited to the directors identified in this paragraph.

SECTION II - *Terms of Office*

A. Recommendations for student members of the Board for the succeeding year shall be forwarded to the Chancellor before May 1 of each year.

B. All appointed terms will be for a 12 month period from May 15 of each year. If the Board wishes to retain a member for another term, it may recommend his reappointment to the Chancellor. No Board member may be appointed for more than three successive annual terms.

C. The terms of the Director of the Chicago Illini Union and the Program Director of the Chicago Illini Union shall be co-extensive with their tenure in their respective offices.

ARTICLE II

AMENDMENTS

Amendments to these By-Laws shall become effective when approved by a two-thirds vote of the entire membership of the Chicago Illini Union Board.

THE CHICAGO ILLINI UNION DIRECTORATE

As provided for in the new constitution governing the Chicago Illini Union Board, it shall "*Review the total program conducted by the Union Directorate.*" *(Article I, Section II-C).*

The Chicago Illini Union Directorate is the functioning student program board for the Medical Center Campus operating under the Chicago Illini Union Board.

The Directorate provides a wide spectrum of cultural, social, and recreational programs designed to bring enrichment and relaxation to the University Community.

The membership of the Chicago Illini Union Directorate follows:

EXECUTIVE COMMITTEE

President - Raymond D. Odle
Administrative Vice President - Rica N. Wieneke
Program Vice President - John M. Stroud
Program Development - Nancy K. Cowel

DIRECTORATE COMMITTEE CHAIRMEN

Art Committee - Richard D. McBride
Film Committee - Judy N. Robison
Illini News - Dolores N. Krickl
Mid-Day Series - William M. Stone
Travel and Outing - Warren Wakerlin

ILLINI UNION PROGRAM ADVISORS

Program and Counseling Director - Charleen Caldwell
Program Co-ordinator - Charles Ensign

THE ROLE OF THE COLLEGE UNION

A Statement of Purpose, Adopted by the General Membership of the Association of College Unions--International at the Association Conference, April, 1956

1. The union is the community center of the college, for all the members of the college family--students, administration, alumni and guests. It is not just a building; it is also an organization and a program. Together they represent a well-considered plan for the community life of the college.
2. As the *"living room"* or the *"hearthstone"* of the college, the union provides for the services, conveniences, and amenities the members of the college family need in their daily life on the campus and for getting to know and understand one another through informal association outside the classroom.
3. The union is part of the educational program of the college. As the center of college community life, it serves as a laboratory of citizenship, training students in social responsibility and for leadership in our democracy. Through its various boards, committees, and staff, it provides a cultural, social, and recreational program, aiming to make free time activity a co-operative factor with s[illegible] in education. In all its processes it encourages self-directed activity giving maximum opportunity for self-realization and for growth in individual social competency and group effectiveness. Its goal is the development of persons as well as intellects.
4. The union serves as an unifying force in the life of the college, cultivating enduring regard for and loyalty to the college.

BRIEFLY NOTED:

President David D. Henry recently requested **Dr. William J. Grove** to serve on the All-University Committee on Alumni Activities for the year 1966-67, or until a successor is appointed.

President David D. Henry also requested **Dr. Roger A. Harvey** to serve as a member of the All-University Committee to Study Academic Ranks and Titles below that of Instructor. On the recommendation of the Senate Coordinating Council, the committee is requested to study all academic ranks and titles below the rank of Instructor, including the proposed rank of Teaching Associate, for the purpose of redefinition and reconstruction of appropriate ranks.

RESEARCH AND TRAINING GRANTS ACCEPTED SINCE NOVEMBER TOTAL $893,229

Research and training grants in excess of $893,229 have been accepted by the Medical Center Campus for the period of November 18, 1966 to January 17, 1967.

The College of Medicine received $700,354, the College of Dentistry received $170,461, and the College of Pharmacy received $22,414.

The United States Public Health Service is credited with 20 of the 28 grants totaling $514,934.

The largest single grant for the period is $104,954, awarded by the United States Public Health Service to Dr. Adrian M. Ostfeld, professor and head of the Department of Preventive Medicine and Community Health, for a project entitled, "The Epidemiology of Cerebrovascular Disease."

Grants over $5,000 are listed below by college, department, and name of investigator.

COLLEGE OF DENTISTRY

Histology

Dr. Arthur F. Grimm, $18,568, growing or enlarged striated musculature, Public Health Service.

Oral Diagnosis

Dr. Bruce L. Douglas, $86,068, impact of water fluoridation on dental practice, Public Health Service.

Orthodontics

Dr. Allan G. Brodie, $65,825, growth of the jaws and eruption of the teeth, Public Health Service.

COLLEGE OF MEDICINE

Biological Chemistry

Dr. Stephen B. Binkley, $13,907, analogues of pyrimidines, Public Health Service.

Dr. Athol L. Cline, $30,000, tRNA: its synthesis, maturation, structure, and function, National Science Foundation.

Dr. Ralph H. Kathan, $24,263, chemistry and mechanism of action of potential anti-viral agents, Department of the Army, Office of the Surgeon General.

Dr. Janos Molnar, $14,344, research career development - metabolism of plasma glycoproteins, Public Health Service.

Dr. Joseph Samachson, $25,963, the surface chemistry of bone, dentin and enamel, Public Health Service.

Medicine

Dr. Harry F. Dowling, $65,688, repeated infections and progress of chronic bronchitis, Public Health Service; and $30,368, study of discovery, development, regulation, use of drugs, Public Health Service.

Dr. Clarence L. Gantt, $7,000, studies of various anti-aldosterone agents, Merck Sharp & Dohme, West Point, Pennsylvania.

Dr. George G. Jackson, $57,380, transmission of the common cold to volunteers under controlled conditions, Department of the Army, Office of the Surgeon General; $33,726, bacterial species and host response in pyelonephritis, Public Health Service; $9,148, laboratory and clinical investigation of hetacillin-dicloxacillin mixture, P-21, Bristol Laboratories, Syracuse, New York; and $5,836, preparation of a manual of viruses and non bacterial agents causing respiratory illnesses in man, Department of the Army, Office of the Surgeon General.

Dr. Max Samter, $6,260, evaluation of fiogesic and HS-592, Sandoz Pharmaceuticals, Hanover, New Jersey.

Microbiology

Dr. Alfred Nisonoff, $29,370, structural basis of antibody specificity, Public Health Service.

Occupational Therapy

Miss Beatrice D. Wade, $8,348, traineeship grant in occupational therapy, Public Health Service.

Pediatrics

Dr. Marvin Cornblath, $26,178, carbohydrate metabolism in erthrocytes of newborns, Public Health Service.

Dr. Irving Schulman, $33,861, hemorrhagic disease in infants and children, Public Health Service.

Pharmacology

Dr. Everett W. Maynert, $33,742, metabolic fate of neuro-pharmacological agents, Public Health Service.

Dr. Martin P. Schulman, $25,140, metabolism of aliphatic alcohols, Public Health Service.

Preventive Medicine

Dr. Adrian M. Ostfeld, $104,954, the epidemiology of cerebrovascular disease, Public Health Service; and $42,168, the epidemiology of cerebrovascular disease, Public Health Service.

Physiology

Dr. Ruven Greenberg, $14,807, an inhibitory agent in autonomic tissue, Public Health Service.

Psychiatry

Dr. M. Rue Bucher, $12,370, career development award, Public Health Service.

Research in Medical Education

Dr. George E. Miller, $45,533, continuing medical education project, Department of Health, Education and Welfare, Public Health Service.

COLLEGE OF PHARMACY

Chemistry

Dr. Cecilio L. Gracias, $22,414, analytical studies in air pollution, Public Health Service.

C

UNIVERSITY OF ILLINOIS
CENTENNIAL YEAR 1967-68

CAMPUS REPORT

from the Office of the Chancellor No. 9, May, 1967

University of Illinois at the Medical Center, Chicago

Faculty Advisory Committee Election Results

ELECTION PROCEDURE

Faculty Advisory Committee elections have been completed as of April 1, 1967, for the three positions vacated by members whose terms of office had expired. The election was held in accordance with the directives set forth in the revised Statues of the University, **Section 6 (m)**:

The academic staff (i.e., those having the rank of instructor or higher rank) at each campus shall also elect a Faculty Advisory Committee of nine members of such academic staff, three of whom shall be elected each year for three-year terms. No more than two members, or in the case of the Medical Center no more than three, from any one college, school, institute, division, or other administrative unit of the University, shall serve on the Committee at the same time.

Any person of the rank of instructor or higher rank may be nominated as a Committee member by a petition signed by three members of the academic staff and filed with the secretary of the Senate **(Dr. Marbarger)** *prior to April 1 of each year. The Secretary of the Senate shall conduct the election by University mail as soon as possible thereafter. All the members of the academic staff of the rank of instructor or higher rank may vote, and the three nominees receiving the highest number of votes, who are eligible for membership on the Committee under the foregoing provision, shall be declared elected.*

COMMITTEE MEMBERSHIP

The newly elected members who will serve for a three year period are: **Dr. James A. Yaeger, Dr. Virginia M. Ohlson,** and **Dr. Conrad A. Blomquist.** Continuing members of the Committee for two more years are: **Dr. Nicholas J. Cotsonas, Dr. Theodore R. Sherrod, and Dr. Adrian M. Ostfeld**; and for one more year are: **Dr. Thomas K. Barber, Dr. Mary K. Mullane,** and **Dr. John M. Spence.**

COMMITTEE FUNCTIONS

The functions of the Committee shall be to provide for the orderly voicing of suggestions for the good of the University, for affording added recourse for the consideration of grievances, and for furnishing a channel for direct and concerted communication with administrative officers of the University, its colleges, schools, institutes, divisions, and other administrative units on matters of interest or concern to the academic staff or any member of it.

In performing its functions, the Committee, upon the request of the President, or any other member of the academic staff, or upon its own initiative, shall make such investigations and hold such consultations as it may deem to be in the best interest of the University. A member of the academic staff shall be entitled to a conference with the Committee or with any member of it on any matter properly within the purview of the Committee.

Chancellor Appoints Special Committee to Study Health Services Available to Faculty, Staff and Students

THE LIBRARY OF THE
MAY 29 1967
UNIVERSITY OF ILLINOIS

The Chancellor has appointed a special Committee to Study Health Services for faculty, staff and students effective March 24, 1967.

The following persons constitute the Committee membership:

Dr. Donald J. Caseley
Dr. Marvin J. Colbert
Miss Helen W. Dunn
Dr. James E. Gearien
Dr. Larry C. Gunn, *President of the House Staff*
Mr. Frank W. Houck
Mr. George F. McGregor
Dr. Virginia M. Ohlson
Dr. Donald F. Pochyly
Dr. Charles E. Richards, *Chairman*
Dr. John H. Schneewind
Dr. Nat E. Smith
Dr. John M. Spence
Mr. Warren F. Wakerlin, *President of the Executive Student Council*

The Health Services will be the focus of the study; but, necessarily, services of the Research and Educational Hospitals *(including the Outpatient Clinics, Laboratories and the Emergency Room)* and the Dental Clinics will be reviewed.

The Committee report to the Chancellor shall suggest both policy and procedure to the end that faculty, staff and students may be fully informed concerning personal health care services available to them at the Medical Center Campus.

Actual and Projected Fall Quarter Enrollment

The funds requested for the 1967-69 biennium for increased enrollment at the Medical Center Campus are computed by a formula recommended by the staff of the State Board of Higher Education. Although the formula is not based on fall-term enrollment alone, it is important that fall-term enrollments come as close to the estimates as possible. Projected enrollment figures are used to justify requests for biennial budget increases.

It is anticipated that a revised set of enrollment estimates will be available each December 1, beginning December 1, 1967. Prior to issuing revised enrollment projections, new conditions and new policy decisions will be assessed for their effect on the assumptions and on the enrollment estimates.

Reported here is the official table of projected enrollment figures which is to be used until revised. The head count figures at the Medical Center are distributed by college, curriculum and level. The actual data for 1965 and 1966 are listed with the 1967 and 1968 projected data.

FALL QUARTER HEAD COUNT ENROLLMENT AT THE MEDICAL CENTER DISTRIBUTED BY COLLEGE AND LEVEL

College and Level	1965	1966	1967	1968

Aeromedical Laboratory Changes Name To Research Resources Laboratory

The name of the *Aeromedical and Physical Environment Laboratory* was changed to *Aeromedical Laboratory* through Board of Trustees action on April 20, 1960. At the February 9, 1967 Board of Trustees meeting, upon the recommendation of the Chancellor and with the approval of the President, the name of the laboratory was changed to *Research Resources Laboratory.*

Further developments in the utilization and total responsibilities of the Laboratory since its move to the basement of the Medical Sciences Addition have necessitated the additional change in nomenclature. The name, *Aeromedical Laboratory,* does not encompass the equally important functions connected with the bio-instrumentation, electron microscope, and the digital computer facilities.

For these reasons the change of the name of the unit from *Aeromedical Laboratory* to *Research Resources Laboratory* was proposed. *The Research Resources Laboratory* would contain: *(1) the Environmental Stress Facility, (2) the Bioinstrumentation Facility, (3) the Electron Microscope Facility, and (4) the Digital Computer Facility.*

The change in name was for the primary budgetary unit. Although each of the four special facilities will be recognized by name in all other matters, the budgetary breakdown will be within the *Research Resources Laboratory* only, and the accounting for each special facility will be done in the Office of the Director of the *Research Resources Laboratory.*

The **Environmental Stress Facility** includes eleven rooms and chambers for research in which control of environmental conditions such as temperature, pressure and humidity is required.

The **Bioinstrumentation Facility** provides expert technical assistance in the design, construction, and maintenance of electronic equipment.

The **Electron Microscope Facility** maintains four microscopes and complete ancillary equipment and staff to prepare material and give instruction on using the units.

The **Digital Computer Facility** which includes an IBM Model II data processing unit with magnetic tapes, disc storage units, X-Y plotter and on-line printer is available to research investigators who require such equipment in the conduct of their studies.

Each of the four special facilities is available to all research investigators at the Medical Center Campus, and all have equal access to the equipment and services. Trained technical personnel are available to provide necessary assistance if required.

Fire Prevention and Procedure When Fire Occurs

It is the responsibility of all Faculty, Staff and Students to:

1. Be familiar with and follow all fire regulations.
2. Be alert to fire hazards in areas of their work.
3. Remove fire hazard immediately, or report it to the proper authority.

It is the responsibility of anyone discovering a fire, no matter how small, to report it promptly. Discovery of fire damage should be reported in the same way, even though the fire appears to be out.

REPORTING A FIRE: (CAMPUS TELEPHONES)

1. Dial "**F-I-R-E**" give the name of the building, the floor level and the location of the fire.

OR:

2. Pull the nearest fire alarm box.
3. Be calm, don't shout. Help is on the way.
4. If possible, have someone meet the firemen and direct them to the fire.

AFTER REPORTING THE FIRE:

1. If, in your judgement, life is in peril, aid in evacuating people to a safer area. Fire condition may allow for removal of patients and personnel without leaving the building. Each individual on the campus should know the exits in his area. These exits must be kept clear at all times.
2. Confine the fire by closing all doors in the area.
3. If possible to do so with safety to oneself, use the equipment provided to extinguish the fire. Everyone should know the location, type and limitations of the fire extinguishers in his area.

FIRE EXTINGUISHER SERVICE:

Report promptly *(Dial 6777)* to University Police if a fire extinguisher appears to be used, out-of-order or missing.

Research and Training Grants Totaling $874,272 Accepted Since January 23

Research and training grants in the amount of $874,272 have been accepted by the Medical Center Campus for the period of January 23 to April 10, 1967.

The College of Medicine received $481,291, the College of Dentistry received $297,878, the College of Nursing received $76,872, and the College of Pharmacy received $22,414.

The United States Public Health Service is credited with 19 of 24 grants totaling $791,997.

The largest single grant for the period is $167,579, awarded by the United States Public Health Service to Dr. Samuel Pruzansky, professor of dentistry and associate director of the Cleft Palate Clinic and Training Program in the College of Dentistry for a project entitled, "Studies on Congenital Malformations of the Head."

Grants over $5,000 are listed below by college, department and name of investigator.

COLLEGE OF DENTISTRY

Administration

Dr. Samuel Pruzansky, $167,579, "Studies on Congenital Malformations of the Head," Public Health Service.

Dr. Seymour Yale, $70,159, "General Research Support," Public Health Service.

Histology

Dr. James Yaeger, $57,516, "Hard Tissue-Soft Tissue Interfaces in Teeth and Bones," Public Health Service.

COLLEGE OF MEDICINE

Anatomy

Dr. Arthur LaVelle, $16,230, "Lipid and Nucleoprotein in Developing Nerve Cells," Public Health Service.

Biochemistry

Dr. Bernard Weissman, $16,682, "Origins of Urinary Purine Bases," Public Health Service.

Dr. Clarence A. Johnson, $12,710, "Studies on Non-Heme Components of Human Erythrocytes," Public Health Service.

Medicine

Dr. G. G. Jackson, $9,000, "work of an investigative nature in infectious diseases and related fields," Lederle Laboratories Division of American Cyanamid Co.

Dr. G. G. Jackson, $90,618, "Virology and Rickettsiology," Public Health Service.

Microbiology

Dr. Alfred Nisonoff, $20,935.90, "Investigation of Chemical Properties of Antibodies," Public Health Service.

Dr. Robert W. Pumper, $12,113, "Inhibition of Tumor Cells In Vitro by Mitotic Stimulators Produced In Vivo," American Cancer Society.

Otolaryngology

Dr. Nicholas Torok, $19,772, Clinical Nystagmography," Public Health Service.

Pathology

Dr. Kurt Stern, $15,565, "Isosensitization caused by Pregnancy or Transfusion," Public Health Service.

Dr. Kurt Stern, $16,500, Reticuloendothelial System in the Regulation of Growth," National Science Foundation.

Pediatrics

Dr. Ira M. Rosenthal, $22,539, "Catecholamine Metabolism in Neuroblastoma," Public Health Service.

Preventive Medicine and Community Health

Dr. Mark H. Lepper, $49,036, "Epidemiology of Gram Negative Rods in Hospitals," Public Health Service.

Psychiatry

Dr. M. Rue Bucher, $43,491, "Mechanisms of Professional Socializations," Public Health Service.

Dr. Nahman H. Greenberg, $44,162, "The Growth and Development of High-Risk Infants," Chicago Board of Health.

Surgery

Dr. John C. Kukral, $22,709, "The Role of the Liver in Plasma Protein Metabolism," Public Health Service.

Dr. G. O. McDonald, $41,840, "The Effect of Drugs Upon DNA Synthesis," Public Health Service.

Dr. Robert J. Jensik, $26,888, "Lung Cancer Preoperative Radiation Therapy Study," Public Health Service.

COLLEGE OF NURSING

Administrative

Dr. Mary K. Mullane, $76,872, "Professional Nurse Traineeship Program – Long-Term Academic," Public Health Service.

COLLEGE OF PHARMACY

Chemistry

Dr. Ludwig Bauer, $18,231, "Condensed Pyrimidine N-Oxides in Cancer Chemotherapy," Public Health Service.

THE LIBRARY OF THE
SEP 18 1967

UNIVERSITY OF ILLINOIS 100 CENTENNIAL YEAR 1967-68

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

No. 10., Sept., 1967

State Board Approves Center for Genetics

On July 11 the State of Illinois Board of Higher Education approved the establishment of a Center for Education and Research in Genetics on the Medical Center Campus. The proposed Center would have the responsibility for coordination of instruction in genetics offered in the College of Medicine, for the encouragement of research in genetics, and for consultative service to faculty members outside the Center.

The Center would have a director and a small staff supported from its own budget to provide administrative support, clerical staff and funds for wages, expense and equipment. This nucleus would coordinate interdisciplinary efforts of those knowledgeable in the discipline in other departments of the College of Medicine and in other colleges. Members of other departments could hold joint appointments in the Center.

There are a number of people who could give strong support to a Center and this core could be strengthened further by new appointments within departments. Also, the establishment of a Center would permit the utilization of competent people in other colleges. Members of the Department of Biological Sciences at the Chicago Circle Campus, already working in this subject matter field, have expressed a desire to cooperate in this program. This type of organization would best utilize available personnel and result in a truly interdisciplinary organization.

Dean Granville A. Bennett has appointed a committee to assist in the selection of a director of the Center. The committee members are Dr. Stephen B. Binkley, chairman, Drs. Sheldon Dray, Paul Heller, Olga M. Jonasson, Adrian M. Ostfeld, Ira M. Rosenthal, Theodore B. Schwartz, and Kurt Stern. In addition to serving as a "search" committee for the director, the group will advise Dr. Bennett on matters such as the geographic location of the Center, its administrative structure and scope, and its relationships with other components of the University of Illinois and other state agencies.

A request for funds, in the amount of $115,000 for the support of the Center was included in the 1967-69 biennial budget request for operations approved by the Board of Trustees and the State Board of Higher Education. The estimated annual requirements of $57,000 will fund salaries for one F.T.E. director, one F.T.E. associate director and nonacademic staff and wages, expense and equipment. No progressive expansion in the Center's budget from State funds is planned over the next six years, since the costs of instructional and research programs in this field would be funded mainly through departmental budgets and from outside grants. But with salary-rate and price increases, together with a modest increase in the Center's staff, it is estimated that the annual budget in the sixth year would reach a total of $85,000.

Because such interdisciplinary programs are in a favorable position to obtain financial support from granting agencies, it is expected that large-scale federal support for research in this area will be forthcoming, and that the major costs of an expanding research program in genetics at the Medical Center would be met from outside sources.

Bennett's Successor Sought by Committee

Dean Granville A. Bennett has indicated his wish to resign from the deanship of the College of Medicine as of January 1, 1968. According to University custom, the search for suitable candidates will be conducted by a special consultative committee, appointed by the Chancellor with the concurrence of the President.

Dr. George G. Jackson, Professor of Medicine, will act as chairman of the committee. The members are: Orville T. Bailey, Professor of Neurology; Stephen B. Binkley, Professor of Biochemistry, head of the Department of Biochemistry; Herschel L. Browns, Clinical Assistant Professor of Medicine; Reino E. Kallio, Professor of Microbiology, Director of the School of Life Sciences; Peter C. Kronfeld, Professor of Ophthalmology, head of the Department of Ophthalmology; Mark H. Lepper, Professor of Preventive Medicine and Community Health; Lloyd M. Nyhus, Professor of Surgery, head of the Department of Surgery, Neena B. Schwartz, Associate Professor of Physiology.

'67-'68 Academic Calendar

SEPTEMBER 1967 - AUGUST 1968

1967 Fall Quarter

Registration and Orientation		September 18-23
Quarter Begins		September 25
Instruction Begins	Monday,	September 25
Senate Meets	Wednesday,	October 4
Thanksgiving (Classes dismissed)		November 23-24
Senate Meets	Wednesday,	December 6
Examination Period		December 4-8
Quarter Ends	Saturday,	December 9

1968 Winter Quarter

Quarter Begins	Tuesday,	January 2
Instruction Begins		January 2
Senate Meets	Wednesday,	February 7
Examination Period		March 11-15
Quarter Ends	Saturday,	March 16

1968 Spring Quarter

Quarter Begins	Monday,	March 25
Instruction Begins		March 25
Senate Meets	Wednesday,	April 3
Senate Meets	Wednesday,	May 29
Memorial Day (Classes dismissed)	Thursday,	May 30
Examination Period		June 3-7
Commencement	Friday,	June 7
Quarter Ends	Saturday,	June 8

1968 Summer Quarter

Registration		June 13-14
Quarter Begins	Monday,	June 17
Instruction Begins		June 17
Independence Day (Classes dismissed)	Thursday,	July 4
Examination Period		August 26-30
Quarter Ends	Saturday,	August 31

Chancellor's Report on Topics of Current Interest

I General

GREATER MANAGEMENT ROLE IN PUBLIC HEALTH SERVICE GRANTS

The University of Illinois at the Medical Center has been notified of its selection as one of the institutions to assume a greater role in the management of research projects funded by Public Health Service grants. The Medical Center Campus will assume the increased responsibilities involved for certain "prior approval" requests made by our investigators under Public Health Service grants on and after July 1, 1967.

Participation of the University of Illinois at the Medical Center in this new program will continue until June 30, 1969. Before that time the Public Health Service and the University of Illinois at the Medical Center will jointly evaluate the experience to determine whether or not the participation of this campus should be extended.

A notice dated June 23, 1967 was sent to all deans, directors and department heads at the Medical Campus listing the internal procedure to be used when initiating requests under the new program.

REVISED OUTLINE TAKES EFFECT

A new Course Outline for future course requests became effective July 1, 1967. The revised form is the final result of recommended revisions submitted by the Subcommittee on Courses and Curricula of the Graduate College. The procedure for submittal of new or revised course proposals remains unchanged.

II Personnel

MEDICAL CAMPUS APPOINTEES FOR CIRCLE GRADUATE PROGRAMS

On the recommendation of the Dean of the Graduate College, President Henry has appointed Drs. Stephen B. Binkley and Arthur LaVelle of the Medical Center Campus to serve as members of the Joint Advisory Committee on Graduate Programs at Chicago Circle. During the past year the committee reviewed and approved twelve programs leading to the master's degree in the following fields: biological sciences, chemistry, English, geology, German, history, mathematics, mechanics and materials, philosophy, physics, psychology, sociology, and thermo-science.

MEDICAL STUDENTS ESTABLISH BENNETT AWARD

University of Illinois medical students have established the Granville A. Bennett Award to honor "the senior student who has made significant contributions to the educational system" of the College of Medicine. Recipients will be selected by the Committee on Student Awards and Scholarships, a standing committee of the College with student representation.

SABSHIN ELECTED TO BOARD

Dr. Melvin Sabshin, professor and head of the Department of Psychiatry, has been elected to the American College of Psychiatrists Board of Regents for a two-year term. Members of the Board of Regents serve "to promote, maintain, and support the highest standards in psychiatry through teaching, training, and research."

RESEARCH AND TRAINING GRANTS TOTALING $2,953,816 ACCEPTED SINCE APRIL 12

Research and training grants in the amount of $2,953,816 have been accepted by the Medical Center Campus for the period of April 12 to June 30,1967.

The College of Medicine received $2,374,696, the College of Dentistry received $357,132, the College of Nursing received $117,910, the College of Pharmacy received $19,209, Student Affairs received $14,700 and Office of the Chancellor received $52,114.

The United States Public Health Service is credited with 50 of 62 grants totaling $2,687,952.

The largest single grant for the period is $393,222 awarded by the Public Health Service to Dr. Granville A. Bennett, Dean of the College of Medicine for a project entitled, "Health Professions Educational Improvement Program."

Grants over $5,000 are listed below by college, department and name of investigator.

ADMINISTRATIVE

Office of the Chancellor

Dr. Joseph S. Begando, $52,114, "Administration of Institutional Grants for Science," National Science Foundation.

Office of Student Affairs

Dean Maurice J. Galbraith, $14,700, "Educational Opportunity Grants Program," U.S. Office of Education.

COLLEGE OF DENTISTRY

Administration

Dr. Maury Massler, $26,756, "Replantation of Teeth," Public Health Service.

Dr. Seymour H. Yale, $195,894, "Health Professions Educational Improvement Program," Public Health Service.

Dental Clinics

Dr. John M. Spence, $42,848, "Dental Auxiliary Utilization Training," Public Health Service.

Histology

Dr. Arthur F. Grimm, $19,822, "Growth and Function of the Oral Striated Musculature," Public Health Service.

Oral Pathology

Dr. Stanley J. Gerson, $17,971, "Quantitative Histochemistry of Keratinizing Mucosa," Public Health Service.

Dr. Herman Medak, $53,841, "Community Cancer Demonstration Project for Early Detection of Oral Cancer," Public Health Service.

COLLEGE OF MEDICINE

Administration

Dr. Granville A. Bennett, $393,222, "Health Professions Educational Improvement Program," Public Health Service.

Dr. George E. Miller, $50,764, "The Efficient Use of Medical Manpower," Public Health Service.

Dr. George E. Miller, $312,240, "Continuing Medical Education Project," Public Health Service.

Anatomy

Dr. Arthur LaVelle and Dr. Pierson J. Van Alten, $8,666, "Immunochemical Characteristics of Nervous Tissue," United Cerebral Palsy Research & Educational Foundation.

Biological Chemistry

Dr. Mary S. Hanlon, $20,560, "Interaction of Nucleic Acids and Related Models," Public Health Service.

Dr. William V. Howes, $18,044, "Control of Protein Synthesis in Lambda Infected Cells," Public Health Service.

Dr. Paul Kohn, $9,687, "Intestinal Absorption of Carbohydrates," Public Health Service.

Dr. Paul Kohn, $82,072, "Training in Biochemistry," Public Health Service.

Dr. Janos Molnar, $15,989, "Metabolism of Glycoproteins," Public Health Service.

Dr. Terrell C. Myers, $28,000, "Mechanisms of Phosphate Reactions of Biochemical Interest Through Application of Nuclear Magnetic Resonance Spectrometry," National Science Foundation.

Dr. Edward B. Titchener, $7,835, "Mitochondrial Synthesis and Membrane-Bound Enzymes," Public Health Service.

Medicine

Dr. Lionel M. Bernstein, $37,865, "Unilateral Renal Function Using Ureteral Compression," Public Health Service.

Dr. Nicholas V. Costea, $25,682, "Cold Agglutinin Production and Inhibition in Rabbits," Public Health Service.

Dr. Clarence Gantt, $21,895, "Non-Aldosterone Renal Sodium Retaining Mechanisms," Public Health Service.

Dr. George G. Jackson, $5,140, "Preparation of a Manual of Viruses and Non-Bacterial Agents Causing Respiratory Illnesses in Man," Department of the Army, Office of the Surgeon General.

Dr. Robert J. Ryan, $11,223, "Study of Pituitary Gonadotrophic Hormones," Public Health Service.

Microbiology

Dr. Sheldon Dray, $64,480, "Allergy and Immunology," Public Health Service.

Microbiology (Continued)

Dr. Carolyn Hammond, $12,928, "Radiation Protection by Cultured Hemic Cells," Public Health Service.

Dr. David H. Lavrin, $34,575, "Virus-Associated Mammary Tumorigenesis in C3H/ZB Mice," Public Health Service.

Dr. Alfred Nisonoff, $28,191, "Investigation of Chemical Properties of Antibodies," Public Health Service.

Ophthalmology

Dr. Peter C. Kronfeld, $52,094, "Ophthalmology," Public Health Service.

Orthopaedic Surgery

Dr. Robert D. Ray, $28,944, "Graduate Training in Orthopaedic Surgery," Public Health Service.

Otoloryngology

Dr. Shirley J. Heinze, $19,939, "Auditory to Vibratory Experience," Public Health Service.

Dr. Francis L. Lederer, $121,333, "Otolaryngology," Public Health Service.

Pathology

Dr. Hubert R. Catchpole, $54,972, "Hormonal Mobilization of Connective Tissue Components," Public Health Service.

Dr. Roger D. Smith, $20,134, "Pathology of Combined Viral-Chemical Carcinogenesis," Public Health Service.

Pediotrics

Dr. Samuel P. Gotoff, $18,821, "Studies of the Beta C Globulin in Glomerulonephritis," Public Health Service.

Dr. Samuel P. Gotoff, $88,500, "The Immunologic Diagnosis of Intrauterine Infection and its Relationship to Congenital Cerebral Abnormalities and Mental Retardation," State of Illinois Department of Mental Health.

Dr. Eugene Isaacs, $22,991, "Studies on the Mechanism of Compensatory Renal Growth," Public Health Service.

Dr. Irving Schulman, $58,240, "Training in Pediatric Hematology," Public Health Service.

Pharmacology

Dr. Edmund G. Anderson, $49,476, "Neuropharmacology," Public Health Service.

Dr. Thaddeus Marczynski, $19,015, "Neurohumoral Supraspinal Control of Motor System," Public Health Service.

Dr Everett W Maynert, $34,215, "Nerve Ending Particles and Synaptic Vesicles," Public Health Service.

Dr. Bernard P. Salafsky, $13,284, "Study of Extent of Neuronal Control on Skeletal Muscle," Public Health Service.

Psychiatry

Dr. Ata A. Abdel-Latif, $18,063, "Studies on Subcellular Fractions on Developing Brain," Public Health Service.

Dr. Arthur Kling, $57,939, "Experimental CNS Lesions and Psychosomatic Maturation," Public Health Service.

Dr. Melvin Sabshin, $148,201, "Training in Psychiatry-Basic Residency," Public Health Service.

Dr. Melvin Sabshin, $51,840, "Psychiatry-General Practitioner-Residency Training," Public Health Service.

Dr. Melvin Sabshin, $45,368, "Training-Undergraduate Psychiatry," Public Health Service.

Physiology

Dr. Sabath F. Marotta, $18,055, "In Vivo Metabolism of Adrenocortical Steroids," Department of the Navy, Office of Naval Research.

Dr. Neena B. Schwartz, $37,669, "Environmental and Hormonal Interplay of Ovulation," Public Health Service.

Dr. William V. Whitehorn, $21,493, "Endocrine Factors in Myocardial Function," Public Health Service.

Dr. A. V. Wolf, $70,170, "Training Grant in Physiology," Public Health Service.

Preventive Medicine

Dr. Clyde Doughty, $37,000, "Purification and Characterization of Phage Induced Cell Wall Lytic Enzymes," National Science Foundation.

School of Associated Medical Sciences

Dr. Charles E. Richards, $20,524, "Health Professions Educational Improvement Program," Public Health Service.

Surgery

Dr. John C. Kukral, $35,164, "Metabolism of Plasma Protein Fractions after Injury," Public Health Service.

Dr. Lloyd L. Nyhus, $22,790, "Metabolism of the Isolated Perfused Bovine Liver," Public Health Service.

COLLEGE OF NURSING

Dr. Vernita Kay, $117,910, "Psychiatric Nursing Training," Public Health Service.

COLLEGE OF PHARMACY

Pharmacy

Dr. Martin I. Blake, $19,209, "Studies with Fully Deuteriated Antibiotics," Public Health Service.

LeGMc

UNIVERSITY OF ILLINOIS 100 CENTENNIAL YEAR 1967-68

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

No. 11, Oct., 1967

MEDICAL SERVICE PLAN APPROVED BY BOARD

The Board of Trustees has approved the establishment of a Medical Service Plan whereby medical and surgical fees will be charged by physician-faculty members of the College of Medicine. The funds that accrue through the voluntary assignment of professional fees will be used to strengthen the programs of the College of Medicine and the Research and Educational Hospitals.

The 75th Illinois General Assembly passed legislation removing the previous legal restrictions on charges for medical and surgical services at the Research and Educational Hospitals. Professional fees will be based upon a schedule of usual and customary fees, and collected in accordance with the patients' ability to pay. Benefits available to patients from prepayment plans, from medical-surgical insurance, or from entitlements under government programs for third-party payments are resources that would become available for the payment of professional fees under this plan.

UNIVERSITY COUNCIL, 1967-68

The University Council members from the Medical Center campus for the current academic year are: Chancellor Joseph S. Begando, Dr. Donald J. Caseley, and Deans Granville A. Bennett, Mary K. Mullane, George L. Webster, and Seymour H. Yale. The Medical Center Senate elected Professor Roger A. Harvey as its representative to the Council. Dean Maurice J. Galbraith is an associate member.

Membership is in accord with the *University of Illinois Statutes,* I, Sec. 5.: (a) The University Council shall consist of the President, the Vice-President and Provost, the deans of the colleges--including the associate deans of the Chicago Undergraduate Division --the directors or deans of independently organized schools, divisions, and institutes; other University officers who report directly to the President; and five members chosen by ballot from and by the three Senates as follows: one from the Chicago Professional Colleges Senate, one from the Chicago Undergraduate Division Senate, and three from the Urbana-Champaign Senate.

(b) At his discretion the President may invite other members of the University staff to attend meetings of the Council, who although they are nonmembers of the Council, may participate in its discussions.

(c) The University Council shall act as adviser to the President and shall meet at his call. It shall not exercise legislative functions. The President shall secure the general recommendations of the Council before preparing the annual and biennial budgets...

SENATE STANDING COMMITTEES ELECTED

Standing committees and representatives to University councils for 1967-68 were announced by the Senate of the University of Illinois at the Medical Center. New members, replacing those whose terms expire this year, were elected April 5 following presentation of a slate of nominees by the Senate Committee on Committees.

Listed below are the names of all committee members and newly-appointed representatives, their terms, and chairmen of the committees.

COMMITTEE ON EDUCATIONAL POLICY*

A. M. Ostfeld, Chairman	(1967-70)
J. A. Yaeger, V. Chairman	(1967-70)
H. S. Carlin	(1967-70)
B. S. Bergersen	(1967-70)
A. V. Wolf	(1965-68)
P. C. Kronfeld	(1965-68)
S. Dray	(1966-69)
E. S. Mika	(1966-69)
J. M. King	(1966-69)
E. W. Renfroe	(1966-69)

COMMITTEE ON STUDENT DISCIPLINE

J. S. Begando, Chairman
G. A. Bennett
M. J. Galbraith

*Chairmen of like committees at Chicago Circle Campus Senate and Urbana-Champaign Senate are members of this committee.

COMMITTEE ON STUDENT DISCIPLINE (Continued)

A. J. Diekema
M. K. Mullane
M. V. Novak
G. L. Webster
S. H. Yale

COMMITTEE ON UNIVERSITY CALENDAR

A. J. Diekema, Chairman	(1967-70)
C. A. Blomquist, V. Chairman	(1966-69)
V. E. James	(1966-69)
E. L. Anderson	(1965-68)
W. J. Grove	(1965-68)

COMMITTEE ON LIBRARY*

L. G. Oertel, Chairman	(1966-69)
W. Troxel, V. Chairman	(1967-70)
R. B. Underwood	(1967-70)
M. I. Blake	(1966-69)
T. O. Anderson	(1965-68)

COMMITTEE ON ACADEMIC FREEDOM & TENURE*

C. L. Bell, Chairman	(1966-69)
T. K. Barber, V. Chairman	(1965-68)
C. Fennessy	(1967-70)
A. Rostenberg, Jr.	(1967-70)
G. G. Jackson	(1966-69)

REGIONAL MEDICAL PROGRAMS COMMITTEE APPOINTED

The Coordinating Committee of Medical Schools and Teaching Hospitals of Illinois was awarded a U.S. Public Health Service grant of $336,366 for the first year of a two-year planning program under the Heart, Cancer and Stroke Legislation for the Illinois Regional Medical Program. The total grant for the two-year period will be $613,862.

Dr. William J. Grove will serve as chairman of the recently appointed Medical Center Campus Committee on Regional Medical Programs. The committee is to develop recommendations for the appropriate involvement of the Medical Center Campus in the planning for a Regional Medical Program in Illinois.

Committee members include: Drs. David Abramson, Bruce Douglas, Rolf M. Gunnar, Arthur Kling, Mark H. Lepper, Armand Littman, Maury Massler, Mary K. Mullane, Lloyd M. Nyhus, Adrian M. Ostfeld, Charles Richards, Irving Schulman, William Schumer, Nat E. Smith, Martin A. Swerdlow, Richard S. Webb, George L. Webster, William Whitehorn, Seymour H. Yale, Mr. Herbert Carlin, and Misses Helen W. Dunn, Cecelia

REGIONAL MEDICAL PROGRAMS COMMITTEE APPOINTED (Continued)

Fennessy, and Virginia Ohlson. Serving as consultants to the committee are Drs. Granville A. Bennett, Donald J. Caseley, and George E. Miller.

NURSING CONTRACT AWARDED

The construction contract for the College of Nursing Building has been awarded to the J. L. Simmons Company, Inc. The Board of Trustees Executive Committee requested the Illinois Building Authority to award the contract on the basis of bids received by the IBA on August 9. The J. L. Simmons Company was low bidder with a bid of $4,805,000.

NEW TRAVEL RATE SET

As of September 1, 1967, Mr. Herbert O. Farber, vice president and comptroller, has authorized a new rate of reimbursement for the use of private cars on University business. The rate is 9¢ for each mile for the first 100 miles and 5½¢ for each mile thereafter. If a University car is not available in the car pool, the rate of 9¢ will be paid for the entire mileage.

Rail and University car travel policies for travel between Chicago and Champaign-Urbana will remain the same.

II Personnel

DEPARTMENT HEADS APPROVED

The Board of Trustees has approved the recommended appointments of Dr. Charles G. Maurice and Dr. Bennett Klavan as heads of the Departments of Endodontics and Periodontics, respectively. Both appointments in the College of Dentistry were effective September 1.

Both Dr. Maurice and Dr. Klavan had served as acting heads of their respective departments since September, 1966.

DEAN MULLANE TO SERVE CITY BOARD

Dr. Mary K. Mullane, dean of the College of Nursing, has been appointed to the Chicago Board of Health. Her official appointment, for an indefinite period, was announced by Mayor Richard J. Daley's office.

III Grants, Gifts

RESEARCH AND TRAINING GRANTS TOTALING $1,550,963 ACCEPTED SINCE JULY 1

Research and training grants in the amount of $1,550,963 have been accepted by the Medical Center Campus for the period of July 1 through August 31, 1967.

The College of Medicine received $1,252,939, the College of Nursing received $167,233, the College of Dentistry received $98,859, the College of Pharmacy received $30,532, and the Graduate College received $1,400.

The United States Public Health Service is credited with 32 of 54 grants totaling $996,534.

The largest single grant for the period is $124,048 awarded by the Department of Mental Health, State of Illinois, to Dr. Marvin Cornblath, professor of pediatrics in the College of Medicine for a project entitled, "The Relationship of Neonatal Hypoglycemia to Mental and Neurological Damage in Low Birth Weight Infants and Twins."

Grants over $5,000 are listed below by college, department and name of investigator.

COLLEGE OF DENTISTRY

Administration

Dr. Samuel Pruzansky and Mr. A. Hooker Goodwin, $42,547, "Maxillofacial Prosthetic Demonstration & Research Program," Department of Health, Education and Welfare Vocational Rehabilitation Administration.

Histology

Dr. James A. Yaeger, $34,601, "Training in Histology - Anatomy - Biophysical Histology and Embryology," Public Health Service.

Dr. James A. Yaeger, $21,711, "Multidisciplinary, Basic Medical Sciences," Public Health Service.

COLLEGE OF MEDICINE

Administration

Dr. Granville A. Bennett, $73,937, "Research on the Relation between the Human Eye and Human Liver," from the Estate of Ruth Berolzheimer.

Biochemistry

Dr. Athol Cline, $6,100, "Predoctoral Fellowship for Charles L. Harris," Public Health Service.

Medical Social Work

Miss Lois E. Binns, $13,000, "Field Instruction," University of Chicago.

Medicine

Dr. George G. Jackson, $48,953, "Viruses Causing Common Respiratory Infections," Public Health Service.

Dr. George G. Jackson, $84,600, "Study of Vaccine for Immunization," Public Health Service.

Dr. George G. Jackson, $5,000, "Study of Clinical Efficacy and Toxicity of Gentamicin Injectable," Schering Corporation

Dr. Theodore B. Schwartz, $60,782, "Training in Endocrinology and Metabolism," Public Health Service.

Dr. John T. Sharp, $7,300, "to be used for the Chicago Heart Association Research Fellowship for Dr. Milton Fort," Chicago Heart Association.

Microbiology

Dr. Alfred Nisonoff, $38,593, "Allergy and Immunology," Public Health Service.

Orthopoedic Surgery

Dr. Claude N. Lambert, $17,278, "Juvenile Amputees Study," Department of Health, Education and Welfare.

Pothology

Dr. Elie P. Leroy, $5,980, "The Blood-Air Barrier in Interstitial Pulmonary Fibrosis," Illinois Tuberculosis Association.

Dr. Martin Swerdlow, $64,523, "Clinical Cancer Training - Medical," Public Health Service.

Pediotrics

Dr. Charles F. Abildgaard, $19,768, "The Relationship for Antihemophilic Factor to Intravascular Clotting," Chicago and Illinois Heart Associations.

Dr. Marvin Cornblath, $124,048, "The Relationship of Neonatal Hypoglycemia to Mental and Neurological Damage in Low Birth Weight Infants and Twins," Department of Mental Health.

Dr. Marvin Cornblath, $33,543, "Carbohydrate Metabolism in Neonate," Public Health Service.

Dr. Marvin Cornblath, $36,875, "Study of Rate Limiting Enzymes and Metabolic Pathways of Carbohydrate Metabolism in the Liver in Neonatal Hypoglycemia," The National Foundation.

Dr. Eugene W. Isaacs, $10,945, "The Effect of Dietary Protein on Compensatory Renal Hyperplasia," Chicago Heart Association.

Dr. Irving Schulman, $8,291, "Significance of Intravascular Clotting in the Pathogenesis of Leukemic Bleeding," Leukemia Research Foundation, Inc.

Phormocology

Dr. Harold Feinberg, $12,375, "Catecholamines and Contractile Protein of Cardiac and Sketetal Muscle," American Heart Association, Inc.

Dr. Harold Feinberg, $11,000, "Force Velocity Studies," Chicago and Illinois Heart Association.

Dr. Martin P. Schulman, $100,601, "Training in Pharmacology," Public Health Service.

Dr. Klaus R. Unna, $89,157, "Research Training - Biological Sciences," Public Health Service.

Physiology

Dr. Lawrence Stark, $59,988, "Training in Biomedical Engineering," Public Health Service.

Psychiatry

Dr. Gene H. Borowitz, $50,000, "Residency Training in Psychiatry," Department of Mental Health.

Dr. Alvin G. Burstein, $43,524, "Training in Clinical Psychology," Public Health Service.

Dr. Alvin Burstein, $6,372, "Training in Clinical Psychology," Public Health Service.

Dr. Nahman H. Greenberg, $65,057, "Psychosomatic Differentiation during Infancy," Department of Mental Health.

Dr. Nahman H. Greenberg, $25,143, "Psychosomatic Differentiation in Infancy," Public Health Service.

Dr. Ernest A. Haggard, $39,915, "Psychiatry Research Training," Public Health Service.

School of Associated Medicol Sciences

Dr. Charles E. Richards, $14,398, "Allied Health Professions Advanced Traineeships," Public Health Service.

Miss Beatrice D. Wade, $9,008, "Traineeships in Occupational Therapy," Department of Health, Education and Welfare, Vocational Rehabilitation Administration.

Surgery

Dr. Gerald O. McDonald, $30,000, "to be used for research," American Cancer Society.

Dr. Lloyd M. Nyhus, $6,500, "to be used for the editorial expenses of the journal Review of Surgery," Lippincott Company, Philadelphia.

Dr. William Schumer, $14,400, "Study of the Vasodilator Protective Mechanism in Shock," Public Health Service.

COLLEGE OF NURSING

Dr. Mary K. Mullane, $8,619, "Public Health Nursing Workshop Program-Chronic Illness," Department of Public Health.

Dr. Mary K. Mullane, $7,040, "Public Health Nursing Workshop Program, Maternal and Child Health," Department of Public Health.

Dr. Mary K. Mullane, $87,412, "Professional Nurse Traineeship Program - Long-Term Academic," Public Health Service.

Dr. Vernita Kay, $44,464, "Training in Psychiatric Nursing," Public Health Service.

Dr. Joan M. King, $19,698, "Special Project - Workshop-Clinical Nursing Practice in Psychiatric Settings," Public Health Service.

COLLEGE OF PHARMACY

Chemistry

Dr. Ludwig Bauer, $5,100, "Predoctoral Fellowship for Eric Sheinin," Public Health Service.

Dr. Dominick A. Coviello, $15,032, "a-Alkyloximinomercaptans for Protection in Radiotherapy," Public Health Service.

Dr. Ralph Daniels, $5,100, "Predoctoral Fellowship for Miss Janice Kuban," Public Health Service.

Dr. James E. Gearien, $5,300, "Predoctoral Fellowship for Miss Grace Steward," Public Health Service.

UNIVERSITY OF ILLINOIS
100
CENTENNIAL YEAR 1967-68

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

UNIVERSITY OF ILLINOIS
APR - 4 1968
LIBRARY

No. 12, Nov., 1967

Promotions Committee Formed on Campus

A Medical Center Campus Committee on Promotions has been established to replace the University Committee that was discharged by Provost Lyle H. Lanier. In a letter dated August 2, 1967, the Provost wrote:

"In view of the change in University organization giving greater autonomy to the campuses, the University Committee on Promotions will not be continued. Presumably each campus will develop arrangements for performing the highly valuable responsibilities heretofore exercised by (the University) committee."

Because of the importance and effectiveness of the work of the University Committee on Promotions, a Committee on Promotions was appointed by the Chancellor. The principles of rotational service and partial continuity of membership are followed. Henceforth, three new members will be appointed each year for three-year terms.

The first appointees and their terms are:

Dr. Roger A. Harvey, Chairman	)
Dr. Roy Gillette	) Until August 31, 1968
Dr. Ernst R. Kirch	)
Dr. Betty S. Bergerson	)
Dr. Martin I. Blake	) Until August 31, 1969
Dr. Irving Schulman	)
Dr. Charles G. Maurice	)
Dr. Adrian M. Ostfeld	) Until August 31, 1970
Dr. A. V. Wolf	)

The following dates have been established in connection with academic promotions for 1968 - 69:

January 5, 1968 - Promotion recommendations from deans and directors are due in the Office of the Chancellor. The recommendations will be reviewed by the Committee on Promotions and by the Associate Dean of the Graduate College. The reports from the Committee and the Associate Dean will be submitted to the Chancellor.

March 1, 1968 - Chancellor sends notifications of action taken on recommendations of promotion in academic rank to deans and directors.

Chancellor Names Campus Committees

The following committee appointments have been made by the Chancellor effective as of September 1, 1967. The majority of the appointments are for the period September 1, 1967 through August 31, 1968.

The committee chairmen are indicated by an asterisk (*).

Chancellor's Report on Topics of Current Interest

I General

CENTENNIAL EXHIBIT TO TOUR CITY, STATE

As a continuing part of the University's Centennial Year commemoration, a traveling exhibit has been prepared featuring the teaching, research and treatment facilities of the Medical Center Campus. Under the auspices of the Campus Centennial Committee the eight panel color exhibit was produced by the Illustration Studios. The exhibit will be on display in the Chicago Illini Union during November before it is shown at scheduled sites in the Loop and in Urbana.

LEGISLATURE EXTENDS MEDICAL DISTRICT SOUTH

By a legislative act of the 75th General Assembly the south boundary of the Medical Center District has been extended from Roosevelt Road (the former boundary) to 13th Street. The new boundaries of the District are Ashland Boulevard on the east, a line coincidental with Congress Street extending from Ashland in a westerly direction to Oakley Boulevard on the west, and 13th Street on the south. The entire District encompasses 363 acres of land.

FACULTY TO APPEAR ON "CONSULTATION"

A new television series featuring campus faculty members is appearing Sundays at 4:30 p.m. on station WCIU (Channel 26) in Chicago. The series, titled "Consultation," will consist of 30-minute programs on health and health problems. The shows are directed at the lay audience and will include a wide variety of health-related topics.

Faculty guests in November include Dr. Francis J. Tenczar (Nov. 12) "The Need for a Blood Bank"; Dr. Adrian M. Ostfeld (Nov. 19) "How to Prevent a Heart Attack"; and Dr. Eric Oldberg (Nov. 26) "Brain Tumors." The programs are moderated by Mr. Jack W. Righeimer.

II Personnel

McGREW TO RECEIVE SERVICE AWARD

Dr. Elizabeth A. McGrew, professor of pathology, will be honored by the Women's Auxiliary of the Albert Einstein Medical Center, Philadelphia, in January, 1968. The Auxiliary has named her as the recipient of their Annual Award for Distinguished Service to Humanity.

Earlier this year Dr. McGrew received an "Award of Distinction" from the Rockford College Alumni Association for her ". . . personal and professional accomplishments."

III Grants, Gifts

$756,859 IN RESEARCH AND TRAINING GRANTS

Research and training grants in the amount of $756,859 have been accepted by the Medical Center Campus for the period of September 1 - 30, 1967.

The College of Medicine received $479,949, the College of Dentistry received $212,055, the College of Pharmacy received $46,612, the College of Nursing received $17,643, and the Graduate College received $600.

The United States Public Health Service is credited with 28 of 32 grants totaling $729,961.

The largest single grant for the period is $160,985 awarded by the Public Health Service to Dr. Daniel J. Laskin, associate head of the Department of Oral Surgery in the College of Dentistry for a project entitled, "The Temporomandibular Joint and Associated Structures."

Continued

Grants over $5,000 are listed below by college, department and name of investigator.

COLLEGE OF DENTISTRY

Oral Pathology

Dr. Julia Meyer, $16,822, "Studies on Normal and and Altered Oral Mucosa," Public Health Service.

Oral Surgery

Dr. Daniel M. Laskin, $160,985, "The Temporomandibular Joint and Associated Structures," Public Health Service.

Pedodontics

Dr. Philip Goland, $34,248, "Fixation of Tissues by Metalizable Chloro-S-Triazines," Public Health Service.

COLLEGE OF MEDICINE

Administration

Dr. William J. Grove, $27,000, "Undergraduate Clinical Training," Public Health Service.

Anatomy

Dr. L. M. Larramendi, $15,064, "Electron Microscopy of Cerebellar Synaptogenesis," Public Health Service.

Dr. L. M. Larramendi, $28,710, "An Analysis of Cerebellar Subcellular Fractions," Public Health Service.

Dr. Edith K. MacRae, $5,100, "Predoctoral Fellowship," Public Health Service.

Dr. W. Ann Reynolds, $5,100, "Predoctoral Fellowship," Public Health Service.

Medicine

Dr. Nicholas J. Cotsonas, Jr., $5,500, "Educational Improvement," National Fund for Medical Education.

Dr. Robert M. Kark, $70,571, "Biopsy Studies of Kidney Structure and Function," Public Health Service.

Dr. Malcolm M. Stanley, $20,763, "Iodine Metabolism in the Gut in Man," Public Health Service.

Microbiology

Dr. Sheldon Dray, $20,400, "Serum Protein Allotypes," Public Health Service.

Dr. Sheldon Dray, $5,100, "Predoctoral Fellowship," Public Health Service.

Dr. Alfred Nisonoff, $8,500, "Research Fellowship Award," Public Health Service.

Occupational Therapy

Miss Beatrice D. Wade, $10,798, "Teaching Grant in Occupational Therapy," Department of Health, Education, and Welfare, Vocational Rehabilitation Administration.

Otolaryngology

Dr. Arthur J. Derbyshire, $15,176, "AER, CVN, and Vascular Measures of Semantic Change," Public Health Service.

Pathology

Dr. H. H. Friederici, $9,000, "Capillaries of Skin and Subcutis," Public Health Service.

Dr. Cecil A. Krakower, $22,642, "Studies on the Capillary Wall," Public Health Service.

Physical Medicine

Dr. David I. Abramson, $47,437, "Traineeship in Rehabilitation Medicine," Public Health Service.

Dr. David I. Abramson, $18,148, "Vascular Responses in Skin & Muscle to Various States," Public Health Service

Physiology

Dr. Ruven Greenberg, $9,463, "Study of an Inhibitory Agent in Autonomic Tissue," Public Health Service.

Dr. A. V. Wolf, $11,971, "Regulation of Concentration in Body Liquids," Public Health Service.

Psychiatry

Dr. Melvin Sabshin, $19,989, "Research Career Development Award," Public Health Service.

Dr. Melvin Sabshin, $29,925, "Research Supervision" Public Health Service.

Surgery

Dr. Lloyd Nyhus, $61,985, "Physiology & Repair of Gastroesophageal Incompetence," Public Health Service.

Dr. William Schumer, $10,000, "Corticoid Effect in Oligemic and Septic Shocks," Merck Sharp & Dohme Research Laboratories, West Point, Pennsylvania.

COLLEGE OF NURSING

Administration

Dr. Mary K. Mullane, $17,643, "Public Health Nursing Traineeships," Public Health Service.

COLLEGE OF PHARMACY

Chemistry

Dr. C. E. Gracias, $5,500, "Predoctoral Fellowship," Public Health Service.

Dr. C. E. Gracias, $29,046, "Analytical Studies in Air Pollution," Public Health Service.

Pharmacy

Dr. James E. Gearien, $12,066, "1, 2, 3, 4--Tetrahydroquinolines of Biological Interest," Public Health Service.

Photo - ID Cards Planned for Campus

In February, 1966, an ad hoc committee was appointed to review photo identification cards for the Medical Center Campus. The committee recommended adoption of a student, a faculty, and a staff photo identification card. Subsequently the faculties of the several colleges also recommended issuances of the cards.

The student photo identification cards were first used on this campus this fall. By now all students should have received their cards and it is possible to schedule faculty and staff currently employed at the Medical Center Campus for issuance of photo identification cards.

Each campus unit will have a coordinator who will schedule faculty and staff personnel into the Photographic Section of Illustration Studios (Room 35 EDMP) for identification card preparation. The following schedule will be used:

DECEMBER 4 THRU 29 - R&E HOSPITALS - COORDINATOR, MR. C. T. HEINZE

Mondays and Wednesdays, 3:00 P.M. to 5:00 P.M.
Tuesdays and Thursdays, 6:00 A.M. to 8:00 A.M.
Fridays, 11:00 A.M. to 1:00 P.M.

JANUARY 3 THRU 19 - MEDICINE - COORDINATOR, MISS CATHERINE DOLAN

Wednesdays, 8:30 A.M. to Noon; and 1:00 P.M. to 5:00 P.M.
Mondays, Tuesdays, Thursdays, and Fridays, 11:00 A.M. to 1:00 P.M.

JANUARY 22 THRU 26 - PHYSICAL PLANT - COORDINATOR, MR. R. N. GORDON

Mondays, 3:00 P.M. to 5:00 P.M.
Thursdays, 6:00 A.M. to 8:00 A.M.
Tuesdays, Wednesdays, and Fridays, 11:00 A.M. to 1:00 P.M.

JANUARY 29 THRU FEBRUARY 2 - DENTISTRY - COORDINATOR, DR. D. L. McELROY

Wednesdays, 8:30 A.M. to Noon; and 1:00 P.M. to 5:00 P.M.
Mondays, Tuesdays, Thursdays, and Fridays, 11:00 A.M. to 1:00 P.M.

FEBRUARY 5, 6, AND 7 - PHARMACY - COORDINATOR, MRS. VIOLET KLETTKA

Monday, Tuesday, and Wednesday, 11:00 A.M. to 1:00 P.M.

FEBRUARY 7, 8, AND 9 - NURSING - COORDINATOR, MISS EDNA ANDERSON

Wednesday, 3:00 P.M. to 5:00 P.M.
Thursday and Friday, 11:00 A.M. to 1:00 P.M.

FEBRUARY 12 THRU 23 - CHANCELLOR'S OFFICE, STATISTICAL SERVICE UNIT, BUSINESS OFFICE, ADMISSIONS AND RECORDS, LEGAL COUNSEL, LIBRARY, PERSONNEL OFFICE, PUBLIC INFORMATION, STUDENT AFFAIRS, HEALTH SERVICE, ALUMNI RELATIONS, DIVISION OF SERVICES FOR CRIPPLED CHILDREN, RESEARCH RESOURCES LABORATORY, ILLUSTRATION STUDIOS, MEDICAL RESEARCH LABORATORY, AND INSTITUTION FOR TB RESEARCH - COORDINATOR, MR. L. J. KUZELA

Monday thru Friday, 11:00 A.M. to 1:00 P.M.

It is anticipated that all personnel who are presently employed at the Medical Center Campus will have their new photo identification cards prior to April 1, 1968.

Search For Dean of Student Affairs

A consultative committee has been appointed to assist in the task of selecting a Dean of Student Affairs. The committee will make recommendations to the Office of the Chancellor.

The committee is expected to set criteria to be used as the basis for judging the qualifications of candidates, and then proceed to assemble a list of names of individuals who might be considered for the position. Individuals both from within and outside the University are eligible for consideration.

The committee members are Mrs. Irene B. Alyn, Drs. Donald L. McElroy, Ernst R. Kirch, Anthony J. Diekema, Theodore R. Sherrod, Mssrs. Clarence C. Leverenz and Bruce A. Hillemeyer. Dr. Nat E. Smith will serve as the chairman.

President Henry Appoints Campus Representatives

On the recommendation of the Chancellor and the Executive Vice President and Provost, President Henry has appointed the following committee representatives from this campus for 1967 - 68.

University Committee on Art Objects

Mr. A. Hooker Goodwin

University Budget Committee

Drs. Joseph S. Begando, William J. Grove

University Coordinoting Committee of the Life Sciences

Drs. Conrad A. Blomquist, Harold O. Feinberg, William J. Grove

University Committee on Copyrights ond Recordings

Dr. A. V. Wolf

University Editorial Boord of Review

Drs. Donald M. Martin, Nat E. Smith

On the recommendation of the Executive Vice president and Provost, the President has appointed the following representatives from this campus:

University Building Progrom Committee

Drs. Joseph S. Begando, John P. Marbarger

In addition, President Henry has appointed these campus representatives:

Centennial Executive Committee

Dr. Joseph S. Begando

Council on University Relations in Chicogo

Dr. Joseph S. Begando

University Committee on Alumni Affoirs

Dr. William J. Grove

University Committee on Fees

Dr. Joseph S. Begando

University Committee on Legislative Relotions

Dr. Donald J. Caseley

University Council on School ond College Relations

Drs. Anthony J. Diekema,
Donald A. Wallace

Committee to Study Neighborhood Health Center

Dr. Adrian M. Ostfeld will head an ad hoc faculty committee to explore the concept of a "Neighborhood Health Center." The newly appointed committee has been charged to make recommendations which would enable the Medical Center Campus to increase its capacity for community service and related teaching and research.

Committee members include Mrs. Carol H. Preucil, Mr. Herbert S. Carlin, and Drs. Donald J. Caseley, Nicholas J. Cotsonas, Herman I. Diesenhaus, Bruce L. Douglas, I. Clark Gleeson, Jerome J. Hahn, Robert L. Hall, Edsel K. Hudson, Joyce C. Lashof, Lloyd M. Nyhus, Virginia M. Ohlson, Roy M. Pitkin, Irving Schulman, and Harold A. Shafter.

Farber Explains Purchasing Act

In a letter dated October 30, 1967, addressed to Deans, Directors and Heads of Academic and Administrative Departments on all campuses Mr. Herbert O. Farber, University Vice President and Comptroller, stated:

"On July 31, 1967, Governor Kerner approved House Bill 1330 of the 75th General Assembly which adds a section to 'The Illinois Purchasing Act' requiring a copy of all contracts 'for services involving professional, technical or artistic skills and involving an expenditure of more than $1,500, which contract is exempt from competitive bidding' to be filed with the Auditor General. Some of the more standard types of arrangements which must now be reported are agreements for consulting services, architectural services, engineering services, appraisals and legal services. The law is applicable, however, only to those agreements which will be paid out of State appropriations. It does not apply to services of employees paid on the University payroll.

When formal contracts are written for such services, and executed by the Comptroller and Secretary of the Board, a copy will be prepared for this purpose and sent to the Auditor General by the Business Office. If a department submits a voucher for 'professional, technical or artistic skills,' involving an expenditure of more than $1,500 from State appropriations, for which no contract has been written, a memorandum setting forth the details of the 'oral contract' must accompany the voucher. The Accounting Division on the Urbana-Champaign campus, or the respective Business Managers at Chicago Circle and the Chicago Medical Center will take the responsibility for seeing that copies of contracts and memoranda of oral agreements are reported to the Auditor General."

Any questions involving this matter should be directed to Mr. David W. Bonham, extension 7080.

Chancellor's Report on Topics of Current Interest

I. General

CAMPUS EVENTS ON CALENDAR

Two annual campus events have been set on the academic calendar. The Open House will be held Friday, April 26 and the Service Recognition dinner, honoring retirees and employees with over 25 years of service, will be Tuesday, May 7.

SURGEON GENERAL TO ADDRESS GRADUATES

Dr. William H. Stewart, Surgeon General of the United States Public Health Service, will be the principal speaker at the Commencement Exercises on Friday, June 7, 1968. The ceremonies will be held at the Medinah Temple.

CHICAGO SUBCOMMITTEE FOR SURVEY RESEARCH LABORATORY

Dean Daniel Alpert of the Graduate College has named a Chicago subcommittee of the Executive Committee of the Survey Research Laboratory. This subcommittee will be concerned with survey research services and training at the Chicago campuses.

Continued

This campus will be represented by Drs. Anthony J. Diekema, Richard B. Shekelle, and Jack Weinberg. Dr. Adrian M. Ostfeld will serve as Chairman.

II. Personnel

NEW ASSOCIATE DEAN APPOINTED

Dr. Donald L. McElroy has been appointed associate dean of the College of Dentistry, succeeding Dr. Arthur J. Skupa who retired in August. Dr. McElroy was the acting head of the Department of Oral Diagnosis. He has been with the College since 1933.

III. Grants and Gifts

RESEARCH AND TRAINING GRANTS TOTALING $635,811 ACCEPTED SINCE OCTOBER 1, 1967

Research and training grants in the amount of $635,811 have been accepted by the Medical Center Campus for the period of October 1 to October 31, 1967.

The College of Medicine received $436,959, the College of Dentistry received $21,903, the College of Pharmacy received $17,040, the Office of Student Affairs received $159,909.

The United States Public Health Service is credited with 18 out of the 25 grants totaling $593,427.

The largest single grant for the period is $249,310, awarded by Public Health Service to the Department of Medicine to be used on a project entitled "General Clinical Research Center" under the supervision of Dr. Harry F. Dowling.

Grants over $5,000 are listed below by college, department and name of investigator.

COLLEGE OF MEDICINE

Department of Anatomy

Dr. Samuel R. M. Reynolds, $15,000, "Special Fellowship Award - Dr. Carl Brighton", U.S. Public Health Service.

Department of Biochemistry

Dr. Henry Jeffay, $19,500, "Protein Metabolism in Oral Tissues", U. S. Public Health Service.

Dr. Bernard Weissmann, $34,124, "Isolation and Structure of Acid Mucopolysaccharides", U. S. Public Health Service.

Department of Medicine

Dr. R. W. Carton, $7,078, "Connective Tissue Defects in Pulmonary Emphysema and Vice Versa" Tuberculosis Institute of Chicago & Cook County.

Dr. Harry F. Dowling, $249,310, "General Clinical Research Center", U. S. Public Health Service.

Dr. Clarence L. Gantt, $12,000, "Clinical Pharmacology of Spirolactones", G. D. Searle & Co.

Department of Pediatrics

Dr. Alois R. Hastreiter, $6,806, "Correlated Analysis of the Orthogonal Vectorcardiogram in Children", Chicago Heart Association.

Department of Pharmacology

Dr. Edmund G. Anderson, $17,484, "Spinal Synaptic Transmission and Biogenic Amines", U. S. Public Health Service.

Dr. Harold Feinberg, $8,683, "Adenime Nucleotide 6-NH2 Metabolism in Heart Muscle", U. S. Public Health Service.

Department of Physiology

Dr. Pietro O. Bramante, $5,915, "Energy Metabolism of Experimental Myocardial Lesions", U. S. Public Health Service.

Dr. Akira Omachi, $25,482, "Role of Phosphate Metabolism in Transport", U. S. Public Health Service.

Department of Surgery

Dr. Lloyd M. Nyhus, $7,000, "Isolated Perfused Bovine Liver", Ayerst Laboratories.

Dr. William Schumer, $17,802, "Glycoprotein Biosynthesis in Shock", U. S. Public Health Service.

COLLEGE OF PHARMACY

Department of Chemistry

Dr. Ralph Daniels, $17,040, "Polyhalocyclopropanes as General Anesthetics", U. S. Public Health Service.

COLLEGE OF DENTISTRY

Department of Oral Pathology

Dr. Julia Meyer, $19,903, "Studies on Normal and Altered Oral Mucosa", U. S. Public Health Service.

OFFICE OF STUDENT AFFAIRS

Dean Mary E. Reeves, $72,570, "Health Professions Scholarships Program in Medicine", U. S. Public Health Service.

Dean Mary E. Reeves, $53,789, "Health Professions Scholarship Program in Pharmacy" U. S. Public Health Service.

Dean Mary E. Reeves, $33,550, "Health Professions Scholarship Program in Dentistry", U. S. Public Health Service.

L
IZc6Mc

UNIVERSITY OF ILLINOIS 100 CENTENNIAL YEAR 1967-68

CAMPUS REPORT

from the Office of the Chancellor

University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
FEB 20 1968
UNIVERSITY OF ILLINOIS

No. 14, January, 1968

Articulation Committee Appointed

During the past academic year, Executive Vice President and Provost Lyle H. Lanier appointed an Ad Hoc Committee on University Articulation with Schools and Junior Colleges.

A significant recommendation made by that Committee, which was approved by the Executive Vice President and Provost and by the Chancellors of the three campuses, proposed:

> "That the Chancellor of each campus appoint an articulation committee or committees or other appropriate organizational group which should, in cooperation with the Council, consider the specific and unique needs of that campus and perform such duties related thereto as directed by the Chancellor."

In accordance with this recommendation, the Chancellor has appointed a Medical Center Articulation Committee. The appointment is for the 1967-68 academic year.

The members are: Miss Florence E. Sherbon, Chairman; Drs. Thomas K. Barber, Conrad A. Blomquist, Donald L. McElroy, Mary E. Reeves, Charles E. Richards, Nat E. Smith, Messrs. Gerald R. Glaub, and Dean R. Doolen, Secretary.

Fire Safety Stressed

Mr. Raymond S. Stephens, Safety Officer, has sent a timely letter to Deans, Directors and Department Heads on the subject of fire safety. It reads, in part:

"On March 4, 1967 a relatively small fire in the Digital Computer Laboratory at Urbana caused several hundred thousand dollars worth of damage. It was not the intensity of the fire that ran the cost up so much as the sensitivity of the equipment to smoke and fire gases . . . .

Here at the Medical Center we, too, are faced with constant exposure of lives and equipment to vulnerable situations. It is vital that these questions be asked:

1. Does this building give . . . reasonably good protection against the spread of fire and smoke?
2. Are there two separate ways out? Are they obstructed?
3. Is there any unusual hazard to life . . . ?
4. Do we have an emergency plan? What are my instructions? Are adequate extinguishers available?
5. Do we have records, files or research data which should be duplicated to reduce the possibility of a crippling loss due to fire?

A review of the above questions may reveal the need for additional control measures."

Plan Cooperation With Center For Urban Studies

A joint advisory committee will explore the possibility of cooperative action with the Chicago Circle's Center for Urban Studies to initiate some projects of interest to the proposed Center for the Study of Patient Care and Community Health. The committee will consist of three persons appointed from the Chicago Circle Campus and four (including the chairman) appointed from the Medical Center Campus.

The four Medical Center representatives include Dr. Adrian M. Ostfeld, chairman; Mr. Herbert S. Carlin, Drs. Bruce L. Douglas and Virginia M. Ohlson.

The State Board of Higher Education did not approve the necessary budget in the 1967-69 biennium for the University to create the Center for the Study of Patient Care and Community Health. However, the budget for the Center for Urban Studies was approved and has been established with Dr. William L. Garrison as director.

AAU Position On Faculty Transfer

The following was adopted by the Association of American Universities, April, 1964:

The sharp increase in the demand for teacher-scholars of high talent arising from our growing national needs in both instruction and research is now pressing against a limited supply of such talent in many disciplines. To assure the highest possible effectiveness in each university in producing high talent to meet future national needs, sound and orderly planning will be required. When late and sudden, induced departures of personnel assigned to provide instruction or to lead in research in one institution may well do more to impair the effectiveness of that institution than is justified by the gain to the institution extending the offer. This is particularly true at the level of tenure appointments where the institution has declared its willingness to undertake a continuing obligation and where there are most likely to be continuing obligations by the faculty member to graduate students and colleagues.

Therefore we consider it incumbent upon the administrations of both the prospective and current institutions of employment to call the attention of the individual faculty member to these obligations when employment changes, not accepted before May 1 for the immediately ensuing academic year, are under consideration. We believe that a responsible approach for both the institutions and the faculty members would be to consider offers made or pending on May 1, or thereafter, to be effective normally only after the intervention of an academic year.

Guest Parking Available

Parking facilities for guests and visitors to the Medical Center Campus are available in parking lots A-1 (Polk & Damen), B-2 (across from the Chicago Illini Union), F-1 (between Paulina and Marshfield), and G-3 (south of staff apartments on Marshfield).

All of these lots are available on a first-come, first-served basis. However, special parking arrangements for groups of forty or more can be made by contacting Mr. Frank N. Brockway (7118).

The parking fee in any of the lots listed is 25¢ when entering the lot and 25¢ when exiting the lot. The lots may be used at any time between the hours of 6:00 a.m. and midnight, Monday through Friday, but must be vacated between midnight and 6:00 a.m.

Campus Chest Drive Success

Mr. Harry G. Higgins, chairman of the 1967 Campus Chest Committee, reported that the total amount collected in this year's drive was $11,328.69. The Committee has agreed to present the Metropolitan Crusade of Mercy with $7,000. The balance of the amount collected will be distributed to agencies and organizations stipulated by the donors as follows:

Salvation Army	$1,270.00
American Cancer Society, Illinois Division	400.00
American Heart Association, Chicago Affiliate	400.00
Chicago Tuberculosis Institute	400.00
March of Dimes, National Foundation	300.00
Muscular Dystrophy Association of America	300.00
St. Joseph's Carondelet Child Center	200.00
Boy Scouts of America	100.00
Girl Scouts of America	100.00
Duncan Y.M.C.A.	100.00
Erie Neighborhood House	100.00
Neighborhood Service Organization (S. Racine)	100.00
Catholic Charities	100.00
Chicago Lighthouse for the Blind	50.00
Lutheran Charities Federation	50.00
Visiting Nurse Association	50.00
Chicago Urban League	25.00
Chicago Youth Centers	25.00
American Red Cross	15.00
Palatine Community Combined Appeal	15.00
Wheaton Community Fund	15.00
Bensenville Community Chest	10.00
Evangelical Child Welfare Agency	10.00
Jewish Federation of Metropolitan Chicago	10.00
St. Leonard House	10.00

Chancellor,s Report On Topics Of Current Interest

I GENERAL

SAMS BECOMES CHARTER MEMBER

The School of Associated Medical Sciences is one of thirteen charter members of the Association of Schools of Allied Health Professions. The Association will provide leadership in education and serve as a medium for cooperation and communication among schools and colleges of health sciences.

POLICY SET FOR CIRCLE RECREATION FACILITIES

Added enrollment and increased staff and faculty have increased demands on the recreational facilities in the Chicago Circle Center. A new policy concerning the use of these facilities went into effect January 2, 1968.

Faculty, staff, and students from the Medical Center Campus will still be entitled to use of the facilities if they hold valid ID cards. Medical Center personnel are not allowed to bring guests with them however.

II PERSONNEL

Lederer Professorship Created

The University of Illinois Board of Trustees, at its meeting on Wednesday, December 10, 1967, approved the creation of the Francis L. Lederer Professorship in Otolaryngology.

Dr. Lederer retired as professor of Otolaryngology and head of the department on August 31, 1967, having served the College of Medicine and the University for 45 years. He has also served as Otolaryngologist-in-Chief and director of Otolaryngologic Service of the Illinois Eye and Ear Infirmary.

BOSHES TO RECEIVE ALUMNI AWARD

Dr. Louis D. Boshes has been announced as a 1968 Merit Award winner of the Northwestern University Alumni Association. The award will be presented as part of the 1968 Founders Day observation on Sunday, January 28. Dr. Boshes is the director of the Consultation Clinic for Epilepsy.

SHIPLEY AWARD PRESENTED TO NYHUS

At its December meeting, the Southern Surgical Association presented the Arthur M. Shipley award to Dr. Lloyd M. Nyhus, head of the Department of Surgery. The award is given each year to the "individual . . . related to a scientific paper given the prior year which was most outstanding for its originality, basic contribution and organization and method of presentation." Dr. Nyhus co-authored a paper titled, "An Experimental Study of the Anatomic Etiology and Operative Treatment of Peptic Esophagitis."

III GRANTS, GIFTS

$152,073 IN RESEARCH AND TRAINING GRANTS

Research and training grants in the amount of $152,073 have been accepted by the Medical Center Campus for the period of November 1–30, 1967.

The College of Medicine received $137,073, and the College of Dentistry received $15,000.

The United States Public Health Service is credited with 5 of the 8 grants totaling $64,333.

The largest single grant for the period is $81,800 awarded by the Department of Mental Health, State of Illinois to Dr. Robert J. Leider, Department of Psychiatry, College of Medicine, to be used for providing services to mentally ill and retarded persons in Illinois.

Grants over $5,000 are listed below by college, department and name of investigator.

COLLEGE OF DENTISTRY

Oral Diagnosis

Dr. Bruce L. Douglas, $15,000, "Special Patient Project", Department of Public Health, State of Illinois.

COLLEGE OF MEDICINE

Microbiology

Dr. Alfred Nisonoff, $30,330, "Structural Basis of Antibody Specificity", Public Health Service.

Pediatrics

Dr. Robert A. Miller, $17,836, "Computer Analysis of the Orthogonal ECG in Children," Public Health Service.

Psychiatry

Dr. Robert J. Leider, $81,800, to be used for providing services to mentally ill and retarded persons in Illinois, Department of Mental Health.

Campus Report readers have indicated that they find Campus Report is a valuable resource. Copies of the report are often saved and used for reference purposes.

Beginning with this issue of Campus Report, copies will be punched to fit standard three-hole binders, making it easier to file and use as ready-reference material. In addition, a year-end index of major topics will be printed and can be filed at the beginning of each year's Campus Report.

LE6Mc

CAMPUS REPORT

from the Office of the Chancellor

University of Illinois at the Medical Center, Chicago

No. 15, April, 1968

THE LIBRARY OF THE
APR 1 1968
UNIVERSITY OF ILLINOIS

Official Notice #20

The following notice was promulgated, effective January 2, 1968.

Official Notice #20: Procedure to be followed when a department at one campus wishes to use physical facilities at another campus

I. A department or unit desiring space at another campus will submit through regular channels a request to the chancellor at his campus, outlining the space required at the other campus and the period of time for which the space is required.

II. The Chancellor's Office at that campus will ask the Officer of Space Utilization to evaluate the request and make a recommendation to the chancellor.

III. If the chancellor at the campus making the space request approves it, the request will be sent to the Executive Vice President and Provost for review and approval.

IV. If the Executive Vice President and Provost approves the request, it will be sent to the chancellor at the campus where the space is desired.

V. The Chancellor at the campus from which the space is requested will ask his Office of Space Utilization to determine whether or not space is available.

A. If space is available:

1. The Office of Space Utilization, in conjunction with the using department, will determine if any remodeling is required. If remodeling is required, a physical plant estimate will be requested for the work to be done – provided the using department would meet the cost of the estimate.
2. After receipt of the physical plant estimate, the Office of Space Utilization will transmit the estimate to the department requesting the space. That department will be responsible for obtaining funds for the remodeling, and, if available, the funds will be transferred to the campus supplying the space.
3. After funds are obtained, the remodeling work will be the responsibility of the campus supplying the space.
4. The space will be assigned to the department using the space and will be part of its total space assignment.

B. If Space is not available at a campus but must instead be rented:

1. If the two campuses involved are in Chicago, the Office of Space Utilization at the campus requesting space will initiate the steps leading to rental – in accordance with customary procedures.
2. If a Chicago and an Urbana-Champaign campus are involved, the Office of Space Utilization at the campus from which space is requested will ask the Physical Plant Department at that campus to investigate rental space and to report on availability and cost to the requesting department. (Cost estimates will include operation and maintenance charges, if the latter aren't covered by the rental charge.) The using department will be responsible for obtaining funds for the rental and operation from their campus chancellor, and the funds are to be transferred to the campus that is renting the space.
3. The space assignment will be to the department using the space and will be part of their total space assignment.

Grove Named Dean of Medicine

Dr. William J. Grove was elected dean of the College of Medicine by the Board of Trustees at its February meeting at the Medical Center campus. The selection of Dean Grove was the culmination of a search that began in June, 1967 when Dean Granville A. Bennett announced his wish to retire from the deanship.

Dr. Grove's appointment was based upon a report from a faculty consultative committee, chaired by Dr. George G. Jackson, and followed consultation with the Executive Committee of the College of Medicine. The proposed appointment was endorsed by the Chancellor

and by the Executive Vice President and Provost, and was recommended to the Board of Trustees by President Henry. The appointment became effective March 1, 1968.

Section 9 (a) of the University of Illinois Statutes states that:

"The dean is the chief executive officer of the College, responsible to the college faculty for the execution of college education policy."

Section 9 (b) states that:

"He shall be elected biennially by the Board of Trustees, on nomination of the President. On the occasion of each election, the President shall have the advice of the Executive Committee of the faculty concerned."

Dr. Grove, associate dean of the College of Medicine since 1961, was born on March 23, 1920 in Ottawa, Illinois. He holds a Bachelor of Science (1941), Doctor of Medicine (1943), and Master of Science (1949), degrees from the University of Illinois. He completed his residency in surgery at the Research and Educational Hospitals in June, 1952. His first academic appointment with the University was as an instructor in Surgery, 1951-52.

Committee will Study Data Processing

Dr. John P. Marbarger, director of the Research Resources Laboratory, will be the campus representative on the newly created University Committee on Administrative Data Processing. The committee, appointed by the Provost, will advise him on general policies, organizational arrangements, and equipment related to the processing of institutional data throughout the University. Professor James N. Snyder, associate head of the Department of Computer Science in Urbana, will act as chairman of the committee.

At present, administrative data processing for the entire University is organized under the Statistical Service Unit, whose director is Mr. John F. Chaney. He reports to the Executive Vice President and Provost. A separate division of the Unit is located at each of the three campuses, with responsibility for providing the data-processing services as required by the campus offices and departments. In addition, a division concerned with University-wide responsibilities functions under Mr. Chaney's immediate supervision. (He also continues to direct on an interim basis the Urbana-Champaign campus unit.)

Since the campus units collect and process data required for University-wide administrative purposes, it is necessary to have uniformity in the procedures for encoding information and in computer programs. Furthermore, University-wide and campus requirements for services must be coordinated so as to meet both types of needs to the fullest extent possible. For these principal reasons, the Unit has not been decentralized under the chancellorship system, and one of the committee's tasks will be to study this problem with a view to recommending whether or not this organizational arrangement should be continued.

Laser Systems under Safety Subcommittee

Acting on a recommendation of the Safety and Fire Prevention Advisory Committee, Chancellor Begando has placed the jurisdiction of laser systems under the Subcommittee on Radiation Safety, chaired by Dr. Walter S. Moos, professor of radiology. This is, in part, a response to an act passed by the Seventy-fifth General Assembly which requires the registration of laser systems and authorizes the Illinois Department of Public Health "to investigate and inspect all laser systems in this State, to require reporting of any accidental injuries sustained by such laser systems and to provide injunctive relief and penalties for violations of this Act."

Under this act each of the three campuses of the University will request a single registration as a laser installation, with each campus then to designate a single individual to gather information concerning those devices on each campus which incorporate lasers. Mr. Richard E. Haas, assistant professor of radiology, has been designated as the Medical Center Campus representative who will report to the Illinois Department of Public Health in accordance with the new law.

Mr. Haas is presently the secretary of the Sub-Committee.

Chancellor Begando also named two new members to the Subcommittee:

Dr. Alfred J. Perkins, professor of chemistry, who has familiarity with laser systems, and Raymond S. Stephens, safety officer.

Council on Urban Programs Created

Three members of the Medical Center Campus have been appointed to the University Council on Urban Programs by Executive Vice-President Lyle H. Lanier. These representatives are Dr. James W. Dow, professor of medicine and bioengineering, Dr. George E. Miller, director of the Office of Research in Medical Education, and Dr. Adrian M. Ostfeld, professor and head of the Department of Preventive Medicine and Community Health.

The Council, headed by Professor William L. Garrison, director of the Center for Urban Studies at Chicago Circle Campus, will advise the President of all matters of University-wide interest relating to urban problems and programs. It will assist in formulation and evaluation of general policies related to investigation of urban phenomena and the nature and extent of University involvement of development of operational solutions to major urban problems.

Union and Housing Division Reorganization Set for April

A reorganization of the Union and Housing Division will become effective April 1, 1968. At the same time the division will be renamed the Auxiliary Services Division, a title which encompasses the growing responsibilities of the unit.

The Division responsibilities will include the operation of the Chicago Illini Union; the Residence Halls, Staff Apartments and other housing facilities; Chicago Illini Union and Residence Hall Food Service; and Campus Vending. (It might also be noted that future responsibility for Campus Parking has been assigned to the Division; however, since this transfer would occur during the next fiscal year, specific plans relating to it are not included at this time.)

As a corollary change, a new internal administrative structure will be adopted. Responsibility for all daily, on-going operations will be transferred from the director to four administrative unit heads representing the four basic areas of Division functions; Union, Housing, Business Management, and Food Service. Commensurate authority will be transferred as well, thereby casting each unit as a semi-autonomous structure. With this transfer of operations, the Director will function increasingly in fiscal, policy-making, and coordinative roles, insuring that the operations of each unit are blended toward common objectives. The Director will also devote greater time to planning responsibilities and to external contacts with other University administrative officers, the Colleges and the departments of the Medical Center campus.

As part of the new grouping of Chicago Illini Union functions under one administrator, the responsibility for Chicago Illini Union programs (activities sponsored by the Union Board and Union Directorate), presently under the Director, will be placed under the Assistant Director, Mr. Robert B. Gruelle. Mr. Gruelle now has responsibility for all operations and physical facilities in the Union except Food Service. This grouping will lead to more effective total utilization of Chicago Illini Union resources (physical facilities, staff time, etc.) and should ultimately result in better programs and services for the University community.

The accounting and business functions of the Division have grown significiantly. As a result, Mr. R. Newton Pitts will be responsible for business affairs for the Division.

Titles and areas of responsibility of the key administrative officers of the Auxiliary Services Division are as follows:

Director of Auxiliary Services. . .Clarence C. Leverenz

Assistant Director of Auxiliary Services . . . Robert B. Gruelle: all areas of the Chicago Illini Union (except Food Service; Residence Hall Food Service; and Campus Vending.)

Housing Coordinator. . . . E. James Petty; Housing, including the Student Residence Hall, Women's Residence Hall, Staff Apartments, Nurses' Residence (Marshfield Avenue), and University-owned fraternity properties.

Food Service Manager . . . Gerald E. Herron (existing title—no change proposed): Chicago Illini Union Food Service; Residence Hall Food Service; and Campus Vending.

As stated above R. Newton Pitts will direct accounting operations for all Chicago Illini Union facilities, including the Illini Bookstore; accounting for Food Service and Housing units; and provide service as Treasurer of Campus Commissions (the Campus Vending Account).

Chancellor's Report on Topics of Current Interest

I General

WINTER QUARTER ENROLLMENT UP 6% FROM '67

A total of 2,568 students have registered for the winter quarter, 1968. This is a 6% gain compared to the same period last year. Figures from the Office of Admissions and Records indicate 1,961 men and 607 women are presently enrolled.

PARKING, TRAFFIC UNDER LOCAL AUTHORITY

The President of the University has delegated his authority to make parking and traffic regulations, persuant to Section 33 of The General Rules Concerning University Organization and Procedure, to the Chancellors of the campuses.

NAME CHANGE FOR CLEFT PALATE UNIT

The Cleft Palate Unit, formerly a subunit of the Center for Handicapped Children in the Research and Educational Hospitals, has been renamed the Center for Craniofacial Anomalies. The center will be reorganized to enhance its contribution to the teaching, research, and patient care services.

The Center will be administered primarily through the Office of the Dean of the College of Dentistry. However, the new Center will continue to be responsible for the clinical portion of its activities to the medical Director of the R & E Hospitals. Dr. Samuel Pruzansky, professor of Dentistry, will serve as director of the new Center.

CENTENNIAL EXHIBIT TO CONTINUE TOUR

Though the end of the University's Centennial Year has been reached, the popular traveling exhibit from the Medical Center Campus will continue to draw attention. During the month of March the eight panel color exhibit will be displayed in the Illini Union at the Urbana campus. In April the exhibit will return to the campus.

In past months the exhibit, produced by Illustration Studios, has been seen in the Prudential Building and the windows of the American National Bank in the Loop.

MEDICAL CENTER TV PROGRAMS RECEIVE MEDICAL SOCIETY TRIBUTE

The Illinois State Medical Society has named a Medical Center Campus TV production, "World of Healing," as the "Best Medical Series for 1967." The award was made to WICS (Channel 20) in Springfield, Illinois. The series was produced by Mr. Jack W. Righeimer, coordinator of public service programming, and featured a number of Medical Center Campus faculty members.

A second award, for "Best Medical Documentary for 1967," was given to WMAQ-TV in Chicago for the Medical Center Campus production "The Handicapped Child," This program was one of a series titled "Memorandum: These Children of Ours." The award-winning program featured Dr. Claude N. Lambert, professor of orthopedic surgery, Dr. Raymond J. Pellicore, assistant professor of orthopedic surgery, and Mrs. Sally J. Mier, occupational therapist.

II Personnel

O'BRIEN APPOINTED TO HOSPITALS POST

Charles M. O'Brien, Jr., has joined the R & E Hospitals as assistant administrator. He will be responsible for organizing and establishing a Medical Service Plan (see Campus Report #11). O'Brien received his MBA degree in hospital administration from the University of Chicago and served his graduate residency at Virginia Mason Hospital and Clinics, Seattle, Washington.

LOCKE ADMINISTRATOR OF RESEARCH LABS

Dr. Robert F. Locke has been named administrator of the Medical Research Laboratory by the University's Board of Trustees. For the past five years Dr. Locke has been chief of research in Laboratory Animal Medicine Science and Technology at the Veterans Administration Hospital, Hines, Illinois.

A native of Washington, D.C., Dr. Locke received his degree in Veterinary Medicine in 1942 from Texas A & M University, his MPH from University of Michigan, and his Ph.D. from the University of Illinois. He is a diplomate of the American College of Laboratory Animal Medicine.

III Grants and Gifts

RESEARCH AND TRAINING GRANTS TOTALING $442,834 ACCEPTED IN DECEMBER 1967

Research and training grants in the amount of $442,834 have been accepted by the Medical Center Campus for the period of December 1 to December 31, 1967.

The College of Medicine received $359,320, and the College of Dentistry received $83,515.

The United States Public Health Service is credited with 11 of the 12 grants totaling $442,915.

The largest single grant for the period is $144,006, awarded by Public Health Service to the Department of Preventive Medicine and Community Health to be used for a project entitled "The Epidemiology of Cerebrovascular Disease" under the supervision of Dr. Adrian M. Ostfeld.

Grants over $5,000 are listed below by college, department and name of investigator.

COLLEGE OF DENTISTRY

Oral Diagnosis

Dr. Bruce L. Douglas, $63,301, "The Impact of Water Fluoridation on Dental Practice", U.S. Public Health Service.

Histology

Dr. Arthur F. Grimm, $20,214, "The Growing or Enlarged Striated Musculature", U. S. Public Health Service.

COLLEGE OF MEDICINE

Anatomy

Dr. W. Ann Reynolds, $18,066, "Effects of Low Tempertures ,on Amphibian Metamorphosis", U. S. Public Health Service.

Biochemistry

Dr. Janos Molnar, $19,919, "Metabolism of Glycoproteins of Malignant Tissue", American Cancer Society.

Dr. Janos Molnar, $15,421, "Metabolism of Plasma Glycoproteins", U. S. Public Health Service.

Medicine

Dr. George G. Jackson, $49,380, "Viruses Causing Common Respiratory Infections", U. S. Public Health Service.

Dr. George G. Jackson, $32,820, "Bacterial Species and Host Response in Pyelonephritis", U. S. Public Health Service.

Dr. Jerome J. Hahn, $15,838, "Chemistry and Biology of C— and CX— Reactive Proteins", U. S. Public Health Service.

Dr. Robert W. Carton, $53,325, "Repeated Infections and Progress of Chronic Bronchitis", U. S. Public Health Service.

Physiology

Dr. Neena B. Schwartz, $8,889, "Environmental and Hormonal Interplay of Ovulation", U. S. Public Health Service.

Preventive Medicine and Community Health

Dr. Adrian M. Ostfeld, $144,006, "The Epidemiology of Cerebrovascular Disease", U. S. Public Health Service.

CAMPUS REPORT

from the Office of the Chancellor

University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
JUN 14 19

No. 16, May, 1968

COMMITTEES TO HELP CHART FUTURE OF MEDICAL EDUCATION

Acting as chairman of the University Council on the Health Sciences and Professions and with the Council's concurrence, Provost Lyle H. Lanier has appointed members to three committees that will formulate plans for specific areas of medical education. Proposals from these committees could be included in the 1969-71 biennial budget request.

The Intercampus Planning Committee for a New Medical Program will develop plans for the program in undergraduate medical education proposed in a report submitted to the Director of the Study of Education in the Health Fields of the Illinois Board of Higher Education on December 13, 1967. Drs. Nicholas J. Cotsonas, professor of medicine, and Reino E. Kalio, professor of Microbiology and director of the School of Life Sciences in Urbana, have been named as co-chairmen of the committee.

On February 15, 1968 the Council agreed that the following steps should be taken in preparation for budget requests:

1. The development of a tentative educational plan for School I as described in the report of December 13, 1967--with immediate reference to to the proposed first year of medical study at the Urbana-Champaign campus. Of particular importance would be the achievement of the fullest possible measure of integration between the proposed intensive first-year curriculum in the medical sciences and both the preceding premedical and the following clinical periods of study.

2. Provisional estimates of the new facilities needed at the Urbana-Champaign campus to house such a first-year program. The committee's recommendations would be submitted to the Provost as chairman of the Council on the Health Sciences and Professions. He would consult with the chancellors at the two campuses concerned, and, with their concurrence, would submit the proposals to the University Building Program Committee in time for review and possible inclusion in the University's biennial budget request for capital improvements during 1969-71.

3. If approved by the Board of Trustees, a detailed educational program and specifications of the facilities required for it would be developed during 1968-69. The outcome of this planning would be a formal program statement that could be presented to the Physical Plant Department not later than June 30, 1969 as a guide to architectural planning and later construction, in the event that the project was finally approved by the Board of Higher Education and funded by the General Assembly.

Committee members include Drs. Stephen B. Binkley, professor of Biological Chemistry; L. Leon Campbell, professor of Microbiology and head of the department, Urbana; Paul J. Sanazaro, clinical associate professor of Medicine; and Gregorio Weber, professor of Biochemistry, Urbana.

The second group formed was the Committee to Plan a Graduate School of Public Health, chaired by Dr. Mark H. Lepper, professor of Preventive Medicine and Community Health and executive vice president of Presbyterian-St. Luke's Hospital. This special committee will develop plans for the establishment of a graduate school of public health at the University of Illinois.

The Council agreed that the proposed Graduate School of Public Health would be organized initially at the Medical Center campus, but that the resources of the other two campuses would be involved as far as feasible in the conduct of the program. Professional education in the public health is heavily interdisciplinary in nature, and it would be preferable to have the instruction in supporting disciplines offered by the regular academic departments responsible for these fields. Such participation would become particularly important for the development of a doctoral program in public health.

Contingent upon the committee's recommendations, and barring unforeseen difficulties, the Council would probably recommend that funds be requested for the establishment of a Graduate School of Public Health. One of the committee's tasks will be to determine whether or not the necessary planning and staffing could be completed in time for instruction to begin in the second year of the next biennium. Approval by the Illinois Board of Higher Education would be necessary before such a

program could be initiated. The Board requires projections of programs and budget estimates for the first six years for all new proposals submitted.

The members of this committee are Drs. Bruce L. Douglas, professor of Oral Diagnosis, professor of Preventive Medicine and Community Health; William L. Garrison, director of the Center for Urban Studies, Chicago Circle; Virginia M. Ohlson, associate professor of Nursing; Adrian M. Ostfeld, head of the Department of Preventive Medicine and Community Health; Morell B. Russell, director of the Agricultural Experiment Station, Urbana; and Franklin D. Yoder, professor of Public Health and senior member of the Center for Zoonoses Research, Urbana, and director of the State of Illinois Department of Public Health.

The Committee on Graduate and Postgraduate Education for the Health Professions was formed with Dr. George E. Miller, director of the Office of Research in Medical Education, as chairman. The committee will work as a special task force under the aegis of the Council. The committee will develop plans for the expansion of the University's programs of graduate and postgraduate education for the health professions.

The immediate background for the committee's work is the report entitled *Proposals for the Expansion of Education in the Health Professions--1967-1980,* which was submitted by the University to the director of the Study of Education in the Health Fields. This report was compiled for the Board of Higher Education.

The report gave principal emphasis to the proposal to establish an *"Institute of Postdoctoral Medicine"* which would develop regional centers for graduate and postgraduate training in medicine. Aside from improving the quality of health care, a major purpose would be to expand opportunities for advanced training and to improve conditions for professional practice--with a view to increasing the number of physicians who remain in the State to practice medicine.

The committee is composed of Miss Cecelia Fennessy, assistant professor of Nursing; Mr. Hubert S. Carlin, director of the Hospital Pharmacy; and Drs. Charles R. Berg, associate professor of Operative Dentistry; Donald J. Caseley, medical director of R & E Hospitals; Jerome J. Hahn, assistant professor of Medicine; Olga M. Jonasson, assistant professor of Surgery; Melvin Sabshin, head of the Department of Psychiatry; Richard B. Shekelle, assistant professor of Preventive Medicine and Community Health; and Nat E. Smith, assistant dean of the College of Medicine.

GRADUATE EDUCATION REVIEWED, SEARCH FOR DEAN BEGUN

Chancellor Joseph S. Begando has named Dr. A. V. Wolf, professor and head of the Department of Physiology, as chairman of the *ad hoc* Committee on Graduate Education and Research. The committee has been asked to review and to report on the implications of the proposed reorganization for graduate education and research at the Medical Center campus.

On January 17, 1968, the Board of Trustees gave provisional approval to the revision of the statutory provisions relating to the administration of graduate education and research, deferring further action until the revision could be reported to the University Senates for their information and further advice. The proposed effective date of the statutory revisions is September 1, 1968.

The *ad hoc* committee will examine the future role of the Graduate College and explore and define the goals for graduate education and research. The members of this committee are Drs. Betty S. Bergerson, associate professor of Nursing; Harry F. Dowling, professor and head of the Department of Medicine; James E. Gearien, professor and head of the Department of Chemistry; Stanley J. Gerson, assistant professor of Oral Pathology; Edith K. MacRae, professor of Anatomy; Sabath F. Marotta, associate professor of Physiology; Bernard Salafsky, assistant professor of Pharmacology, College of Medicine; and Edward Titchener, associate professor of Biological Chemistry.

Because the proposed Statutory revisions would provide for a new administrative position at the Medical Center campus, a faculty Consultative Committee for the Deanship of the Medical Center Graduate College has been created. Dr. Stephen B. Binkley will serve as chairman of the committee composed of Drs. Maynard M. Cohen, professor and head of the Division of Neurology, Presbyterian-St. Luke's Hospital; James E. Gearien, professor and head of the Department of Chemistry; Roy Gillette, professor of Histology; Joan King, associate professor of Nursing; Everett W. Maynert, professor of Pharmacology, College of Medicine; S. R. M. Reynolds, professor and head of the Department of Anatomy, Neena Schwartz, professor of Physiology; and Malcom M. Stanley, professor of Medicine.

The Consultative Committee will establish the criteria for judging the qualifications of candidates and assemble a list of candidates for the deanship. The Committee's final report will be submitted at a conference with the President, the Provost and the Chancellor. The report would normally include two or three highly qualified candidates.

After the Committee submits its final recommendations, there will be a consultation with the members of the Executive Committee of the Graduate College in accordance with the University *Statutes.*

Board Approves Dietetics Curriculum

The Board of Trustees has approved the establishment of a curriculum in Medical Dietetics, within the School of Associated Medical Sciences, leading to the degree of Bachelor of Science in Medical Dietetics. Approval is subject to further action by the Board of Higher Education.

The proposed program, which emphasizes the biological and physical sciences and the application of nutritional principles, represents a relatively new approach to the field of dietetics in that it will integrate the knowledge learned in the classroom with its immediate application to the dietary needs of the patient.

Official Notice #21 Released

On April 1, 1968, the Office of the Chancellor released Official Notice #21, concerning the deposit of publications by State agencies. The following is the text of this notice:

I. The 75th Illinois General Assembly enacted into law H. B. 1972 which states that "all state agencies shall provide and deposit with the Illinois State Library sufficient copies of all publications issued by such state agencies for its collection and for exchange purposes." The Act took effect January 1, 1968.

II. "Publications" is interpreted as "any document, report, directory, bibliography, rule, regulation, newsletter, pamphlet, brochure, periodical or other printed material paid for in whole or in part by funds appropriated by the General Assembly or issued at the request of a state agency, excepting however, correspondence, inter-office memoranda, and confidential publications."

III. "Printed material" means "publications duplicated by any and all methods of duplication.

IV. The Secretary of State of the State of Illinois and State Librarian has promulgated "The State Library Act," Rule 12.18-4: State University Publications, "Within two weeks of their distribution one copy of all State university publications, priced and non-priced, excepting books published by the university presses, shall be deposited with the Documents Unit, Illinois State Library."

V. The Executive Vice President and Provost of the University of Illinois has designated the University of Illinois Press as the liaison representative between the University and the Documents Unit of the Illinois State Library. The Director of the University of Illinois Press will be responsible for submission of publications from the University of Illinois.

VI. At the Medical Center campus the Library of Medical Sciences has been designated by the Chancellor as the collection point for all publications to be forwarded to the Documents Unit of the Illinois State Library via the University of Illinois Press. The Director of the Library of Medical Sciences will be responsible for submission of Medical Center campus publications to the University of Illinois.

VII. Colleges and administrative units should submit two copies of their publications, as defined in points II and III of this notice, to the Director of the Library of Medical Sciences immediately upon distribution. One copy is to be retained by the Library. Each publication submitted for transmittal must be accompanied by three completed copies of the "Packing Sheet" which is available from the Library office. A carbon copy will be receipted and returned by the Documents Unit to the publishing unit.

VIII. All publications printed after January 1, 1968, are subject to this law. Any subject publications heretofore not transmitted to the Library of Medical Sciences should be submitted immediately.

CHANCELLOR'S REPORT ON TOPICS OF CURRENT INTEREST

I. General

DIVISION OF AUXILIARY SERVICES TO ADMINISTER PARKING PROGRAM

Effective July 1, 1968, the Medical Center campus parking program will be administered by the Division of Auxiliary Services headed by Mr. Clarence C. Leverenz. This reassignment of responsibility for the program will include both the administration of the current parking program and long-range planning for future parking facilities.

Existing guest parking facilities already have been expanded. In addition to lots A-1, B-2 and F-1, arrangements have been made to allow guest parking in lots D-3 and E-1 from 6 p.m. to midnight, Monday through Friday, and from 7:30 a.m. to midnight on Saturdays, Sundays, and holidays. The fee for use of these lots is 25¢ in and 25¢ out.

Persons assigned to lots D-3 and E-1 on an annual basis will continue to have access to their assigned lots at any time by use of their key cards. Lot D-3 is immediately south of the EDMP building and E-1 is entered from the 800 block of South Hermitage Avenue.

FOUNDER'S DAY PROGRAM OPENS UNIVERSITY'S SECOND CENTURY

A special Founder's Day Program was held at the Chicago Illini Union on Tuesday evening, April 2. The program was the first activity of its kind held on this campus and drew an audience of 400 people. President David D. Henry addressed the audience on the future and goals of the University in its second hundred years.

The program included the Medical Center campus documentary film "Educating the Dedicated." The varsity Men's Glee Club from Urbana concluded the evening's program, sponsored by the Illini Club of Chicago and the Alumni Association.

II. Personnel

CAMPUS DOCTOR TO SERVE ABOARD HOPE

Dr. Jo Ann M. Cornet, assistant professor of pediatrics and director of the Pediatric Clinic, is spending a two month tour of duty with the hospital ship, HOPE, in Ceylon. The objective of the ship HOPE is primarily one of teaching although medical treatment is offered to the people of the area visited.

CAMPUS MEMBERS NAMED TO UNIVERSITY COMMITTEE ON STUDENT AID

Three members of the Medical Center campus faculty have been named by the Provost to the University Committee on Financial Aid to Students, headed by Dr. E. Eugene Oliver, acting University Dean of Admissions and records. The campus representatives are Drs. Ernst R. Kirch, professor of Chemistry; Edith K. MacRae, professor of Anatomy; and Mary E. Reeves, Dean of Women.

ANATOMIST RECEIVES GUGGENHEIM FELLOWSHIP

Dr. Arthur LaVelle, professor of Anatomy, has received a fellowship from the John Simon Guggenheim Memorial Foundation. He is one of eight University of Illinois faculty to be so honored this year. Dr. Lavelle will study the effects of anti-brain serum on the nervous system of animals. The formal title is "Immunological Studies on the Developing Vertebrate Nervous System." He will work at the University of California at Los Angeles.

III. GRANTS, GIFTS

$812,818 IN RESEARCH AND TRAINING GRANTS

Research and training grants in the amount of $812,818 have been accepted by the Medical Center campus for the period of January 1 - February 29, 1968.

The College of Medicine received $692,189, the College of Dentistry received $114,229, and Student Affairs received $6,400.

The United States Public Health Service is credited with 20 of the 29 grants totaling $627,309.

The largest single grant for the period was $222,598 awarded by U. S. Public Health Service to Dr. William J. Grove, Dean of the College of Medicine, to be used for General Research Support.

Grants over $5,000 are listed below by college, department and name of investigator.

COLLEGE OF DENTISTRY

Dr. Seymour H. Yale, $81,153, General Research Support, U. S. Public Health Service.

Histology

Dr. Tawfik Y. Sabet, $12,000, "Development of a Subcellular System for Primary Antibody Synthesis", American Cancer Society, Illinois Division.

Orthodontics

Dr. Allan G. Brodie, $16,554, "Growth of the Jaws and Eruption of the Teeth," U. S. Public Health Service.

COLLEGE OF MEDICINE

Dr. William J. Grove, $222,598, General Research Support, U. S. Public Health Service.

Anatomy

Dr. Arthur LaVelle, $16,230, "Lipid and Nucleoprotein in Developing Nerve Cells," U. S. Public Health Service.

Biochemistry

Dr. Clarence A. Johnson, $5,780, "Studies on Non-heme Components of Human Erythrocytes", U. S. Public Health Service.

Dr. Ralph H. Kathan $14,613, "Structure Studies of Viral Hemagglutination Inhibitors," U. S. Public Health Service.

Dr. Joseph J. Samachson, $15,911, "The Surface Chemistry of Bone, Dentin, and Enamel," U. S. Public Health Service.

Medicine

Dr. Harry F. Dowling, $9,000, "Work of an investigative nature in infectious diseases and related fields," Lederle Laboratories Division of American Cyanamid Co.

Dr. Edsel K. Hudson, $9,518, "Prevention of Hepatitis after Cardiovascular Surgery," U. S. Public Health Service.

Dr. Max Samter, $5,000, "Hypersensitivity to Drugs", Sandoz Pharmaceuticals, Hanover, New Jersey.

Microbiology

Dr. John E. Kempf, $10,000, "Isolation of Myxovirus RNA", American Cancer Society, Illinois Division.

Pediatrics

Dr. Irving Schulman, $30,947, "Longevity and Significance of Coagulation Factors", U. S. Public Health Service.

Dr. Irving Schulman, $36,781, "Hemorrhagic Disease in Infants and Children", U. S. Public Health Service.

Pharmacology

Dr. Everett W. Maynert, $33,301, "Metabolic Fate of Neuropharmacological Agents", U. S. Public Health Service.

Psychiatry

Dr. M. Rue Bucher, $45,241, "Mechanisms of Professional Socialization", U. S. Public Health Service.

Dr. Arthur Kling, $113,065, "Primate Breeding Facility", U. S. Public Health Service.

Preventive Medicine and Community Health

Dr. Edward A. Lichter, $21,426, "Cross-Reacting Iso- and Netero-Antibodies in Primates", U. S. Public Health Service.

Research in Medical Education

Dr. George E. Miller, $71,000, "Computer Simulation of Clinical Encounters", U. S. Public Health Service.

Surgery

Dr. William Schumer, $18,372, "Study of the Vasodilator Protective Mechanism in Shock", U. S. Public Health Service.

STUDENT AFFAIRS

Dean Mary E. Reeves, $6,400, "Opportunity Grants for Nursing Education", U. S. Public Service.

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
AUG 13 1968
UNIVERSITY OF ILLINOIS

No. 17, August, 1968

DR. PORTER ADDRESSES SERVICE RECOGNITION BANQUET

The following remarks were made by Dr. Earl W. Porter, secretary of the University of Illinois and secretary of the Board of Trustees, at the annual Service Recognition program held at the Chicago Illini Union, May 7, 1968:

Briefly, but pointedly, I should like simply to convey the sense of institutional obligation that the University of Illinois feels to those of you who have given so much of your lives to her--and to speak for a moment of institutions and men and women who serve them.

The curious and complex associations between institutions and people are much in our minds today as so much drama and disorder centers about all of our institutions, political, economic, religious or educational. By nature, our institutions long have served both as mirrors and generators of change, and those roles are not new. (Sometimes we may forget that they must change, at their own pace, if they are to survive.) Yet, to those whose duties require that we try to find perspective across an entire institution, there are new and troubling concerns. In the present period it seems that change, and the demand for change, may be racing ahead of our capacity to digest it, to make a place for it. There is an uneasy feeling that the old rules for change, at least within an educational institution, are in danger--and that those who insist that we ignore old principles are not prepared to help us develop new ones in their place.

In the midst of the clamor and the tension we may forget the paradox of institutions, on the one hand how fragile they are, how easily scarred--and on the other hand, in spite of all that men may do to them, how stubbornly they endure. Somewhere in the contradiction is a balance that one searches to achieve.

Beneath this rumination is the conviction that as civilized men we are utterly dependent upon our institutions. They did not appear full-blown before us, but are man-made. If they are important, usually they have remote origins, reflecting their fundamental utility to men from antiquity. Even as they evolve, somewhat as man has evolved, we find ourselves unable to think of appropriate substitutes for them if we are to continue to build a better civilization.

Thus, we can become quite personal, even sentimental about institutions--especially those that we serve directly. As we come to know them well, for us they develop a kind of corporate personality. We become familiar with their eccentricities, their style of life, their weaknesses and bad habits. As the social psychologist might say, we identify with them because we find something of ourselves in the institutional personality.

Tonight especially, the sense of personal ties with this institution is strong and moving. We reflect on long years of effort by individual people. Over the years each of the daily routines of these people has been different; each has seen the institution from a unique point of view. It is a very intimate set of memories, and one does not intrude upon it lightly.

Yet, it is the total institutional service--some nearing a close; some in mid-stream--that in the end is the University of Illinois at the Medical Center. In spite of all the solemn analysis one might make of institutional history, it has no significance unrelated to the people who have made that history.

It is my privilege to say to some of those people tonight that the University is stronger because of you and forever grateful to you. We thank you.

Senate Elects Three Members To Faculty Advisory Committee

The Faculty Senate has elected three new members to the Faculty Advisory Committee. Elected to a three-year term are Dr. James E. Gearien, head of the Department of Chemistry, College of Pharmacy; Miss Rose Ann Grundman, assistant professor of mathematics, College of Pharmacy; and Dean Mary K. Mullane, College of Nursing.

University of Illinois Statutes, Section 6 (m) says in part: "The academic staff...at each campus shall also elect a Faculty Advisory Committee of nine members of such academic staff, three of whom shall be elected each year for three-year terms. No more than two members, or in the case of the Medical Center no more than three, from any one college, school, institute, division, or other administrative unit of the University, shall serve on the Committee at the same time....The Committee shall make such annual reports to the President, the Senate, and the faculty as it deems appropriate.

"The functions of the Committee shall be to provide for the orderly voicing of suggestions for the good of the University, for affording added recourse for the consideration of grievances, and for furnishing a channel for direct and concerted communication with administrative officers of the University, its colleges, schools, institutes, divisions, and other administrative units on matters of interest or concern to the academic staff or any member of it...."

The other members of the Committee are:

Name	College	Term Expires
Nicholas J. Cotsonas	Medicine	1969
Theodore R. Sherrod	Medicine	1969
Adrian M. Ostfeld	Medicine	1969
James A. Yaeger	Dentistry	1970

Chancellor's Report on Topics of Current Interest

I. General

549 GRADUATES AT JUNE COMMENCEMENT

Diplomas were awarded to 549 graduates of the Medical Center campus at the June 7 commencement ceremonies at Medinah Temple. The graduates included 184 from the College of Medicine, 95 from the College of Pharmacy, 82 from the College of Dentistry, 82 from the Graduate College, 62 from the College of Nursing, and 44 from the School of Associated Medical Sciences.

Dr. William H. Stewart, surgeon general of the United States Public Health Service, delivered the commencement address and was awarded an honorary degree of Doctor of Science. Dr. Stewart's address will be reprinted and available to members of the faculty later this year.

CAMPUS REPRESENTATIVES NAMED

President Henry, acting on the recommendation of the Executive Vice President and Provost and the Chancellor, has named the Medical Center campus representatives to the Joint Committee on School, Junior College and University Relations for the year 1968-69. The campus members are Dean Mary K. Mullane, College of Nursing, Drs. Anthony J. Diekema, director of the Office of Admissions and Records, and Donald A. Wallace, professor of dental radiology. The committee will be chaired by E. Eugene Oliver, director of the University Office of School and College Relations.

"CONSULTATION" RECEIVES RECOGNITION

"Consultation," the Medical Center campus TV series seen Sundays on WCIU-TV, Channel 26, at 4:30 p.m., and WBKB-TV, Channel 7, at 7:30 a.m., received a special TV award from the Welfare Public Relations Forum of Chicago. This 1968 Helen Cody Baker Award was given to the Medical Center campus in recognition of an outstanding contribution toward a better understanding of the medical and social welfare services in metropolitan Chicago. "Consultation" is hosted by Mr. Jack W. Righeimer, coordinator of radio-TV programming.

II Personnel

KELLY APPOINTED AS DEAN OF MEN

Mr. Bruce B. Kelly, former assistant to the dean of students at the Urbana campus, has assumed his post as Dean of Men for the Medical Center campus. Kelly (Ed. M., Psychology, '65; Ed. D., Psychology, '68; University of Illinois) began his new duties July 1, 1968.

He has been named by E. Eugene Oliver, director of the University Office of School and College Relations, as the Medical Center campus representative to two subcommittees. The first subcommittee, chaired by Bernard L. Meyerson, director of Foreign Student Affairs Urbana, will study the relative need of Foreign Student Tuition Waiver Scholarships and Grants on each campus.

The second subcommittee, chaired by Anthony M. Engels, assistant to the dean of students, will determine the availability of loan funds which could be allocated among the campuses and prepare a report and recommendations for consideration by the University Committee on Financial Aid to Students at their fall meeting.

PEDODONTISTS WILL LECTURE IN BRAZIL

Drs. Thomas K. Barber, head of the Department of Pedodontics, and Donald E. Ore, assistant professor of pedodontics, have been awarded grants by the State Department's Board of Foreign Scholarships. Both men will lecture at a seminar at the Faculdade de Odontologia de Pernambuco in Recife, Brazil. The award is made available under the Fulbright-Hays Act which proposes to "increase mutual understanding between the people of the United States and the people of other countries by means of educational and cultural exchange."

III Grants and Gifts

RESEARCH AND TRAINING GRANTS TOTALING $839,656 ACCEPTED IN MARCH, APRIL, AND MAY, 1968

Research and training grants in the amount of $839,656 have been accepted by the Medical Center campus for the period of March 1 - May 31, 1968.

The College of Dentistry received $124,930, the Library of Medical Sciences received $40,977, the College of Medicine received $660,656, the College of Pharmacy received $10,093.

The largest single grant for the period is $81,781, awarded by the Department of Health, Education and Welfare, Children's Bureau to the Department of Psychiatry to be used for a project

entitled "A Multi-Dimensional Study of Handicapped Children," under the supervision of Dr. Audrey L. Ruess.

Grants over $5,000 are listed below by college, department and name of investigator.

ADMINISTRATION

Library of Medical Sciences

Miss Wilma Troxel, $40,977, "Medical Library Resource Grant Support", Public Health Service.

COLLEGE OF DENTISTRY

Administration

Dr. Maury Massler, $24,163, "Replantation of Teeth", Public Health Service.

Oral Diagnosis

Dr. Herman Medak, $77,940, "Community Cancer Demonstration Project for Early Detection of Oral Cancer", Public Health Service.

Oral Pathology

Dr. Stanley J. Gerson, $22,827, "Oral Unkeratinized Epithelium Histochemical Studies", Public Health Service.

COLLEGE OF MEDICINE

Anatomy

Dr. Pierson J. VanAlten, $25,789, "Ontogeny of Adaptive Immunity in the Chicken", Public Health Service.

Biochemistry

Dr. Stephen B. Binkley, $12,513, "Study of Analogues of Pyrimidines", Public Health Service.

Dr. Mary S. Hanlon, $16,860, "Interaction of Nucleic Acids and Related Models", Public Health Service.

Dr. Paul Kohn, $44,009, "Potential Anti-Cancer Agents", Public Health Service.

Dr. T. C. Meyers, $20,263, "Phosphate Reaction Mechanisms of Biochemical Interest", Public Health Service.

Medicine

Dr. Nicolas V. Costea, $13,873, "Cold Agglutinin Production and Inhibition in Rabbits", Public Health Service.

Dr. George G. Jackson, $10,000, "Research Competency in Virology", Warner-Lambert Research Institute.

Otolaryngology

Dr. Shirley J. Heinze, $9,373, "Auditory to Vibratory Experience Translation", Department of Health, Education and Welfare, Children's Bureau.

Pathology

Dr. Kurt Stern, $15,848, "Isosensitization Caused by Pregnancy or Transfusion", Public Health Service.

Dr. Roger D. Smith, $20,582, "Pathology of Combined Viral-Chemical Carcinogenesis", Public Health Service.

Pediatrics

Dr. Marvin Cornblath, $17,740, "Carbohydrate Metabolism in Erythrocytes in Newborns", Public Health Service.

Dr. Ira M. Rosenthal, $23,112, "Catecholamine Metabolism in Neuroblastoma", Public Health Service.

Pharmacology

Dr. Martin P. Schulman, $37,990, "Metabolism of Aliphatic Alcohols", Public Health Service.

Preventive Medicine

Dr. Mark H. Lepper, $38,139, "Epidemiology of Gram Negative Rods in Hospitals", Public Health Service.

Psychiatry

Dr. Arthur Kling, $54,086, "Neurochemical Correlates of Early Brain Damage and Alterations in Early Experience", State of Illinois Department of Mental Health.

Dr. Audrey L. Ruess, $81,781, "A Multi-Dimensional Study of Handicapped Children", Department of Health, Education and Welfare, Children's Bureau.

Physiology

Dr. Neena B. Schwartz, $54,987, "Environmental and Hormonal Interplay of Ovulation", Public Health Service.

School of Associated Medical Sciences

Dr. Charles E. Richards, $56,444, "Health Professions Educational Improvement Program", Public Health Service.

Surgery

Dr. Robert J. Jensik, $14,722, "Lung Cancer Preoperative Radiation Therapy Study", Public Health Service.

Dr. John C. Kukral, $32,730, "The Role of the Liver in Plasma Protein Metabolism", Public Health Service.

COLLEGE OF PHARMACY

Chemistry

Dr. A. von Smolinski, $9,993, "Analytical Studies in Air Pollution", Public Health Service.

Labor Day (Holiday)	Monday	September 1
Examination Period		September 2-5
Quarter Ends	Saturday	September 6

Dr. Novak Appointed Acting Dean

Dr. Milan V. Novak has been appointed Acting Dean of the Medical Center campus Graduate College. The appointment became effective September 1, 1968.

At its meeting on July 24, the Board of Trustees gave final approval to the proposal for the reorganization of the administration of graduate education and research. (See Faculty Letter, No. 162). The reorganization became effective on September 1, 1968.

The faculty Consultative Committee appointed by the Chancellor to recommend candidates for the Graduate College deanship had not completed its work at the time of the reorganization.

Committee to Search for New Dean of Pharmacy

Dean George L. Webster will retire from the deanship of the College of Pharmacy on August 31, 1969. According to University custom, the search for suitable candidates for the deanship will be conducted by a special consultative committee, appointed by the Chancellor with the concurrence of the President.

Dr. Charles L. Bell, associate professor of chemistry, will serve as chairman of the search committee. The members of the committee are: Mr. Herbert S. Carlin, associate professor and director of the hospital pharmacy; Drs. Donald J. Caseley, medical director of the R & E Hospitals; Frank A. Crane, associate professor of pharmacology; Dean B. Doner, dean of the College of LAS, Chicago Circle campus; Ernst B. Kirch, professor of chemistry; Ralph W. Morris, associate professor of pharmacology; Mary K. Mullane, dean of the College of Nursing; and Daniel A. Nona, assistant professor of pharmacy.

After the committee submits its final recommendations, the Chancellor will consult with the members of the Executive Committee of the College of Pharmacy in accordance with the University *Statutes*.

Sabbatical Leaves Granted by Board of Trustees, 1968-69

The following faculty members have been granted sabbatical leaves by action of the Board of Trustees:

Name	Title	Effective Date
Abildgaard, Charles F.	Associate Professor of Pediatrics	July 1, 1968
Cartwright, Rosalind D.	Professor of Psychology	April 1, 1968
Catchpole, Hubert R.	Research Professor of Pathology	September 15, 1968
Gillette, Roy James	Professor of History	September 1, 1968
Jackson, George G.	Professor of Medicine	September 1, 1968
Kathan, Ralph H.	Assistant Professor of Biological Chemistry	January 6, 1969
La Velle, Arthur	Professor of Anatomy	September 1, 1968
Leroy, Elie P.	Professor of Pathology	September 15, 1968
Novak, Milan V.	Professor of Microbiology Associate Dean of the Graduate College	January 1, 1969
Perkins, Alfred J.	Professor of Chemistry	September 30, 1968
Potter, Brian	Associate Professor of Dermatology	January 1, 1969
Salafsky, Bernard P.	Assistant Professor of Pharmacology	September 30, 1968
Schulman, Martin P.	Professor of Pharmacology	September 1, 1968

Chancellor's Report on Topics of Current Interest

I General

R & E HOSPITALS PLAN EXPANDED TRANSPLANT PROGRAM

Dr. Lloyd M. Nyhus, head of the Department of Surgery, College of Medicine, is directing an expansion of the organ transplant program at the R & E Hospitals. Plans are underway for improved facilities for the pre- and post- operative care of patients receiving transplanted organs, including the kidney, liver and heart. The transplant program is interdisciplinary with participation of the Departments of Medicine, Preventive Medicine, Microbiology, and Pediatrics as well as the Department of Surgery.

II Personnel

TURNBULL APPOINTED ASSOCIATE DIRECTOR

Ronald T. Turnbull has been appointed associate director of Hospital Pharmacy Services at the R & E Hospitals, and assistant professor in the College of Pharmacy. He had been assistant director of the Pharmacy Central Supply Department for the University of Kentucky Medical Center, Lexington, Kentucky.

DR. LASKIN ELECTED TO OFFICE

Dr. Daniel M. Laskin, professor and associate

head of the Department of Oral and Maxillofacial Surgery, College of Dentistry, has been elected president of the Illinois Society of Oral Surgeons for the 1968-69 year. Currently, Dr. Laskin is president of the Chicago Society of Oral Surgeons.

III Grants and Gifts

RESEARCH AND TRAINING GRANTS TOTALING $3,575,524, ACCEPTED IN JUNE AND JULY, 1968.

Research and training grants in the amount of $3,575,524 have been accepted by the Medical Center campus for the period of June 1 - July 31, 1968.

The College of Medicine received $2,542,125, Administration received $409,027, the College of Dentistry received $387,149, the College of Nursing received $215,146, the College of Pharmacy received $21,477.

The United States Public Health Service is credited with 59 of the 76 grants totaling $3,411,745.

The largest single grant for the period is $416,500, awarded by the United States Public Health Service to the College of Medicine to be used for a project entitled "Health Professions Educational Improvement Program," under the supervision of Dr. William J. Grove, Dean of the College of Medicine.

Grants over $5,000 are listed below by college, department and name of investigator.

ADMINISTRATION

Student Affairs

Dean Mary E. Reeves, $98,616, "Health Professions Scholarship Program in Dentistry," Public Health Service.

Dean Mary E. Reeves, $206,843, "Health Professions Scholarship Program in Medicine," Public Health Service.

Dean Mary E. Reeves, $100,400, "Health Professions Scholarship Program in Pharmacy," Public Health Service.

COLLEGE OF DENTISTRY

Administration

Dr. Samuel Pruzansky, $10,305, "Post-doctoral Fellowship for Dr. Milan D. Markovic," Public Health Service.

Dean Seymour H. Yale, $208,000, "Health Professions Educational Improvement Program," Public Health Service.

Dental Clinics

Dr. John M. Spence, $54,000, "Dental Auxiliary Utilization Training," Public Health Service.

Histology

Dr. Arthur F. Grimm, $14,440, "Growth and Function of the Oral Striated Musculature," Public Health Service.

Dr. James A. Yaeger, $34,601, "Histology-Anatomy Biophysical Histology and Embryology," Public Health Service.

Oral Pathology

Dr. Stanley J. Gerson, $20,507, "Quantitative Histochemistry of Keratinizing Mucosa," Public Health Service.

Dr. John P. Waterhouse, $45,296, "Histophysiology, Histochemistry, Experimental Pathology," Public Health Service.

COLLEGE OF MEDICINE

Administration

Dean William J. Grove, $416,500, "Health-Professions Educational Improvement Program," Public Health Service.

Anatomy

Dr. Samuel R. Reynolds, $30,608, "Anatomical Training - Multidisciplinary," Public Health Service.

Biochemistry

Dr. Paul Kohn, $81,360, "Biochemistry," Public Health Service.

Dr. Paul Kohn, $14,481, "Intestinal Absorption of Carbohydrates," Public Health Service.

Dr. Janos Molnar, $27,944, "Metabolism of Glycoproteins," Public Health Service.

Dr. Edward B. Titchener, $6,600, "Predoc-

toral Fellowship for Mr. Charles L. Harris," Public Health Service.

Medicine

Dr. Nicholas J. Cotsonas, $5,500, "Improvement of Educational Environment for Students," National Fund for Medical Education.

Dr. Harry F. Dowling, $96,170, "Virology and Rickettsiology," Public Health Service.

Dr. Clarence L. Gantt, $12,000, "Continuation of Support on the Studies of Clinical Pharmacology of Diuretic Agents," G. D Searle & Company.

Dr. Clarence L. Gantt, $6,365, "Non-Aldosterone Renal Sodium Retaining Mechanisms," Public Health Service.

Dr. Theodore B. Schwartz, $61,937, "Training in Endocrinology and Metabolism," Public Health Service.

Microbiology

Dr. Sheldon Dray, $37,437, "Allergy and Immunology," Public Health Service.

Dr. Sheldon Dray, $40,860, "Cellular Mechanisms in Delayed Hypersensitivity," Public Health Service.

Dr. Riaz-UI Haque, $38,487, "Extracellular Enzymes and Toxins of S Aureus," Public Health Service.

Dr. David H. Lavrin, $39,446, "Virus-Associated Mammary Tumorigenesis in C3H/ZB Mice," Public Health Service.

Dr. Alfred Nisonoff, $29,951, Investigation of Chemical Properties of Antibodies," Public Health Service.

Ophtholmology

Dr. Peter C. Kronfeld, $30,803, "Ophthalmology," Public Health Service.

Orthopedic Surgery

Dr. Jorge Galante, $64,986, "Total Prosthetic Replacement of the Human Hip Joint," Public Health Service.

Otoloryngology

Dr. Albert H. Andrews, $113,569, "Otolaryngology" Public Health Service.

Pothology

Dr. Hubert Catchpole, $38,911, "Hormonal Mobilization of Connective Tissue Components," Public Health Service.

Dr. Elie P. Leroy, $6,698, "Pulmonary Reactions to Inhaled Terpenoids," Tuberculosis Institute of Chicago and Cook County.

Dr. Martin A. Swerdlow, $43,486, "Clinical Cancer Training - Medical," Public Health Service.

Pediotrics

Dr. Charles F. Abildgaard, $9,389, "The Relationship of Antihemophilic Factor Levels to Intravascular Clotting," Chicago and Illinois Heart Associations.

Dr. Samuel P. Gotoff, $17,909, "Studies of the Beta 1c Globulin in Glomerulonephritis," Public Health Service.

Dr. Alois R. Hastreiter, $10,996, "Correlated Analysis of the Orthogonal Vectorcardiogram in Children," Chicago Heart Association.

Dr. Eugene W. Isaacs, $21,004, "Studies on the Mechanism of Compensatory Renal Growth," Public Health Service.

Dr. Irving Schulman, $59,107, "Training Grant in Pediatric Hematology," Public Health Service.

Phormacology

Dr. Edmund G. Anderson, $35,905, "Neuropharmacology," Public Health Service.

Dr. Harold Feinberg, $11,000, "Force Velocity Studies in the Intact Heart," Chicago and Illinois Heart Associations.

Dr. Thaddeus Marczynski, $16,028, "Neurohumoral Supraspinal Control of Motor Systems," Public Health Service.

Dr. Everett W. Maynert, $34,639, "Nerve-Ending Particles and Synaptic Vessels," Public Health Service.

Dr. Bernard P. Salafsky, $26,134, "Extent of Neuronal Control on Skeletal Muscle," Public Health Service.

Dr. Martin P. Schulman, $91,491, "Pharmacology," Public Health Service.

Dr. Klaus R. Unna, $133,095, "Biological Sciences (Research Training)," Public Health Service.

Physiology

Dr. Lawrence Stark, $79,224, "Biomedical Engineering," Public Health Service.

Dr. William V. Whitehorn, $16,354, "Endocrine Factors in Myocardial Function," Public Health Service.

Dr. Arnold V. Wolf, $41,084, "Physiology," Public Health Service.

Psychiatry

Dr. Alvin G. Burstein, $35,316, "Clinical Psychology," Public Health Service.

Dr. Edward H. Futterman, $50,000, "Providing Services to Mentally Ill and Mentally Retarded Persons Residing in Illinois," State of Illinois Department of Mental Health.

Dr. Nahman H. Greenberg, $26,364, "Developmental Psychophysiology of Infancy," Public Health Service.

Dr. Ernest A. Haggard, $39,915, "Psychiatry (Research Training)," Public Health Service.

Dr. Arthur Kling, $5,939, "Behavioral Changes Following Amygdalectomy in the Free Ranging Vervet," Foundations' Fund for Research in Psychiatry.

Dr. Arthur Kling, $62,082, "Experimental CNS Lesions and Psychosomatic Maturation," Public Health Service.

Dr. Melvin Sabshin, $142,153, "Psychiatry-Basic Residency," Public Health Service.

Dr. Melvin Sabshin, $25,920, "Psychiatry-(GP Residency Training," Public Health Service.

Dr. Melvin Sabshin, $45,368, "Psychiatry-Undergraduate," Public Health Service.

Research in Medical Education

Dr. George E. Miller, $111,082, "The Efficient Use of Medical Manpower," Public Health Service.

Surgery

Dr. Elliot G. Goldin, $10,000, "Tissue Factors in Hematogenous Metastases," American Cancer Society, Illinois Division.

Dr. Olga Jonasson, $10,957, "Studies of Heterologous Antilymphocyte Serum," Chicago Heart Association.

Dr. John C. Kukral, $43,495, "Metabolism of Plasma Protein Fractions After Injury," Public Health Service.

Dr. Gerald O. McDonald, $39,828, "The Effect of Drugs Upon DNA Synthesis," Public Health Service.

Dr. Lloyd M. Nyhus, $6,500, "Editorial Expenses of Journal, *Review of Surgery*," Lippincott Company, Philadelphia, Pennsylvania.

Dr. Lloyd M. Nyhus, $8,000, "Isolated Perfused Bovine Liver," Ayerst Laboratories.

Dr. Morton Shulman, $5,000, "Study of Beta-Blocking Agents," Astra Pharmaceutical Products Incorporated.

COLLEGE OF NURSING

Administration

Dr. Vernita Kay, $149,809, "Psychiatric Nursing," Public Health Service.

Dr. Vernita Kay, $44,464, "Psychiatric Nursing (Undergraduate)," Public Health Service.

Dr. Joan M. King, $20,873, "Special Project-Workshop on Clinical Nursing Practice in Psychiatry Setting," Public Health Service.

COLLEGE OF PHARMACY

Pharmacy

Dr. Martin I. Blake, $16,577, "Studies with Fully Deuteriated Antibiotics," Public Health Service.

SCHOOL OF ASSOCIATED MEDICAL SCIENCES

Administration

Dr. Charles E. Richards, $11,028, "Allied Health Professions Advanced Traineeships," Public Health Service.

CAMPUS REPORT

from the Office of the Choncellor

University of Illinois ot the Medical Center, Chicogo

UNIVERSITY OF ILLINOIS

No.19, January, 1969

Chancellor Announces Campus Committee Appointments

The following committee appointments have been made by the Chancellor effective as of September 1, 1968.

The committee chairmen are indicated by an asterisk(*).

ADVISORY COUNCIL TO THE CHANCELLOR

Dr. Ludwig Bauer
Mr. David W. Bonham
Dr. Donald J. Caseley
Dr. Marvin J. Colbert
Dr. Anthony J. Diekema
Dr. Samson S. Flores
Dr. William J. Grove
Mr. Frank E. Hostettler
Mr. Clarence C. Leverenz
Mr. Max I. Light
Dr. Edward F. Lis
Mr. George F. Mc Gregor
Dr. Mary K. Mullane
Dr. Milan V. Novak
Mr. Albert J. Perkins
Dr. Mary E. Reeves
Dr. Charles E. Richards
Dr. Malcolm M. Stanley
Miss Wilma Troxel
Dr. Seymour H. Yale

COMMITTEE ON ACADEMIC PROMOTIONS

Dr. Irving Schulman*
Dr. Betty S. Bergerson
Dr. Martin I. Blake
Dr. Robert W. Carton
Dr. Ralph Daniels
Dr. Verda E. James
Dr. Charles G. Maurice
Dr. Martin Swerdlow
Dr. A. V. Wolf

COMMITTEE ON ARRANGEMENTS FOR SPECIAL EVENTS

Dr. Mary E. Reeves
Mr. Harry G. Higgins
Dr. Verda E. James
Miss Ilene Langdon
Dr. Leon J. LeBeau
Dr. Clarence C. Leverenz*
Dr. Terrell C. Myers
Dr. John M. Spence
Miss Beatrice D. Wade

COMMITTEE ON ARTICULATION

Miss Florence E. Sherbon*
Dr. Thomas K. Barber
Dr. Conrad A. Blomquist
Dr. Lawrence Fisher
Mr. Gerald R. Glaub
Dr. Donald L. McElroy
Dr. Mary E. Reeves
Dr. Nat E. Smith
Mr. Deane R. Doolen

COMMITTEE OF ASSOCIATES

Dr. Rolf M. Gunnar*
Dr. Andrea U. Bircher
Dr. Ralph Daniels
Dr. Hartman H. Friederici
Dr. Verda E. James
Dr. Arthur Kling
Dr. David M. Long
Dr. Robert A. Miller
Dr. Neena Schwartz
Dr. Theodore R. Sherrod

CAMPUS CHEST COMMITTEE

Dr. John E. Kempf*
Mr. Ward L. Walhay*
Mr. Frank N. Brockway
Miss Patricia A. Denton
Miss Rose Ann Grundman
Mr. Harry G. Higgins
Mr. Bruce B. Kelly
Miss Lillian G. Oertel
Dr. Donald E. Ore

CAMPUS PLANNING COMMITTEE

Dr. Donald J. Caseley*
Miss Edna L. Anderson
Dr. Thomas K. Barber
Dr. Charles L. Bell
Mr. David W. Bonham
Mr. Jesse C. Caraway
Dr. William J. Grove
Mr. Frank E. Hostettler
Dr. John P. Marbarger
Dr. Mary K. Mullane
Mr. James F. Pfister
Miss Wilma Troxel
Dr. George L. Webster
Dr. Seymour H. Yale

CHICAGO ILLINI UNION BOARD

Mr. Denis D. Anderson
Mrs. Ardys M. Dunn
Mr. Richard F. Graham
Mr. William R. Magruder
Mr. Steven D. Miller
Mr. Dale N. Schumacher
Miss Elizabeth Snodgrass
Dr. Nicholas J. Cotsonas
Dr. Anthony J. Diekema
Mr. Robert B. Gruelle
Mr. Clarence C. Leverenz
Miss Florence E. Sherbon
Mr. Barry Zelikovsky

COMMITTEE ON COMMENCEMENT

Dr. John P. Marbarger*
Dr. Donald J. Caseley
Miss Velma Davis
Dr. Anthony J. Diekema
Dr. James E. Gearien
Mr. Frank W. Houck
Dr. Raymond C. Ingraham
Mr. Max I. Light

President Henry Appoints 1968-69 Campus Representatives

On the recommendation of the Chancellor and the Executive Vice President and Provost, President Henry has appointed the following committee representatives from this campus for 1968-69.

University Committee on Administrative Data Processing
Dr. John P. Marbarger

University Committee on Admissions
Drs. Anthony J. Diekema, Donald A. Wallace

University Committee on Alumni Affairs
Dr. William J. Grove

Architectural and Engineering Service Advisory Committee
Dr. Seymour H. Yale

University Committee on Art Objects
Mr. A. Hooker Goodwin

University Budget Committee
Drs. Joseph S. Begando, William J. Grove

University Building Program Committee
Drs. Joseph S. Begando, John P. Marbarger

University Committee on Copyrights and Recordings
Dr. A. V. Wolf

Editorial Board of Review
Drs. Donald M. Martin, Nat E. Smith

University Council on Extension and Public Service
Dr. Donald J. Caseley
University Council on Federal Relations
Drs. Joseph S. Begando, Milan V. Novak
University Committee on Fees
Dr. Joseph S. Begando
University Committee on Financial Aid to Students
Drs. Ernst R. Kirch, Edith K. Mac Rae
Mr. B. A. Kelly
University Council on Graduate Education and Research
Drs. Milan V. Novak, A. V. Wolf
University Committee on Human Relations and Equal Opportunity
Drs. Anthony J. Diekema, Edsel K. Hudson
Henry Jeffay
University Committee on Institutional Data
Mr. David W. Bonham, Dr. Anthony J. Diekema
University Council on International Education
Drs. James C. Plagge, William V. Whitehorn
University Committee on Legislative Relations
Dr. Donald J. Caseley
University Council on Libraries
Miss Lillian Oertel, Miss Wilma Troxel
University Nonacademic Personnel Advisory Committee
Dr. Conrad A. Blomquist
University Council on School and College Relations
Drs. Anthony J. Diekema, Donald A. Wallace
Miss Florence E. Sherbon
University of Illinois members of the Joint Committee on School, Junior College and University Relations
Drs. Anthony J. Diekema, Donald A. Wallace
Mary K. Mullane
Senate Coordinating Council
Miss Edna L. Anderson, Drs. Conrad A. Blomquist
Irving Schulman
Administrative Committee for the Survey Research Laboratory
Dr. Milan V. Novak
Council on University Relations in Chicago
Dr. Joseph S. Begando
Advisory Committee to the Board of Trustees of the University Retirement System of Illinois
Dr. John M. Spence (term ends 12/31/68)
Mr. Herbert Hanert (term ends 12/31/71)
University Council for Urban Programs
Drs. Edward A. Lichter, George E. Miller
University Press Board
Dr. A. V. Wolf

Reorganization of Statistical Service Unit Approved

Reorganization of the Statistical Service Unit to adapt to changes in administrative structure of the University has been approved by the Board of Trustees.

The title of Director, Statistical Service Unit, was changed to Director, University Office of Administrative Data Processing, and John F. Chaney has been designated as the Director. Mr. Chaney was Director of the Statistical Service Unit from 1958 until the reorganization. The Board action stated that the Director of the University Office will continue to have responsibility for administrative data processing for the entire University.

Each of the Campus Offices of Administrative Data Processing is headed by a Director reporting to Mr. Chaney and representing him in campus data processing affairs.

Accordingly, Ottie P. Carter, formerly assistant director, Statistical Service Unit, has been named Director, Medical Center Office of Administrative Data Processing.

It is the responsibility of the Campus Director and his office to provide the data processing services required for administrative purposes by the Chancellor.

The Campus Office will also provide data processing service related to campus operations as required for University-wide administrative purposes. To the extent that facilities are available, the Campus Office will also provide data processing services for the local Campus units as in the past.

Chancellor's Report on Topics of Current Interest

I. General

READMISSION OF GRADUATE STUDENTS FOLLOWING MILITARY SERVICE

To meet a need for a stated policy on readmission and financial aid to graduate students who return after completing military service, Acting Dean Dr. Milan V. Novak has issued the following governing principles to aid in these decisions:

> "A student in good standing whose graduate study is interrupted by the military draft, enlistment, or status as a conscientious objector will be readmitted to the Graduate College, University of Illinois at the Medical Center upon application to resume his student status as soon as he is able to return, provided that no intervening circumstances prevail

that suggest that he cannot pursue satisfactorily an academic program at a normal rate of progress.

"Every effort will be made to provide financial assistance or supplements to Public Law 358 (G.I. Bill of Rights) wherever possible and needed for students eligible for such aid through a combination of grants, loans, assistantships and fellowships."

Graduate students who commenced studies after October 1967 and others whose time limit has expired for attaining a graduate degree are subject to draft call. Less than the anticipated number of eligible graduate students have been called into service and enrollments in the United States have not been reduced as predicted.

CHANGE IN FOREIGN LANGUAGE REQUIREMENT FOR PH.D. APPROVED BY BOARD OF TRUSTEES

The Board of Trustees approved recommendations for change in the Medical Center's foreign language requirement for the Ph.D. degree during its meeting of November 22, 1968. The Medical Center Senate had approved the recommendation at an earlier date.

The recommendation, which is identical to that approved by the Board on July 24, 1968 for the Urbana-Champaign Campus, follows:

> Any foreign language requirement for the Degree of Doctor of Philosophy shall be determined by the individual department, division, or faculty jointly administering a program. Departments, divisions, and faculty jointly administering a program shall report changes in the language requirement to the Graduate College. Changes will be effective for students taking preliminary examination after final approval by the Board of Trustees and report of the change to the Graduate College.

SAFETY AWARD PRESENTED

The Award of Merit has been presented the Medical Center Campus by the National Safety Council. The award, recognizing the safety program underway on the Campus, is based on an evaluation made by a national panel of University safety specialists.

Ray Stephens, Campus Safety Officer, and Dr. Ernst R. Kirch, Chairman of the Safety and Fire Prevention Committee, accepted the award in behalf of the Campus.

II. Personnel

DR. DONALD A. BOULTON NAMED DEAN OF STUDENT AFFAIRS

The appointment of Dr. Donald A. Boulton as dean of student affairs for the Medical Center Campus has been approved by the Board of Trustees. The appointment is effective January 1 and carries with it the rank of assistant professor.

Dr. Boulton presently is assistant dean at the Upstate Medical Center, Syracuse, N.Y., and is in charge of admissions and student personnel for the College of Medicine, the Graduate School and the Schools of Nursing and Allied Health Sciences.

He received his A.B. from Alfred University (1952), his B.D. from New Brunswick Theology Seminary (1955) and Ed.D. from Columbia University (1961).

DR. SCHMIDT APPOINTED EXECUTIVE ASSOCIATE DEAN, COLLEGE OF MEDICINE

Dr. Alexander M. Schmidt has been appointed Executive Associate Dean of the College of Medicine and Associate Professor of Medicine. Dr. Schmidt assumed his new position December 1. He was previously Chief, Continuing Education and Training, Division of Regional Medical Programs, United States Public Health Service, Washington, D.C.

UNIVERSITY COUNCIL APPOINTEES

President David D. Henry, acting on the recommendation of the Executive Vice President and Provost, has requested that the following individuals from the Medical Center Campus serve as members of the University Council on the Health Sciences and Professions for the year 1968-69:

Dr. Joseph S. Begando, *Chancellor*
Dr. Donald J. Caseley, *Medical Director, Research and Educational Hospitals*
Dr. William J. Grove, *Dean, College of Medicine*
Dr. Mark H. Lepper, *Professor of Preventive Medicine and Community Health*
Dr. George E. Miller, *Director, Office of Research in Medical Education*
Dr. Mary K. Mullane, *Dean, College of Nursing*
Dr. George L. Webster, *Dean, College of Pharmacy*
Dr. Seymour H. Yale, *Dean, College of Dentistry*

2 ELECTED TO ADVISORY COMMITTEE

Dr. Melvin Sabshin of the College of Medicine and Dr. John M. Spence of the College of Dentistry have been elected to fill vacancies on the Faculty Advisory Committee.

Dr. Sabshin will fill the unexpired term of

Dr. James A. Yaeger and Dr. Spence that of Dr. Adrian Ostfeld. Dr. Spence's term expires in 1969 and Dr. Sabshin's in 1970.

The announcements were made by Dr. John P. Marbarger, Secretary of the Medical Center Senate.

Other members of the Faculty Advisory Committee are Dr. Nicholas J. Cotsonas of the College of Medicine, Chairman; Dr. James E. Gearien of the College of Pharmacy; Dr. Mary K. Mullane of the College of Nursing; Rose Ann Grundman of the College of Pharmacy; Dr. Virginia M. Ohlson of the College of Nursing; Dr. Conrad A. Blomquist of the College of Pharmacy and Dr. Theodore R. Sherrod of the College of Medicine.

III. Grants and Gifts

AUGUST, SEPTEMBER, OCTOBER GRANTS TOTAL $901,710

Research and training grants in the amount of $901,710 have been accepted by the Medical Center Campus for the period of August 1 - October 31, 1968.

The College of Medicine received $690,967, the College of Nursing $110,489, the College of Dentistry $82,222, the College of Pharmacy $16,400 and Student Affairs $1,632.

The United States Public Health Service is credited with 36 of the 46 grants totaling $775,656.

The largest single grant for the period is $102,481, awarded by the United States Public Health Service to the College of Medicine to be used for a project entitled "Serum Protein Allotypes," under the Supervision of Dr. Sheldon Dray, head of the Department of Microbiology.

Grants over $5,000 are listed below by college, department and name of investigator.

COLLEGE OF DENTISTRY

Oral Pathology

Dr. Julia Meyer, $8,876, "Studies on Normal and Altered Oral Mucosa," U.S. Public Health Service.

Dr. Julia Meyer, $35,708, "Studies on Normal and Altered Oral Mucosa," U.S. Public Health Service.

Oral Surgery

Dr. Daniel M. Laskin, $5,000, "Clinical Evaluation of Darvon Napsylate in Oral Surgery," Eli Lilly and Company, Indianapolis, Indiana.

Pedodontics

Dr. Philip Goland, $27,930, "Fixation of Tissue by Metalizable Chloro-S-Triazines," U.S. Public Health Service.

COLLEGE OF MEDICINE

Administration

Dr. Neena B. Schwartz, $26,943, "Undergraduate-Clinical Training," U.S. Public Health Service.

Anatomy

Dr. L.M.H. Larramendi, $15,754, "Electron Microscopy of Cerebellar Synaptogenesis," U.S. Public Health Service.

Dr. L.M.H. Larramendi, $27,551, "An Analysis of Cerebellar Subcellular Fractions," U.S. Public Health Service.

Dr. Edith K. MacRae, $5,300, "Predoctoral Fellowship for Mr. Gerald D. Meetz," U.S. Public Health Service.

Dr. W. Ann Reynolds, $5,300, "Predoctoral Fellowship for Mr. Frederick H. Wezwman," U.S. Public Health Service.

Biological Chemistry

Dr. Bernard Weissmann, $22,049, "Isolation and Structure of Acid Mucopolysaccharides," U.S. Public Health Service

Medicine

Dr. Robert M. Kark, $63,742, "Biopsy Studies of Kidney Structure and Function," U.S. Public Health Service.

Dr. Ruven Levitan, $17,381, "Water and Electrolyte Absorption from the Bowel," U.S. Public Health Service.

Dr. John T. Sharp, $22,892, "Thoracic Mechanics in Human Health and Disease," U.S. Public Health Service.

Dr. Malcolm Stanley, $14,592, "Iodine Metabolism in the Gut of Man," U.S. Public Health Service.

Microbiology

Dr. Sheldon Dray, $102,481, "Serum Protein Allotypes," U.S. Public Health Service.

Dr. Sheldon Dray, $5,300, "Predoctoral Fellowship for Mr. John J. Albers," U.S. Public Health Service.

Obstetrics and Gynecology

Dr. Ralph M. Wynn, $17,563, "Ultrastructure of the of the Placental Junctional Zone," U.S. Public Health Service.

Orthopaedic Surgery

Dr. Robert D. Ray, $37,991, "Graduate Training in Orthopaedic Surgery," U.S. Public Health Service.

Otolaryngology

Dr. Arthur J. Derbyshire, $12,792, "AER, CNV, and Vascular Measures of Semantic Change," U.S. Public Health Service.

Pediatrics

Dr. Charles F. Abildgaard, $9,389, "The Relationship of Antihemophilic Factor Levels to Intravascular Clotting," Chicago and Illinois Heart Associations.

Dr. Richard E. Behrman, $19,830, "Fetal Oxygen Consumption Placental Transfer Studies," U.S. Public Health Service.

Dr. Irving Schulman, $27,677, "Longevity and Significance of Coagulation Factors," U.S. Public Health Service.

Physical Medicine and Rehabilitation

Dr. David I. Abramson, $31,735, "Vascular Response in Skin and Muscles to Various States," U.S. Public Health Service.

Dr. David I. Abramson, $42,575, "Teaching and Traineeships in Rehabilitation Medicine," Department of Health, Education, and Welfare, Vocational Rehabilitation Administration.

Physiology

Dr. William V. Whitehorn, $16,354, "Endocrine Factors in Mycardial Function," U.S. Public Health Service.

Psychiatry

Dr. Ernest A. Haggard, $29,951, "Studies of Correlates of Social Isolation (Research Career Award)," U.S. Public Health Service.

School of Associated Medical Sciences

Miss Beatrice Wade, $20,302, "Teaching and Traineeships in Occupational Therapy," Department of Health, Education and Welfare, Vocational Rehabilitation Administration.

Surgery

Dr. Gerald O. McDonald, $30,000, "Institutional Research Grant, No. IN-9J," American Cancer Society.

Dr. Lloyd M. Nyhus, $42,403, "Physiology and Repair of Gastroesophageal Incompetence," U.S. Public Health Service.

Dr. Lloyd M. Nyhus, $6,500, "Editorial Expenses of Journal *Review of Surgery*," J.B. Lippincott Company, Philadelphia, Pennsylvania.

Dr. William Schumer, $10,000, "Corticoid Effect in Oligemic and Septic Shock," Merck, Sharp & Dohme Research Laboratories.

COLLEGE OF NURSING

Administration

Dr. Mary K. Mullane, $90,412, "Professional Nurse Traineeship Program - Long Term Academic," U.S. Public Health Service.

Dr. Mary K. Mullane, $18,711, "Public Health Nursing Traineeship Program," U.S. Public Health Service.

COLLEGE OF PHARMACY

Chemistry

Dr. Ludwig Bauer, $5,300, "Predoctoral Fellowship for Mr. Eric B. Sheinin," U.S. Public Health Service.

Dr. Dominick A. Coviellos, $5,500, "Predoctoral Fellowship for Mr. Sidney A. Barch," U.S. Public Health Service.

Dr. Ralph Daniels, $5,300, "Predoctoral Fellowship-Janice K. Little," U.S. Public Health Service.

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
AUG 1969
UNIVERSITY OF ILLINOIS

No. 20 March, 1969

Dr. Caseley Appointed to Position of Vice Chancellor

Dr. Donald J. Caseley, Medical Director of the University of Illinois Hospitals since 1954, has been appointed to the newly-established position of Vice Chancellor in the Office of Chancellor Joseph S. Begando. The appointment was effective February 1.

Initially, Dr. Caseley will serve as chairman of the Campus Building Committee for the Medical Center Campus and will represent the Office of the Chancellor in long range planning and development of campus physical facilities. This will include a 10-year projection study on the capital (building) needs and related capacities of the Campus to serve the city and the state, requested by the State Board of Higher Education.

Dr. Caseley will also serve as Campus liason officer for relationships with the federal government, with particular reference to federal legislation for Regional Medical Programs and Comprehensive Health Planning.

The Vice Chancellor will also coordinate the planning at the Campus related to community health programs, hospital and health agency affiliations, and extension and public service activities.

Dr. Caseley, a native of Illinois and a graduate of De Pauw and Indiana universities, has been on the University of Illinois staff since 1954. He previously had served in the United States Army from 1943 to 1946, as medical director of Indiana University Medical Center from 1946 to 1952, and as medical director for the Commission on Financing Hospital Care from 1952 to 1954.

Dr. Solomon Named Acting Director of Hospitals

Dr. Lawrence M. Solomon, assistant professor of dermatology in the College of Medicine, has been named to serve as Acting Medical Director of the Research and Educational Hospitals. Dr. Solomon's appointment was recommended by the Hospital Council and will be effective March 1.

A faculty consultative committee, with Dr. Lloyd M. Nyhus as chairman, has been asked to assist in the search for potential candidates to succeed Dr. Donald Caseley as Medical Director. Other members of the committee are:

Dr. Albert H. Andrews, Dr. Harry F. Dowling, Dean Mary K. Mullane, Dr. Alexander Schmidt, Dean George L. Webster, Dr. Ralph M. Wynn and Dean Seymour H. Yale.

Trustees Approve Recommendation of IEEI Transfer

A recommendation for the official transfer of the Illinois Eye and Ear Infirmary to the University of Illinois, effective January 1, 1970, has been approved by the Board of Trustees.

The Infirmary currently is jointly operated by the University and the State of Illinois Department of Children and Family Services. The Department is responsible for operation and maintenance of the Infirmary while the University is responsible for professional and technical services.

Under terms of the agreement, all real property, budget support and personnel would transfer to the University. Under existing law, legislation to effect the transfer now must be introduced into the 76th Illinois General Assembly and passed on by that body.

Chancellor Begando emphasized the transfer would infer no change in present operating and administrative personnel. George F. Geocaris, superintendent since 1966, and his staff will continue in their present positions.

Dr. Lemberger Appointment as Dean of the College of Pharmacy Approved

The appointment of Dr. August P. Lemberger as dean of the College of Pharmacy, effective September 1, 1969, has been approved by the Board of Trustees.

Dr. Lemberger, 43, professor of pharmacy since 1963 at the University of Wisconsin, will replace Dr. George Webster, who retires this fall after serving 11 years as dean.

A graduate (B.S.) of the University of Wisconsin (1948) Dr. Lemberger received his Ph.D. from the same school (1952). A teacher and researcher in pharmaceutical preparations and technology and physical pharmacy, his special interest is in polyphase systems and surface films.

Dr. Lemberger is a member of a dozen professional, honorary and learned societies and has authored or contributed to more than 40 scientific and professional articles, as well as having served as editor of several publications.

Chicago Illini Union Code of Conduct

Clarence C. Leverenz, Director of Auxiliary Services, and members of the Chicago Illini Union Board have adopted the following resolution:

When, in the judgment of the Director or staff members of the Chicago Illini Union, conduct of individuals in the Chicago Illini Union is deemed to be:

1. Detrimental to the health or safety of the patrons, or to the maintenance of satisfactory housekeeping standards;
2. Contributing to damage or loss of property;
3. Disturbing to or interfering with use of the Chicago Illini Union facilities by others;

the individual or individuals will be requested to discontinue the activity. Continuation of the objectionable conduct will result in withdrawal of the privilege of using Union facilities.

It is the responsibility of all persons using Chicago Illini Union facilities to comply with the Code of Conduct. Any person may bring to the attention of the Director and/or the Union staff, behavior which is inconsistent with the Code of Conduct. Staff members are authorized to enforce compliance with this request in accordance with procedures recommended by the Chicago Illini Union Board and approved by the Director of the Chicago Illini Union.

Dr. Edsel K. Hudson Named Director of Planning for Community Health Project

Dr. Edsel K. Hudson, associate professor in the College of Medicine, has been named by Chancellor Begando to the newly-created position of "Director of Planning---Community Health Project."

Dr. Hudson will work with the Campus ad hoc community liaison committee and the Chancellor's office to improve communications between the Campus and the community directly south of it. He will also study the feasibility of a University-sponsored community health center serving an area bounded by Ashland and Western Avenues, Roosevelt Road and 16th Street.

The position will begin as a half-time assignment, with plans to make it full-time in the near future.

Guides to Instructional Aids and Services Available to Faculty

The Committee on Instructional Resources has prepared a guide to instructional aids and services presently available on this campus. The guide includes a description of personnel and equipment resources, the means of obtaining the services and the general order of cost where charges are made.

Copies of this guide are available to all faculty members and may be obtained by written or telephone request through the Office of the Chancellor.

Recommendations of the All-University Committee on Admissions

Each of the three University Senates has adopted the following recommendations of the All-University Committee on Admissions:

"(1) Every effort shall be made to increase rapidly and materially the numbers of disadvantaged students enrolled in special programs at each campus of the University of Illinois. Each campus Senate shall determine the avenues for assuring faculty participation in the planning and execution of the special programs on that campus.

"(2) Modified standards of admission for disadvantaged students shall be accepted on each campus on an experimental basis with annual progress reports to be made on this subject to the All-University Committee on Admissions by the Directors of Admissions on each campus."

CAMPUS REPORT

from the Office of the Chancellor

University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
AUG
UNIVERSITY OF ILLINOIS

No. 21, March 14, 1969

Statement on Visiting Speakers and the Use of Space

As Chancellor of the University of Illinois at the Medical Center, Dr. Joseph S. Begando has received the following communication from President David D. Henry:

"In light of the Federal Court injunction now in effect against observance of the Illinois statute commonly known as the 'Clabaugh Act,' I have consulted a Committee (Professor George C. Giles, Chairman, Chicago Circle Committee on Student Affairs, Dean Robert P. Link, Chairman, Urbana-Champaign Committee on Visiting Speakers, Professor M. Eugene Moyer, Chairman, Urbana-Champaign Committee on Student Affairs, Theodore R. Sherrod, M.D., Chairman, Medical Center Committee on Student Affairs) created to deal with the use of University premises and facilities for meetings to be addressed by speakers (other than students, members of the faculty and staff, and members of the staffs of organizations housed in University buildings), as contemplated by Section 21 (d) of the General Rules Concerning University Organization and Procedure. The concensus of the Committee on this subject is described in this communication and has my approval.

"In selecting speakers, sponsoring organizations should take cognizance that University premises and facilities are dedicated to the special function of education. University premises may not be used for (a) violating or inciting the violation of local, State or Federal law, the policies of the Board of Trustees, or University regulations; or (b) direct commercial solicitation (except on the prior written approval of the Chancellor or his designee). Authorization to use University space does not imply immunity from sanctions of the law or of the University for failure to observe these limitations.

"Each Chancellor is responsible for uses of space at his campus within this framework and is expected to formulate comprehensive recommendations concerning the use of space generally at his campus. On topics of general and continuing interest each Chancellor is urged to maintain appropriate balance by insuring the availability, within the University community, of presentations of differing points of view. It is clear the Chancellor is expected to deny the use of University premises and facilities for any meeting when he determines there is reasonable probability that violence or serious disruption of the University's functions will result."

In order to implement President Henry's statement, Chancellor Begando announces the following procedures for requesting the use of space for other than scheduled instructions on the Medical Center Campus. These procedures will go into effect immediately.

1. Amended forms will be used in requesting space on this campus, implementing the changes brought about by the Federal Court injunction.

2. All organizations, whether University agencies, faculty, student (undergraduate, professional and graduate), or outside organizations will utilize the same form for requesting use of university premises.

3. An organization or group requesting University space for any activity at which there will be a non-university related speaker must submit as a part of its request for space, the name of the speaker. While the forms will have space to indicate the speaker's subject, the completion of this item will be optional with the organization.

4. In selecting speakers, sponsoring organizations should take cognizance that University premises and facilities are dedicated to the special function of education. University premises may not be used for (a) violating or inciting the violation of local, State or Federal law, the policies of the Board of Trustees, or University regulations; or (b) direct commercial solicitation (except on the prior written approval of the Chancellor or his designee). Authorization to use University space does not imply immunity from sanctions of the law or the University for failure to observe these limitations.

5. The University reserves the right to cancel any reservation if it is inherently violative of policies or regulations of the University regarding meetings on the campus, or if it violates local, State or Federal law.

6. The Chancellor will deny the use of University premises and facilities for any meeting when he determines there is reasonable probability that violence or serious disruption of the University's function will result. This authority will not be delegated except in the absence of the Chancellor.

7. Comprehensive recommendations for the use of space on this campus are being developed. These recommendations will take into account the interest of students, faculty and the various administrative officers and divisions of the University.

November, December, and January Grants Total $1,334,007

Research and training grants in the amount of $1,334,007 have been accepted by the Medical Center Campus for the period of November 1, 1968 -- January 31, 1969.

The College of Medicine received $1,030,690; the College of Dentistry, $142,772; the Division of Services for Crippled Children, $100,759; the College of Pharmacy, $29,398; the College of Nursing, $20,768; and Student Affairs, $9,620.

The United States Public Health Service is credited with 25 of the 37 grants totaling $1,058,172.

The largest single grant for the period is $279,659, awarded by the United States Public Health Service to the College of Medicine to be used for "General Research" under the supervision of Dr. William J. Grove, dean of the College of Medicine.

Grants over $5,000 are listed below by college, department and name of investigato

COLLEGE OF DENTISTRY

Administration:
Dr. Seymour H. Yale, $102,983, "General Research Support," U. S. Public Health Service.

Histology:
Dr. Arthur Grimm, $21,993, "The Growing of Enlarged Striated Musculature," U. S. Public Health Service.

Histology (cont.):
Dr. Tawfik Y. Sabet, $14,585, "Development of a Subcellular System for Primary Antibody Synthesis," American Cancer Society.

DIVISION OF SERVICES FOR CRIPPLED CHILDREN

Dr. A. L. Ruess, $100,759, "A Multi-Dimensional Study of Handicapped Children," Department of Health, Educa-

tion and Welfare, Children's Bureau.

COLLEGE OF MEDICINE

Administration:
Dr. William J. Grove, $279,659, "General Research Support," U.S. Public Health Service.

Dr. George E. Miller, $130,598, "Computer Simulation of Clinical Encounters," U.S. Public Health Service.

Anatomy:
Dr. Wynetka A. Reynolds, $14,282, "Effects of Low Temperatures on Amphibian Metamorphosis," U.S. Public Health Service.

Biological Chemistry:
Dr. Clyde C. Doughty, $34,126, "Antisera Effects on Aldose Reductase and Cataracts," U.S. Public Health Service.

Dr. Janos Molnar, $22,440, "Metabolism of Glycoproteins of Malignant Tissues," American Cancer Society.

Dr. Janos Molnar, $17,334, "Metabolism of Plasma Glycoproteins," U.S. Public Health Service.

Medicine:
Dr. Robert W. Carton, $47,830, "Repeated Infections and Progress of Chronic Bronchitis," U.S. Public Health Service.

Dr. Harry Dowling, $29,888, "Bacterial Species and Host Response in Pyelonephritis," U.S. Public Health Service.

Dr. Walter Fried, $15,000, "Control of Hematopoietic Stem Cells," U.S. Public Health Service.

Microbiology:
Dr. Alfred Nisonoff, $27,333, "Structural Basis of Antibody Specificity," U.S. Public Health Service.

Neurology and Neurological Surgery:
Dr. Anthony J. Raimondi, $41,051, "Pathogenesis of Hydrocephalus Mutants," U.S. Public Health Service.

Obstetrics and Gynecology:
Dr. Ralph M. Wynn, $8,884, "Ultrastructural effects on the Human Endometrium of Intrauterine Devices," Research Foundation of the State University of New York Population Council.

Otolaryngology:
Dr. David F. Austin, $6,000, "Study of Garamycin Otic," Schering Corporation, White Labs, Inc.

Pathology:
Dr. Newton Ressler, $21,970, "Electrophoretic Investigations of Enzymes," U.S. Public Health Service.

Pediatrics:
Dr. George R. Honig, $18,900, "Regulation of Hemoglobin Synthesis," U.S. Public Health Service.

Pharmacology:
Dr. Edmund G. Anderson, $15,868, "Spinal Synaptic Transmission and Biogenic Amines," U.S. Public Health Service.

Physiology:
Dr. Akira Omachi, $22,389, "Role of Phosphate Metabolism in Transport," U.S. Public Health Service.

Preventive Medicine and Community Health:
Dr. Richard B. Shekelle, $121,226, "The Epidemiology of Cerebrovascular Disease," U.S. Public Health Service.

Psychiatry:
Dr. M. Rue Bucher, $21,226, "Mechanisms of Professional Socialization," U.S. Public Health Service.

Dr. Paul Singer, $86,000, "Providing Services to Mentally Ill and Mentally Retarded Persons Residing in Illinois," Department of Mental Health, State of Illinois.

Surgery:
Dr. Lloyd M. Nyhus, $29,984, "Vagal Effects on Antral Inhibitory Mechanisms," U.S. Public Health Service.

Surgery (cont.):

Dr. Max S. Sadove, $10,000, "Analgesia Research," A. H. Robins Company.

COLLEGE OF NURSING

Administration:

Dr. Gladys A. Courtney, $20,768, "Multidisciplinary Research Training: Anatomy-Microbiology-Physiology," U.S. Public Health Service.

COLLEGE OF PHARMACY

Chemistry:

Dr. Alfred W. Von Smolinski, $19,139, "Analytical Studies in Air Pollution," U.S. Public Health Service.

Chemistry (cont.):

Dr. Alfred W. Von Smolinski, $10,259, "Analytical Studies on the Formation and Quantitation of Heavy Metal Chelates of Dichloro-s-Triazines," University Patents, Inc.

STUDENT AFFAIRS

Dr. Donald A. Boulton, $9,620, "Educational Opportunity Grants Program," Department of Health, Education and Welfare.

Gift From Benjamin J. Goldberg Foundation

Receipt of proceeds of a trust fund, the Benjamin J. Goldberg Foundation which contains a separate Edward and Cookie Beck Fund, was reported to the Board of Trustees at its meeting February 19. The Board had formally accepted the gift on January 12, 1967. A sum of some $683,000 is involved in the gift.

The Board approved the recommendation that the proceeds be used at the Medical Center for the purposes specified--establishment of professorships, scholarships, and fellowships; fostering and encouragement of research in the fields of medicine, science, and art; and care, hospitalization, and assistance of the aged, sick, helpless, poor, or incompetent as merit and are in such need. The proceeds will be held as temporary endowments pending final decision as to specific application of the funds.

Dr. Goldberg, a 1916 alumnus of the College of Medicine, was devoted to the improvement of medical education. A very substantial part of his personal estate was given to the University of Illinois Foundation to construct a facility for multidisciplinary medical research on the Medical Center Campus.

Medical Campus Radio Series Wins Broadcasters Award

Public service programming at the Medical Center Campus has been honored by the National Association of Educational Broadcasters (NAEB) for the weekly radio series, "Your Doctor Speaks." The series, distributed to more than 100 educational stations on the NAEB national network, is produced by Jack W. Righeimer in the Office of Public Information.

APR 21 1969

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
APR 7 1969
UNIVERSITY OF ILLINOIS

No. 22 April 4, 1969

Policy for the Release of Student Academic Records

A policy to govern the release of student academic records from the Office of Admissions and Records, proposed by Dr. Anthony J. Diekema, director of that office, has been approved by Chancellor Joseph S. Begando.

The policy statement, now being implemented, reads:

The student's name, dates of attendance, college or school of enrollment, degrees earned, and major subject area will be furnished to anyone who demonstrates a legitimate "need to know." Individual student written requests to have other information withheld from agencies or persons outside the University are honored. In the absence of such a request, the following policies are applied to the release of information to agencies or persons outside the University.

1. Personal information such as address, phone number and age will be confirmed if the person requesting this information has the proper information at the time of making the request. The information itself will not be divulged except as reported in current publicly available directories. No academic information on a specific student other than that noted above will be given by phone.

2. Transcripts are released only on the student's request to whomever he designates.

3. Reports of final course grades are provided to students.

4. Upon written authorization of the student concerned, representatives of outside agencies, including governmental agencies, may see student records in our offices, or such information may be sent to them. This is interpreted to mean that a student who has named the University as a reference has given his authorization for an examination and release of his records.

5. The director of Admissions and Records may release student academic information to educational institutions and agencies in the interest of research provided he is assured by written authorization from the requesting party that individual anonymity will be guaranteed.

6. The director of Admissions and Records may release student academic information in the interest of financial assistance or honorary recognition of the student.

Except as set forth above, no information will be released concerning any student by the Office of Admissions and Records, except pursuant to written authorization of the student or to a subpoena duly served upon the University.

All subpoenas received will be transmitted to the Office of the Legal Counsel for review and comment before response is made to them.

Policy on Research Proposals Involving Human Subjects

The Committee of Associates has recommended and Chancellor Begando has approved the following recommendation relative to research proposals involving the use of human beings:

> "All research proposals involving human subjects, which are approved by departmental committees shall be sent to the Committee of Associates for possible review."

The above recommendation thereby becomes the policy at the Medical Center Campus.

The full procedure for research proposals involving human subjects, including forms to be used, was described in a letter from Chancellor Begando dated January 1, 1967. The letter was sent to Deans, Directors and Department Heads. If copies of the material are needed, they can be obtained by telephoning the Office of the Chancellor.

Advisory Board, Committee Named for Center for Craniofacial Anomalies

An Advisory Board and an Advisory Committee to the Center for Craniofacial Anomalies have been appointed by Chancellor Begando upon the recommendation of the director of the Center and the dean of the College of Dentistry.

Members of the Advisory Board are:

Dr. Seymour H. Yale, dean, College of Dentistry, Chairman; Dr. Donald J. Caseley, vice chancellor; Dr. Lawrence M. Solomon, acting medical director, Research and Educational Hospitals; Dr. William J. Grove, dean, College of Medicine; Dr. Edward F. Lis, director, Division of Services for Crippled Children; Dr. Samuel Pruzansky, director, Center for Craniofacial Anomalies, ex officio.

Members of the Advisory Committee are;

Dr. Albert Andrews, head, Department of Otolaryngology, Chairman; Dr. John P. Marbarger, director, Research Resources Laboratory; Dr. John O'Neill, chairman, Speech and Hearing Clinic, University of Illinois at Urbana and chairman, Intercampus Advisory Committee in the Speech and Hearing Sciences; Dr. Samuel Pruzansky, director, Center for Craniofacial Anomalies, ex officio.

Dr. Aubrey L. Ruess, associate professor of psychology, Administrator Psychology, Division of Services for Crippled Children; Dr. Irving Schulman, head, Department of Pediatrics; Dr. Harry W. Southwick, clinical professor of surgery; Dr. Robert B. Underwood, head, Department of Prosthodontics; Dr. John P. Waterhouse, head, Department of Oral Pathology.

The Advisory Board will review the progress of the Center, advise on policy and major appointments and recommend allotment of space. The Advisory Committee will review the clinical operations and scientific programs of the Center and make periodic reports to the Advisory Board.

Health Service Advisory Committee Named

A Health Service Advisory Committee to advise the director of the Health Service, and to make continuing studies and recommendations on the health needs of the personnel on the Medical Center Campus has been named by Chancellor Begando.

Formation of such a committee was the recommendation of a group, headed by Dr. Charles E. Richards, appointed to study health services for faculty, staff and students.

Members of the new committee are:

Dr. Max M. Montgomery, chairman; Miss Edna L. Anderson; Dr. Marvin J. Colbert, ex officio; Miss Patricia A. Denton; Miss Helen W. Dunn; Dr. John H. Schneewind; Dr. John Spence.

Polk Street Project to be a Year-Long Job

Preliminary work has begun on a year-long construction job that will keep portions of Polk Street on the Medical Center Campus inaccessible to motorized traffic.

Installation of huge concrete sewer pipes--16 feet in diameter--to replace the outmoded sewer system is scheduled to begin in April with completion slated for May 1970. The inadequate lines, being replaced by the City of Chicago, are more than 50 years old.

Plans call for work on Polk Street between Ashland (east) and Paulina Avenues (west) to be in progress during April and May. In June and July the working area will be between Paulina and Hermitage. This work schedule will continue at two-month intervals until April-May of 1970 when the line is extended to Oakley Avenue.

Polk Street will not be closed for its entire length through the Medical Center Campus at any time during the construction period.

In order to facilitate access to the Campus and the University Hospitals, Frank E. Hostettler, campus director of planning and construction, said that some one-way streets will be re-marked, allowing for two-way traffic.

Every effort will be made, Hostettler said, to keep at least one lane open on streets that are in the construction area.

Dr. Massler Accepts Two National Appointments

Dr. Maury Massler, assistant dean for postgraduate and teacher education in the College of Dentistry, has accepted consultant roles with the U.S. Food and Drug Administration (FDA) and with the U.S. Surgeon General. Dr. Massler will advise the FDA's Bureau of Medicine Advisory Panel System and the Surgeon General's Preventive Dentistry Advisory Committee.

Dr. Sadove Named One of Nation's Leading Drug Experts

Dr. Max S. Sadove, head of the Division of Anesthesiology in the College of Medicine, has been named one of the nation's leading drug experts by Dr. James Goddard head of the Federal Food and Drug Administration. Dr. Sadove, one of nine physicians in Illinois cited by Dr. Goddard, was recently elected chairman of the Surgical Consultants to the Veterans Administration in Washington, D. C. As chairman, Dr. Sadove will head a national team of consultants for the VA's Special Medical Advisory Committee.

Dr. Boshes Named Ambassador for World Health Organization

Dr. Louis D. Boshes, associate professor of neurology in the College of Medicine, has been appointed an "ambassador of health" for the World Health Organization. One of ver his assignments will be to spread information on epilepsy in underdeveloped areas. Dr. Boshes, also head of the Consultation Clinic for Epilepsy on the Campus, will work closely with the International Bureau of Epilepsy and the U. S. State Department.

Four Professors Collaborate on International Medical Atlas

Four of five academic people who have edited an international medical atlas depicting most abnormalities of the ear, nose and throat are members of the faculty of the College of Medicine. They are Dr. Richard A. Buckingham, clinical professor of otolaryngology; Dr. Paul H. Holinger, professor of bronchoesophagology; Dr. Francis L. Lederer, professor of otolaryngology, emeritus; and Dr. Galdino E. Valvassori, professor of radiology.

Published in Germany with six language editions, the Atlas of Otorhinolaryngology and Bronchoesophagology contains 774 color photographs. Mrs. Maria E. Ikenberg, scientific photographer, Department of Otolaryngology, produced many of the detailed illustrations in the laboratories of the Illinois Eye and Ear Infirmary.

Three Faculty Members Granted Sabbatical Leaves of Absence

Three members of the faculty have been granted sabbatical leaves of absence in accordance with the provisions of the University of Illinois Statutes. The leaves were approved by the Board of Trustees during the March 19 meeting in Urbana.

Dr. Maury Massler, professor of pedodontics and assistant dean for Postgraduate and Teacher Education, has been granted a six-month leave beginning January 1, 1970. Dr. Massler will formulate curriculum and train faculty for the newly-organized Postgraduate School of Dentistry at Tel-Aviv (Israel) University, organize and supervise Continuing Education programs, test methods and hypotheses developed at the Medical Center Campus and gather data during this process.

Dr. Cecil A. Krakower, professor and head of the Department of Pathology, will spend six months, beginning September 1, 1969, devising an experimental model which might help to explain why skin grafts under certain circumstances fail to develop a blood supply. The work will be done in Weizmann Institute in Rehovoth, Israel.

Dr. Charles L. Bell, associate professor of Chemistry, has been granted a four and one-half month leave beginning September 15, 1969 to use research facilities in magnetic resonance spectroscopy not available on the Medical Center Campus and apply these methods to determine molecular structure information on molecules of biological interest, initially antibiotics. Dr. Bell's work will be conducted at Argonne National Laboratory, Division of Biology and Medicine.

Dr. Bombeck Receives Capp Award

Dr. Thomas C. Bombeck, instructor in surgery at the University Hospitals, has been awarded the 1968 Joseph A. Capps Prize for Research in Medicine by the Institute of Medicine of Chicago.

The award was the second conferred on Dr. Bombeck in recent months. In October he was presented the Mead Johnson Award from the American College of Surgeons for academic training in surgery.

C
I 16 6Mc

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

No. 23 April 28, 1969

Dr. Binkley Appointed Dean of the Graduate College

The appointment of Dr. Stephen B. Binkley as dean of the Graduate College, effective September 1, 1969, has been approved by the Board of Trustees.

The naming of Dr. Binkley fills a vacancy created by the reorganization of the Graduate College which became effective September 1, 1968. Since that time, Dr. Milan V. Novak has served as acting dean. Dr. Novak has asked to be relieved of further administrative duties because of impaired health.

Dr. Binkely is presently professor of biological chemistry and head of that department in the College of Medicine. He will continue to hold his appointment as professor of biological chemistry on indefinite tenure.

A native of Illinois, Dr. Binkley attended and received his A.B. from Eureka College (1934) and both his M.S. (1935) and Ph.D. (1938) from the University of Nebraska.

He joined the University of Illinois in 1949 and served as an associate professor until 1953, when he was named a professor. In 1965 he became acting head of the Department of Biological Chemistry and in 1967, was named head of the department.

In addition to a teaching and lecturing background, Dr. Binkley served as senior research chemist at Parke, Davis and Company, Detroit; and as assistant director of research at Bristol Laboratories, Syracuse, New York.

Revision of Statutes: Privileges of Students on Senate Committees

An amendment to the University Statutes to provide for student membership on Senate committees and for Senate floor and voting privileges for such student members of Senate committees was approved by the Board of Trustees at the April 9 meeting at Chicago Circle Campus.

In accord with procedures for amending the Statutes, the advice of the three University Senates was sought and received prior to submitting to the Trustees a recommendation for final action on the amendment.

At its November 22, 1968 meeting the Trustees approved provisionally an amendment to Section 6 (b) that read:

"The Senate may provide for student representation on its committees, and student members shall have Senate floor and voting privileges on matters relating to the action of the committees on which they serve unless the Senate otherwise provides."

The Senates at the Medical Center and at Urbana approved the amendment. Chicago Circle Senate approved a version with a few changes in wording and the Senate Coordinating Council recommended approval of the Chicago Circle version. This version, approved by the Trustees at the April 9 meeting, reads as follows:

"The Senate may provide for student representation on its committees, and student committee members so selected shall have Senate floor and voting privileges on matters relating to the action of the committees on which they serve unless the Senate provides otherwise in its by-laws and standing rules.

Obviously, the changes are in the direction of clarification of the intent of the original version: that the Senates' discretion govern both the provision for student membership on committees and the means of making that determination.

EDMP Renamed "College of Pharmacy" Building

Changing of the name of the East-Dentistry-Medicine-Pharmacy Building at 833 S. Wood Street, to the "College of Pharmacy" Building was approved by the University of Illinois Board of Trustees at the April 9 meeting at Chicago Circle Campus.

The name change was recommended by Dr. Joseph S. Begando and concurred in by Dr. David D. Henry, University President.

Neither the Colleges of Medicine or Dentistry are assigned space in the building

Dr. Begando emphasized that with the current plan to name the College of Nursing Building (now under construction) for that college and the College of Dentistry Building (to be constructed) for that college, the name change was both appropriate and consistent.

"Although there are other offices in the building, they are few in number and limited with respect to total assigned space. College of Pharmacy Building is an accurate descriptive title of the primary function of the building," Dr. Begando said.

Dean of the Graduate School of Public Health

Chancellor Begando has named an all-campus committee to seek an individual who, in due course, may become the Dean of the Graduate School of

Public Health.

At first, the person selected would serve as head of the Department of Preventive Medicine and Community Health in the College of Medicine. As funds are provided and the necessary approvals obtained, the individual would assume the deanship of the Graduate School of Public Health.

Should the College of Medicine consider it advisable, the Department of Preventive Medicine and Community Health then might become a department within the Graduate School of Public Health. Because the individual being sought will have his first appointment in the College of Medicine, Dean William J. Grove has indicated his approval of this somewhat unusual procedure.

Dr. Irving Schulman will serve as chairman of the search committee. Others named are: Dr. Martin I. Blake, Dr. Donald J. Caseley, Dr. Lawrence Cohen, Dr. Jerome J. Hahn, Dr. Leon J. Le Beau, Dr. Edward F. Lis, Miss Virginia M. Ohlson and Dr. Melvin Sabshin.

Gifts, Grants and Contracts Total $68,179,731 in Fiscal 1967-68

Gifts, grants and contracts to the University of Illinois increased nearly nine million dollars from $59,197,454 in fiscal 1966-67 to $68,179,731 in fiscal 1967-68, according to a report by Vice President and Comptroller H. O. Farber.

Private gifts directly to the University on all compuses increased from $6,708,998 to $9,063,389.

U.S. Government grants increased from $47,136,664 to $55,918,249 for all campuses. Contracts with state of Illinois agencies increased from $1,470,501 to $1,806,077.

Most of the gifts and grants are designated for projects and activities not supported by regularly appropriated funds.

Complete figures for the three campuses of the University are reflected in the following table:

	Medical Center	Chicago Circle	Urbana-Champaign	Total
Private Gifts	$ 1,528,003.12	$1,102,819.37	$ 6,432,567.40	$ 9,063,389.89
Gifts to U. of I. Foundation				1,392,014.29
U.S. Govt. Grants	8,677,047.40	3,111,308.73	44,129,893.77	55,918,249.90
State Contracts	338,517.77	73,365.21	1,394,194.52	1,806,077.50
Totals	$10,543,568.29	$4,287,493.31	$51,956,655.69	$68,179,731.58

Campus Chest Campaign Exceeds Quota

The Campus Chest Campaign for 1968 realized a total of $10,207.92 which exceeds the quota of $8,250 asked by the Metropolitan Crusade for Mercy.

Dr. John E. Kempf and Ward L. Walhay, co-chairman of the drive on the Medical Center Campus, announce that the surplus funds have been divided as follows:

Salvation Army, $500; Duncan YMCA, $200; YWCA of Metropolitan Chicago, $200; St. Joseph Carondelet Child Center, $200; American Cancer Society, $100; Boy Scouts of America, Chicago Area, $100; Chicago Association for Retarded Children, $100.

Chicago Heart Association $100; Chicago Lighthouse for the Blind, $100; Girl Scouts of Chicago, $100; Hepzibah Children's Home Association, $100; Chicago Boys Clubs, $10.

The remainder, $147, will remain in the Campus Chest fund to cover campaign expenses and to carry forward to 1969.

For 1969, the Committee hopes to increase contributions by giving more publicity during the early stages of the campaign and by having a short introductory program to acquaint people with the work of the community fund. A film will be shown and a representative of the Crusade for Mercy will be invited to speak.

The Committee believes that students should be interested in making a contribution and that if each student contributed only 50 cents an additional $1,400 could be realized. A student captain will be appointed if the students are agreeable.

Chancellor Begando Named to National Advisory Council

Chancellor Joseph S. Begando has been named to the National Advisory Council on Nurse Training of the National Institutes of Health. Dr. Begando will serve on the council through January 31, 1972.

The council's primary function is to advise the NIH director in administering the 1964 Nurse Training Act. The Act is designed to increase the nation's supply of qualified nurses through federal assistance grants, traineeships and loans.

Members of the Council are selected from the general public and from leaders in the fields of higher education as well as from representatives of hospitals and other institutions and organizations which provide nursing services.

C
I 2a6Mc

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
AUG 14 1969
UNIVERSITY OF ILLINOIS

No. 24 June 11, 1969

Dr. Hine To Be Speaker At June 12 Commencement

Dr. Maynard K. Hine, Chancellor at Indiana University-Purdue University at Indianapolis, will be the speaker for the University of Illinois at the Medical Center Commencement exercises June 12 at Medinah Temple.

Dr. Hine received his dental degree and his Master's degree from the University of Illinois. After spending two years in research at the University of Rochester, Rochester, N. Y., he returned to the Medical Center Campus and served for eight years in the Department of Oral Pathology and Periodontics in the College of Dentistry.

In 1944 Dr. Hine was appointed Professor and Head of the Department of Oral Histopathology and Periodontics at Indiana University School of Dentistry. He was named dean of the school on July 1, 1945.

Dr. Hine received the Doctor of Science degree from Case Western Reserve University in 1967.

Dr. Hine was appointed Chancellor of Indiana University at Indianapolis on November 1, 1968. The campus consisted of eight schools: Dentistry, Medicine, Nursing, Law, Social Service, Liberal Arts College, Normal College of the American Gymnastic Union and Herron Art School.

Purdue University's Indianapolis Campus merged with Indiana University at Indianapolis in January 1969 and Dr. Hine was named Chancellor. The Campus acquired its present name at the same time.

The honorary degree of Doctor of Science will be conferred upon Dr. Hine during the June 12 graduation exercises.

Committee on Neighborhood Health Center Named

A larger, more broadly-based committee to replace an ad hoc Community Liaison Committee concerned with the Medical Center Campus neighborhood health center activities has been named by Chancellor Joseph S. Begando.

Dr. Donald J. Caseley, Vice Chancellor, will serve as chairman. Dr. Edsel Hudson, who has been working on the health center project on a half-time basis, will serve as the secretary of the committee. Dr. Hudson will continue to plan and coordinate efforts of this campus in the operation of the Neighborhood Health Center.

Several members of the new committee, having served on previous ad hoc groups or committees, are familiar with the nature of the progress that has been made in identifying the target population and in planning with the leadership group in the community south of the Medical Center campus.

It will be the role of this committee to provide advice and counsel to Dr. Hudson in his planning and coordinating efforts, to assist in the establishment of priorities, to identify special areas where resources of the campus may be used most effectively and to relate the various component units of the campus to this especially meaningful community service activity.

Members of the committee are:

Dr. Donald J. Caseley, chairman; Herbert S. Carlin, Dr. Nicholas J. Cotsonas, Dr. Harvey M. Freed, Dr. J. Clark Gleeson, Mrs. Mary E. Goss, Dr. William J. Grove, Charles M. O'Brien, Miss Virginia M. Ohlson, Dr. Edsel Hudson, secretary.

Consultants to the Committee are: David W. Bonham, Dr. Donald A. Boulton and Frank W. Houck.

Liaison with Cook County Hospital: Dr. Harold Levine.

Two student representatives and two house staff members will also be named to the committee.

College of Medicine Admission Requirements Modified

Discontinuance of the rule limiting applicants for admission to the College of Medicine to those having at least a 3.5 collegiate grade point average was approved by the Board of Trustees during their May 21 meeting at Urbana.

The change, recommended by Dean William J. Grove of the College of Medicine and Chancellor Joseph S. Begando, becomes effective for the class to be selected for admission in September 1970.

In the recommendation for approval it was stated that the old rule reduced the freedom of action of the Committee on Admissions as it seeks to accept applicants considered most likely to succeed in the program of medical education.

A review of admission requirements for other medical schools indicated that none has established a firm minimum grade point average, below which consideration cannot be given in any circumstance.

Discontinuance of the rule will not reduce the quality of the applicants accepted, but will make it possible for the Committee on Admissions to accept an applicant with excellent potential who had, for justifiable reasons, a grade point average below the minimum.

The old ruling, adopted in 1931, required that each applicant to the College of Medicine, whether from the University of Illinois or another institution, must have a grade point average of at least 3.5, or its equivalent, to be considered for admission.

Eye Bank Moves To Illinois Eye and Ear Infirmary

The Illinois Eye Bank, located in Cook County Hospital for the last 22 years, has been moved to the Illinois Eye and Ear Infirmary, 1855 West Taylor Street, on the Medical Center Campus.

The transfer was announced by Dr. William J. Grove, dean of the College of Medicine; Joseph S. Stein, president of the Illinois Society for the Prevention of Blindness; and Edward Weaver, director of the Illinois Department of Children and Family Services.

The new Illinois Society for the Prevention of Blindness Eye Bank Laboratory will be staffed by the University as is the Eye and Ear Infirmary. The Department of Children and Family Services and the University's College of Medicine jointly operate the Infirmary. The Illinois Society for the Prevention of Blindness sponsors the Eye Bank through a grant to the University of Illinois at the Medical Center.

Expanded facilities will permit research involving the use of eye tissue and related eye bank procedures. In addition the eye bank will be able to obtain and utilize more eyes for transplant surgery.

Three Elected to Faculty Advisory Committee

Dr. Thomas K. Barber (Dentistry), Dr. Nicholas J. Cotsonas (Medicine), and Dr. Arnold B. Swerdlow (Medicine) have been elected to the Faculty Advisory Committee with terms expiring in 1972.

Other members of the committee are:

Dr. James E. Gearien (Pharmacy), Professor Rose A. Grundman (Pharmacy) and Dr. Mary K. Mullane (Nursing.). Terms expire in 1971.

Dr. Conrad A. Blomquist (Pharmacy), Dr. Virginia M. Ohlson (Nursing) and Dr. Melvin Sabshin (Medicine). Terms expire in 1970.

Medical Center Campus Designation

Because there are three separate University of Illinois campuses, it is essential to distinguish clearly when referring to a particular campus. The name "University of Illinois" should be reserved for referring to the University as a whole.

When referring to this campus or identifying someone as a member of the faculty or staff, the name "University of Illinois at the Medical Center, Chicago" should be used. This name was approved by the Board of Trustees at the November 28, 1961 meeting and became effective on that date. All letterheads, publications, and other documents should so identify this campus. Faculty members are asked to use the campus designation when submitting their name and affiliation for use in conference programs, biographical data and publications.

Statements on "Code Assignment" and "Code Control"

Chancellor Joseph S. Begando has sent to Deans, Directors and Department Heads a copy of a statement entitled "Code Assignment and Control," which has been prepared by John F. Chaney, director of the Office of Administrative Data Processing, and G. J. Froehlich, director of the University Bureau of Institutional Research.

For reasons cited in the joint proposal, Executive Vice President and Provost Lyle H. Lanier has approved the following assignments of responsibility for "code assignment" and "code control:"

1. That the University Bureau of Institutional Research be designated as the official University "Agency for Code Assignment," with the responsibilities outlined in the proposal.

2. That the University Office of Administrative Data Processing be designated as the official University "Agency for Code Control," with the responsibilities outlined in the proposal.

These formal assignments of responsibility make no essential changes in the de facto operating procedures now in force. Their effect, primarily is to discourage individuals or organizational units from attempting to secure approval of special codes whose use would disrupt the uniform set of codes for data processing related to continuing University operations.

Dr. Holinger Named U. S. Delegate to International Congress

Dr. Paul H. Holinger, professor of bronchoesophagology, has been named one of two United States delegates to the ninth International Congress of Otorhinolaryngology. The congress, which meets every four years, will convene in August in Mexico City Dr. Holinger will head the section on bronchoesophagology for the meeting.

Use of I. D. Cards as Building Passes

The use of the plastic identification cards and the temporary authenticated nonacademic cards as building passes has been approved by Chancellor Begando following the recommendation by an ad hoc committee.

Chancellor Begando's statement:

"Recently, a question was raised concerning the need to issue at the Medical Center campus the Building Pass' card which has been used in previous years. It was suggested that the new plastic identification card and the temporary, authenticated nonacademic card could be used as a substitute for the 'Building Pass' card. Having received this suggestion, I asked a small ad hoc committee of those who would be directly concerned to discuss the matter and to report their recommendation to me. Based upon the recommendation received, 'Building Pass' cards will not be issued for the 1969-70 year."

Directive on Travel Vouchers

David W. Bonham, Director of Business Affairs, has issued the following directive on travel vouchers:

"For several years, miscellaneous expenditures exceeding $3.00 entered on travel vouchers were required to be supported by receipts.

"Effective January 1, 1969, only such items which exceed $10.00 will require supporting receipts."

C
IIc.6Mc

SEP 10 1969

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
OCT 21 1969
UNIVERSITY OF ILLINOIS

No. 25 August 8, 1969

The following two items were presented to, and approved by, the Board of Trustees of the University of Illinois at its July 23, 1969 meeting held at Urbana-Champaign:

Reorganization and Expansion of the College of Medicine

The Board of Trustees at its meeting on October 16, 1967, approved in principle a set of proposals for the expansion of the University's programs in the health professions That statement was used as the basis for the preparation of a comprehensive report entitled Proposals for the Expansion of Education in the Health Professions--1967-1980, which was presented to the director of the Board of Higher Education's study of education in the health fields on December 13, 1967. Most of those proposals were substantially endorsed in the final report of the study issued by the Board of Higher Education under the title Education in the Health Fields for State of Illinois (June, 1968).

Prominent among the University's plans was a massive program for the expansion of professional education in medicine at three levels: the curriculum for the M.D. degree, internship-residency training, and continuing (postgraduate) education of physicians.

Funds for initial implementation of these plans have been included in the University's capital and operating budget requests for 1969-70. The latter have been approved by the Board of Higher Education, and funds have been appropriated by the General Assembly.

In the light of these developments, the College of Medicine now seeks authorization from the Board of Trustees to institute organizational and administrative arrangements through which the expanded program in medical education would be developed and conducted. It is proposed that the College be reorganized in the following fashion:

1. The establishment of several semiautonomous "schools" of moderate size within the College of Medicine, each with its own dean, faculty, and system of internal governance. (Provision for the establishment of schools within a college is made in Section 10 of the University of Illinois Statutes.)

2. The title of the Dean of the College of Medicine would be changed to "Executive Dean." His responsibilities would continue to be essentially those described in Section 9 of the Statutes, except that his internal administrative relationships would be primarily with deans of schools rather than with executive officers of departments. As Executive Dean, he would continue to report to the Chancellor for the Medical Center campus.

3. The College of Medicine would adapt its committee structure and other aspects of internal governance so as to have the "school" replace the "department" as the primary organizational unit at college level. Appropriate representation on College committees and other college-wide agencies would be assured to the several schools.

4. Each school would have a dean--who would report to the Executive Dean of the College--and its own faculty, committees, departments, and student body. It would conduct its own educational, research, and service programs with

a significant degree of autonomy, within the framework of the Statutes. Each school would be encouraged to develop programs responsive to the special interests and needs of its faculty, student body, and public.

Two types of schools would be established: (a) Schools of Basic Medical Sciences; (b) Schools of Clinical Medicine.

5. The Schools of Basic Medical Sciences will promote basic knowledge and the understanding of sciences relevant to preparation for careers in dentistry, medicine, nursing, pharmacy, and associated medical fields, and stimulate and support an interest in teaching and research among undergraduate students, graduate students, and faculty. It is anticipated that the typical curriculum for medical students will be one year.

   The first School of Basic Medical Sciences will be established at the Medical Center campus and will comprise the present Departments of Anatomy, Biological Chemistry, Microbiology, Pathology, Pharmacology, and Physiology.

6. Schools of Clinical Medicine would be established to offer to students transferring from the Schools of Basic Medical Sciences a three-year curriculum for completing the work for the M.D. degree. One of the clinical schools would include the regular faculty and departments of the clinical divisions of the present College of Medicine that are based at the University of Illinois Hospital. The latter and certain affiliated hospitals would provide the primary training and research facilities used by this school (temporarily designated as "School B").

   One additional school would be established during 1969-70 in the Chicago area, with faculty and training facilities to be provided primarily from the staff or staffs of affiliated hospitals. Pending the completion of hospital and staff arrangements for the conduct of this school, it is designated simply as "School C."

   As resources and enrollment expand, and as other circumstances might justify, it is anticipated that additional clinical schools will be established in regions outside Chicago, including Peoria and Rockford. These schools would emerge from "clinical centers" which are proposed in the next section.

7. The University's program of expansion for the College of Medicine calls for the creation of regional clinical centers which would ultimately conduct the clinical portion of training for the M.D. degree, internship-residency training, and continuing education for physicians. The order of development of these three functions, however, is the reverse of that just listed; "undergraduate" medical education would not be offered until the necessary resources of faculty and facilities had been developed through programs of continuing education and internship-residency training.

   Preliminary planning has already been done looking toward the establishment of clinical centers in Peoria and Rockford during 1969-70, and it is proposed that they be formally authorized by Board action.

The foregoing plans have been developed by several planning committees of the College of Medicine, with assistance from a committee at the Urbana-Champaign campus. The plans outlined above have been approved by the Executive Committee and the faculty of the College of Medicine, the Medical Center Senate, and the Senate Coordinating Council. They are endorsed by the Chancellor at the Medical Center campus and by the Executive Vice President and Provost. Funds for the initial steps towards the implementation of the program have been appropriated by the General Assembly.

New Hospital Affiliations for the College of Medicine

The Board of Higher Education's report, Education in the Health Fields for the State of Illinois, recommends that the University's of Illinois College of Medicine expand its program of medical education by use of existing clinical facilities in regions throughout the State of Illinois.

The University's 1969-70 budget for operations includes funds for the initiation of definitive planning in this direction, in cooperation with three hospitals (St. Anthony's, Swedish American, and Rockford Memorial) in Rockford and three hospitals (St. Francis, Methodist, and Procter) in Peoria. To implement further the recommendations of the Board of Higher Education, twenty-two hospitals in the Chicago Metropolitan Area that had expressed interest in affiliation with the College of Medicine have been surveyed by the Vice Chancellor at the Medical Center Campus. With six of these hospitals--namely Illinois Masonic, Lutheran General, Mercy, Louis a. Weiss Memorial, Ravenswood, and A. MacNeal Memorial--discussions have proceeded to the point where the development of educational programs would seem to be feasible.

The Dean of the College of Medicine, the Chancellor at the Medical Center campus, and the Executive Vice President and Provost recommend that the Dean of the College of Medicine be authorized to proceed with affiliation negotiations with each of the hospitals designated above. Formal agreements would be brought to the Board of Trustees for approval. (This recommendation does not preclude the development of affiliation agreements with additional hospitals at some future date; nor does it alter in any way the existing affiliation arrangements of the College of Medicine with Cook County Hospital, Hines Veterans Administration Hospital, Presbyterian St. Luke's Hospital, the West Side Veterans Administration Hospital, and other institutions.)

Annual Operating Budget for 1969-70 Approved

A $268,931,510 budget for operations for the 1969-70 academic year has been approved by the Board of Trustees.

The board appropriated the biggest dollar increase to the Urbana-Champaign campus, but both the Medical Center and Chicago Circle again received larger percentage increases than the downstate campus.

The budget included $150,437,400 in unrestricted funds from general tax revenues, compared with $132,071,794 for 1968-69, reflecting cuts of $14,145,216 by the 1969 General Assembly. The board had asked the Illinois Legislature for $164,582,616 in such funds for operations.

The board's appropriations were based on $12,970,000 in university income for unrestricted use and $105,524,110 in restricted income. Restricted funds, all earmarked for special purposes, include gifts, grants, contracts, endowment income, federal appropriations, special state appropriations and income from auxiliary activities of the university such as housing, union buildings and bookstores.

Total anticipated income of $268,931,510 represented an increase of 14.4 per cent from the $235,107,413 for 1968-69.

State funds, both restricted and unrestricted, were up from $132,816,794 to $151,672,810, while non-state funds climbed from $102,290,619 to $117,258,700.

Of the total increase of $33,824,087, including $22,960,606 in general funds and $10,863,491 in restricted funds, $15,338,880 was allocated to Urbana-Champaign; $9,168,105 to the Chicago Circle; $7,838,321 to the Medical Center; $1,184,621 to the general university, and $294,170 to reserves.

In comparison to last year's appropriations, the increases amounted to 18.1 per cent for the Medical Center, 18.8 per cent for the General university, 27.7 per cent for Chicago Circle and 10.1 per cent for the Urbana-Champaign campus.

Total appropriations (1968-69 figures in parentheses): Urbana-Champaign, $167,588,450 ($152,249,570); Medical Center, $51,257,037 ($43,418,716); Chicago Circle, $42,228,811 ($33,060,706); general university, $7,495,426 ($6,310,805), and reserve $361,786 ($67,616).

The $22,960,606 increase in appropriations from unrestricted funds included: $8,999,289 for the Urbana-Champaign campus; $7,542,905 for Chicago Circle; $5,804,321 for the Medical Center; $319,921 for the general university, and $294,170 for reserves.

The budget anticipated a decrease in federal appropriations from $5,886,737 to $5,854,000, and an increase in student fees from $6,749,000 to $11,737,600. Endowments, gifts and contracts were expected to produce $48,044,400, compared with $40,843,500 last year. Additional endowments, gifts and contracts earmarked for student aid were expected to increase from $5,735,000 to $6,622,000. Total appropriations for student aid were up from $6,395,000 to $7,349,828.

Board appropriations totaled $268,569,724--$361,786 less than anticipated general income. Last year's reserve was $67,616.

Dr. Lichter Heads Department of Preventive Medicine and Community Health

The appointment of Dr. Edward A. Lichter as professor and head of the Department of Preventive Medicine and Community Health in the College of Medicine has been approved by the Board of Trustees. The appointment was effective August 1, 1969.

Dr. Lichter has, since August of 1968, been associate professor of preventive medicine and community health and acting head of the department. He thus officially succeeds Dr. Adrian M. Ostfeld, who resigned from the University in July, 1968, to join the faculty at Yale University.

Dr. Lichter's nomination to head the department, recommended by the Dean of the College of Medicine, also received the approval of Chancellor Joseph S. Begando and Lyle H. Lanier, executive vice president and provost of the University.

Dr. Lichter received his Ph.B. (1947), from the University of Chicago and his M.S. (1951) and M.D. (1955), from the University of Illinois. He also received a B.S. (1949 from Roosevelt University. From 1958-61 he was a research assistant and instructor in the College of Medicine; from 1961-66 he was with the National Institutes of Health before returning to the University in September 1966 as an associate professor of preventive medicine and community health.

He is a faculty member and graduate student advisor in the Graduate College and is a member of the Executive Committee of the University Council for Urban Programs.

A member of numerous organizations, including the American Public Health Association, the Association Teachers of Preventive Medicine and both the American and Chicago Associations of Immunologists, Dr. Lichter is also the author or co-author of many articles and periodicals.

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

No. 26 October 27, 1969

Dr. Magraw Appointment as Associate Dean Approved

The appointment of Dr. Richard M. Magraw as associate dean and director of program planning and development in the College of Medicine was approved by the University of Illinois Board of Trustees at its September 15 meeting at Allerton Park.

Dr. Magraw will coordinate the College of Medicine's reorganization program that proposes creating semi-autonomous clinical schools at hospitals in the Chicago area and in Rockford, Peoria, Urbana-Champaign, Decatur and Moline-Rock Island.

Dr. Magraw comes to the University following a year as Deputy Assistant Secretary for Health Manpower in the federal Department of Health, Education and Welfare.

A graduate (B.S.) of the University of Minnesota (1939), Dr. Magraw received his M.D. (1944) from the same school and holds training in three medical specialty programs: surgery, psychiatry, and internal medicine.

He was a member of the medical faculty at the University of Minnesota from 1950 until he took a leave of absence in 1967. He was named assistant dean at the University of Minnesota medical school in 1959.

During the first year of his leave, Dr. Magraw was assistant director for the U.S. Public Health Service Bureau of Health Service for Extramural Relations.

In 1966 he received the Norman Welch Award from the National Association of Blue Shield Plans for "distinguished writing in medical care and medical economics" in a book Ferment in Medicine.

Three Positions Filled at Chicago Illini Union

Three positions at the Chicago Illini Union--Housing Director, Business Manager of the Auxiliary Services Division and Assistant Program Director in Charge of Tours--have been filled effective October 1.

Jack K. Sims has been appointed as Housing Director of the Medical Center Campus. Mr. Sims, who received his B.S. from California State Polytechnic College (1959) comes to the University from Montana State University where he was the Director of Housing.

As Business Manager of the Auxiliary Services Division, R. Newton Pitts will assume campus parking responsibilities. The parking office will continue to operate in Room 230 of the Chicago Illini Union Building.

Miss Janet Carl as Assistant Program Director will be in charge of Campus Tours. Her office is in Room 245 of the Union building, telephone extension 7781.

Alumni Advisory Committee is Expanded

Membership of the Medical Center Alumni Advisory Committee has been expanded for the coming year, ending June 30, 1970. Expansion of the committee is in accordance with the wishes of the Board of Directors of the University of Illinois Alumni Association.

Members of the committee are:

Mr. Meyer Balin, Chairman; Miss Edna Anderson, Miss Joan Arteberry, Mr. David W. Bonham, Dr. Donald A. Boulton, Dr. Herschel L. Browns, Dr. Donald J. Caseley, Dr. Lawrence A. Fisher, Mr. David Ford, Dr. James E. Gearien, Mr. Carl T. Heinze, Mr. Clarence C. Leverenz, Mrs. Corrine Pezzatti, Dr. Theodore R. Sherrod, Mr. George Taylor, Dr. Robert B. Underwood, Dr. Gilbert White and Mr. Gerald R. Glau Associate Director of Alumni Affairs at the Medical Center, Staff Coordinator.

The Alumni Advisory Committee functions as a committee of the Board of Directors of the University of Illinois Alumni Association. Appointments to the committee are made by the Association president, Mr. Ralph Johns, for a one-year term.

Functions of the Alumni Advisory Committee are to:

1. Represent the University of Illinois Alumni Association Board of Directors on the Medical Center Campus.

2. Coordinate Activities of the various college alumni organizations at the Medical Center Campus with the University Alumni Association, so that the best interests of the University, as well as the Campus, are served.

3. Serve as an advisory body to the Associate Director of the Alumni Association at the Medical Center

Change of Administrative Status of the Survey Research Laboratory

The following was presented to, and approved by, the Board of Trustees of the University of Illinois at its September 17 meeting:

The Survey Research Laboratory was established by the Board of Trustees on June 17, 1964, as a unit within the Graduate College. At that time, this College was a single administrative organization--with University-wide jurisdiction over graduate study, and with supervisory responsibility for numerous research centers and facilities.

On January 17, 1968, the Board of Trustees approved a plan for the reorganization of the Graduate College under which a separate Graduate College was created at each campus. Subsequently, reassignments of administrative responsibility for various specialized units of the Graduate College have been approved by the Board.

In the light of the year's experience, and of continuing study of the problem, the Laboratory's Executive Committee recommended that the Laboratory remain a University-wide organizational unit, with the Director reporting to the Executive Vice President and Provost and with the continuation of an intercampus Executive Committee. This

recommendation was submitted by the Executive Vice President and Provost to the University Council on Graduate Education and Research, which endorsed it. The three chancellors have also indicated their approval.

Two Research Units Transferred to the Graduate College

The Medical Research Laboratory and the Research Resources Laboratory have been designated as special units of the Graduate College following the Board of Trustees approval of a recommendation made by Chancellor Joseph S. Begando. The transfer is in accordance with Section 18 of the University of Illinois Statutes.

The two laboratories have been in existence for many years, with their directors reporting directly to the Chancellor. Since the purpose of these units is to conduct or promote research in areas which are broader than the responsibility of any one department or college, it is believed they should more properly be administered as special units of the Graduate College.

The Research Board, the Executive Committee of the Graduate College and the Dean of the Graduate College were consulted and joined in the recommendation.

Employment of Consultant, Architect for Library of Medical Sciences

The following two items were approved by the Board of Trustees at its September 17 meeting:

(1) The President of the University, with the concurrence of appropriate administrative officers, recommends employment of Library Management and Building Consultants, Inc. of Glenview, Illinois in connection with the program planning for the proposed new Library of Medical Sciences. Funds have been appropriated by the Seventy-sixth Illinois General Assembly for complete architectural services for this building project.

The extimated fee of $15,400 would provide a revised program statement and would include two reviews of the architectural sketches developed by Holabird & Root, Chicago, architects for the new Library. A program consultant is recommended because of the many recent advancements in the library field, such as increases in the use of audio-visual materials, computerization of information with remote dial access, and new micro-filming techniques.

The Library will be a major resource to the State of Illinois as programs in the health fields are expanded; and consultation on the program statement is believed necessary to provide continuing operating efficiency and flexibility to accommodate future library innovation.

Funds are available from the Medical Center Contract Research Reserve.

(2) The President of the University, with the concurrence of appropriate administrative officers, recommends, subject to release of available funds by the Governor, the employment of Holabird & Root, Chicago, for complete architectural and engineering services for the construction of the Library of Medical Sciences at the Medical Center campus, at a fee of 5.8 per cent of the actual construction cost, including full-time,

on-sight supervision.

Funds for these services through working drawings are available in State capital appropriations to the University for Fiscal Year 1970, subject to release by the Governor.

The Advisory Committee on Architectural and Engineering Services has approved this recommendation.

Construction of the Library of Medical Sciences is estimated to begin in February, 1971, and be completed in December, 1972.

Retirement System Coverage While on Leave of Absence

Staff members who are going on Leave of Absence Without Pay and the purpose is other than military service should be sure to file an Election to Pay Contributions (currently 8 per cent) based upon the rate of salary on the date the leave begins. In this way, staff members can maintain protection under the State Universities Retirement System.

Failure to file the form can result in the loss of valuable disability benefit and survivors insurance protection, and the leave period cannot be considered in calculating retirement allowance.

A System member who is receiving disability benefits or workmen's compensation payments is not required to pay contributions to maintain his protection.

In the case of a Mr. John Doe, who was certified as a member of the Retirement System September 3, 1968, and was granted a leave without pay beginning April 29, 1969. The report of leave from the University was not received by the Retirement System until July 15, 1969. On July 16, the System received a report from the University that John Doe died on July 12. No election to pay contributions had been filed by Mr. Doe, and his widow lost the $5,000 death benefit from employer contributions.

While this case is not based on fact and is merely illustrative of what could happen, two similar cases have come to the attention of the Retirement System during the past three months.

Because the Retirement Law guarantees that a System member or his beneficiaries will receive total benefits at least equal to the member's contributions and interest credits the System member has little to lose and much to gain by paying the contribution during Leave of Absence Without Pay.

The System member must file his Election to Pay Contributions within 30 days after his leave begins. Upon approval of the leave, the form is sent to him by the campus Personnel Services Office.

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
FEB 25 1970
UNIVERSITY OF ILLINOIS

No. 27 December 8, 1969

Dr. Bogdonoff Named New Head of Department of Medicine

University of Illinois Board of Trustees approved the appointment of Dr. Morton D. Bogdonoff as professor and head of the Department of Medicine in the University's College of Medicine during the November 13 meeting at the Chicago Circle Campus. The appointment is effective January 1, 1970.

Dr. Bogdonoff, 43, is presently professor of medicine and assistant dean for graduate education at Duke University Medical Center.

He will succeed Dr. Harry F. Dowling who has announced his retirement, effective December 1, 1969.

Dr. Bogdonoff received his M.D. from Cornell University Medical College in 1948.

He was senior assistant surgeon in 1950-52 for the U.S. Public Health Service, National Heart Institute, Baltimore, and has spent a good portion of his career associated with the Duke University Hospital Department of Medicine and Medical School.

He became an associate professor of medicine there in 1959 and a professor of medicine in 1962. In 1967 he was appointed assistant dean for graduate medical education.

From 1955-56 he was attending physician and chief of the metabolic division of the Durham, N. C., Veterans Administration Hospital and also acted as a special consultant to the hospital from 1959-62.

Reorganization of Department of Neurology and Neurosurgery

The Board of Trustees has approved a recommendation, effective September 1, 1970, to establish separate departments of Neurology and Neurosurgery within the College of Medicine.

The recommendation, which is now subject to further action and approval by the Illinois Board of Higher Education, would replace the existing single Department of Neurology and Neurosurgery.

The proposed reorganization will establish improved administrative arrangements in the two fields for clinical service and consultation, for student-learning and resident-training programs, and for stimulation of clinic and basic neurological research.

Few medical schools now have combined departments of neurology and neurosurgery and several medical schools that do, are also in the process of dividing them.

The proposal to create separate departments recognizes the growth of both disciplines into distinctive specialties, each with its own certifying boards, and each with distinctive patient care, education and research programs.

Two New Department Heads Named in College of Medicine

The appointments of two new department heads in the College of Medicine were approved by the University of Illinois Board of Trustees during its October 15 meeting in Dixon Springs. The appointees are:

Dr. Alfred Nisonoff, professor of microbiology in the College of Medicine, as professor of biological chemistry and head of the Department of Biological Chemistry, effective November 1, 1969.

Dr. Keen A. Rafferty, an associate professor at The Johns Hopkins University School of Medicine, as professor of anatomy and head of the Department of Anatomy, effective March 1, 1970.

Dr. Nisonoff succeeds Dr. Stephen B. Binkley, who was named on September 1 (1969) as dean of the Graduate College.

Dr. Nisonoff received his B.S. (1942) from Rutgers University and his M.A. (1948) and Ph.D. (1951) from The Johns Hopkins University. He joined the faculty of the University of Illinois in 1960 as an associate professor of microbiology and became a full professor in 1962.

From 1954-1960 Dr. Nisonoff was involved in extensive research on cancer and was senior research scientist in this area at Roswell Park Memorial Institute, Buffalo, New York. He was also a research chemist for the United States Rubber Company.

Dr. Rafferty succeeds Dr. S.R.M. Reynolds, who resigned effective August 31 (1969). He received his B.S. (1950) from the University of New Mexico and his M.S. (1951) and Ph.D. (1955) from the University of Illinois. He was a teaching assistant in Zoology at the University from 1950-53 and a research assistant in this area from 1953-54.

He also served as a NIH postdoctoral fellow in the Yale University Department of Microbiology from 1955-57 and instructed there in 1958 before joining the Johns Hopkins faculty as an assistant professor in their Department of Anatomy. In 1966 he was made an associate professor of anatomy at the Johns Hopkins University School of Medicine.

Nonsalaried Faculty of the College of Medicine 1969-70

A total of 1,401 appointments and reappointments to the nonsalaried faculty of the College of Medicine for the academic year 1969-70, have been formally approved by the University's Board of Trustees.

The total is 137 more than the number approved in 1968-69. Of that number, 105 are emeritus members, one less than a year ago.

The breakdown, with the figures in parenthesis indicating the number of emeritus members, is as follows:

SUMMARY

Department	1968-69		1969-70	
Anatomy	7	(1)	8	(1)
Biological Chemistry	20		18	
Dermatology	26	(6)	33	(6)

Radiology	40	(1)	52	(2)
Surgery (including Urology and Anesthesiology)	236	(21)	233	(20)
TOTALS	1,264	(106)	1,401	(105)

Hospital Name Change is Now Official

Gov. Richard Ogilvie has signed Senate Bill 693, 79th General Assembly, which includes provision for the change in name of the Research and Educational Hospitals to University of Illinois Hospital.

Dr. Lawrence M. Solomon, Acting Medical Director of the Hospital, requests that the new title be reflected in letterheads when the hospital is identified on stationery and in any publication reference when association with the hospital is mentioned.

The bill also provides that the University of Illinois Hospital includes the Illinois Eye and Ear Infirmary. By agreement with the Department of Children and Family Services, the actual transfer to the University will be effective January 1, 1970.

New Associate Director for Alumni Affairs Named

Alan M. Scarnavack has been named the new associate director of alumni affairs for the Medical Center Campus.

He succeeds Gerald R. Glaub, who resigned to become director of publications and public relations for the Illinois Association of School Boards in Springfield.

Scarnavack, a 1962 graduate of the University of Illinois, has been a sales representative for International Business Machines Corp., for the last five years.

Scarnavack attended Leo High School in Chicago and then served in the Marine Corps. He has taken graduate courses at the U. of I. and also studied at Chicago-Kent College of Law.

In 1962-63 he taught social studies at Edison Junior High School in Champaign and then joined IBM.

The new alumni executive becomes one of four associates working under direction of James E. Vermette of Champaign, executive director of the 42,000-member Alumni Association. Another is in charge of alumni activities at Chicago Circle and two work from the Urbana-Champaign headquarters.

Federal Work-Study Program Funds Available

Currently the University has available funds from the Federal government for on-campus employment under the Federal Work-Study Program.

This program is for full-time students in good academic standing who are from families which cannot reasonably be expected to support thier children in college.

Students must make application and be certified as eligible under Federal regulations before they can be employed under this program. Students must reapply each year.

Under the provisions of the program, the employing department pays only 20 per cent of the student's salary. The remaining 80 per cent will be paid by funds from the Federal allocation. The departmental share must be charged to non-federal funds unless prior approval to use them is received in writing from the Federal agency which granted the funds.

Any type of work in University Departments will qualify. Some examples are: food service, clerical, laboratory assistant and research assistant. A student may work 40 hours per week during vacation periods, but only 15 hours per week while classes are in session.

Persons wishing to employ students under this program during spring quarter or early summer should notify Dr. Mary Elizabeth Reeves (Room 115-DMP) giving the number of positions available and the job requirements.

JAN 2 0 1970

CAMPUS REPORT

THE LIBRARY OF
FEB 25 1970
UNIVERSITY OF ILLINOIS

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

No. 28 January 12, 1970

Dr. Grove Appointed Executive Dean

The appointment of Dr. William J. Grove, Dean of the College of Medicine, as Executive Dean of the College of Medicine was approved by the University of Illinois Board of Trustees at its December 17 meeting at Urbana.

Dr. Grove has served as Dean of the College of Medicine since March 1, 1968. His new appointment, effective January 1, 1970, is one of a series of steps in the implementation of the plan for reorganization and expansion of the College of Medicine that was approved by the Board of Trustees at its meeting on July 23, 1969. The Illinois Board of Higher Education approved the plan on November 4, 1969.

The reorganization plan authorizes the establishment of semiautonomous "schools" within the College of Medicine, each with its own dean. Dr. Grove will become Executive Dean of the reorganized College.

The Abraham Lincoln School of Medicine Established

As a further step in the implementation of the plan of reorganization the Board of Trustees also approved the recommendation that the first of the semiautonomous "schools" be established as of January 1, 1970, and that it be named "The Abraham Lincoln School of Medicine." The new school will comprise all of the clinical departments within the present College of Medicine. (It has been decided not to include the term "clinical" in the names of the schools responsible for the last three years of the revised medical curriculum ----although this usuage had been indicated in the proposals submitted to the Board of Trustees on July 23, 1969.)

Dr. Schmidt Appointed as Dean

The Board of Trustees approved the appointment of Dr. Alexander M. Schmidt, Executive Associate Dean of the College of Medicine, as Dean of The Abraham Lincoln School of Medicine beginning January 1, 1970.

The Center for Educational Development

Establishment of the Center for Educational Development was approved at the December Board of Trustees meeting. The Center will combine the functions performed by the Office of Research in Medical Education and the Center for the Study of Medical Education.

The Center for Educational Development will be organized and administered as a unit of the Office of the Executive Dean of the College of Medicine. Dr. George E. Miller Professor of Medicine in charge of the Office of Research in Medical Education and the Center for the Study of Medical Education, will serve as Director of the Center for Educational Development.

The new Center will be responsible for continuation of fundamental research in medical education; provision of assistance in development of curriculum strategy and tactics to the faculties of the several schools within the College, instructional and evaluation methods; instruction of new faculty members in educational process, particulary in the clinical centers, and the new schools of clinical medicine.

Office of Educational Resources

A proposal to establish an Office of Educational Resources also was approved by the Board of Trustees. Responsibility for further expansion of television and other audio-visual technology in support of the rapidly expanding educational program of the Medical Center Campus will be assigned to the Office of Educational Resources which will also have as its Director, Dr. George E. Miller.

The establishment of the new Office will occur primarily from a reorganization of functions now conducted under the Illustration Studios. It will be organized and administered as a unit of the Office of the Chancellor, will have as its immediate mission the development and operation of a telecommunication network that will link the Medical Center Campus to its extramural clinical centers and affiliated hospitals. The network and its associated facilities will be used to conduct programs of continuing education, house-staff training and teacher education.

In addition the Office of Educational Resources will maintain and improve the existing programs of instructional television for all colleges and departments at the Medical Center Campus.

Dentistry College Affiliation with Illinois Masonic

An affiliation agreement between the College of Dentistry and the Illinois Masonic Medical Center was approved by the Board of Trustees.

Under the agreement, certain resources of the Illinois Masonic Medical Center will become available to support the educational programs of the College of Dentistry. The affiliation does not commit the University or the Illinois Masonic Medical Center to financial obligations, and each party will remain in control of its respective instructional programs.

The Illinois Masonic Medical Center has begun a family health care demonstration project oriented toward total patient care, but lacking desired comprehensive dental service. The affiliation provides an ideal community environmental experience.

The program will also provide clinical clerkships in hospital dentistry for third and fourth year dental students and additional facilities for rotation of the post-D. D. S.

students who are training in the various dental specialties.

Headship of the Department of Ophthalmology

Dr. Morton F. Goldberg has been named professor and head of the Department of Ophthalmology in the College of Medicine. The appointment was approved by the Board of Trustees at its December meeting.

Dr. Goldberg presently is a Research Fellow in Genetics in the Department of Medicine at The Johns Hopkins University. He earned his A. B. degree (1958) at Harvard College and his M. D. (1962) at Harvard Medical School.

Dr. Goldberg's appointment is effective January 15, 1970. He succeeds Dr. Peter C. Kronfeld, who retired August 31, 1968.

Acting Medical Director for U. of I. Hospital

Dr. Alexander M. Schmidt, Dean of The Abraham Lincoln School of Medicine, has assumed the additional responsibility of serving as Acting Medical Director of the University of Illinois Hospital for an interim period beginning December 1, 1969.

In accordance with previous arrangements, Dr. Lawrence M. Solomon, Acting Medical Director of the Hospital, returned to his full-time assignment in the Department of Dermatology.

The faculty Consultative Committee under the chairmanship of Dr. Lloyd M. Nyhus is continuing its review of potential candidates for the position of Medical Director of the University of Illinois Hospital.

Assistant Dean for the Graduate College

Dr. Ralph Daniels, Professor of Chemistry in the College of Pharmacy, has been appointed Assistant Dean of the Graduate College at the Medical Center Campus. The appointment was effective January 1, 1970.

A native of New York City, Dr. Daniels joined the University of Illinois in 1952 as an Assistant Professor of chemistry. He was named an Associate Professor in 1958 and attained the rank of Professor in 1963.

Earlier Dr. Daniels had been an instructor in chemistry at Purdue University (1951-52) and a post-doctoral fellow at the University of Wisconsin (1950-51).

An author of two books and numerous articles and the holder of three patents, Dr. Daniels earned his A. B. degree at Brooklyn College (1944) and his M. S. (1949) and Ph. D. (1950) degrees at Harvard University.

Directorship of the Library of Medical Sciences

Miss Wilma Troxel has determined that she will retire from the directorship of the Library of Medical Sciences August 31, 1970. It becomes necessary, therefore, to undertake the difficult task of selecting her successor.

According to University custom, the search for suitable candidates will be conducted by a special consultative committee. Dr. George E. Miller will serve as chairman.

Other members of the committee are:

Dr. Charles R. Berg, Miss Joan Campbell, Dr. Kenneth N. Furlong, Miss Rose Ann Grundman, Dr. Frances B. Jenkins, Dr. Adolph Rostenberg, Dr. Gertrude A. Stokes and Dr. Arnold V. Wolf.

Policy on Delivery of Pay Checks

David W. Bonham, Director of Business Affairs, offers the following statement of policy as it pertains to the delivery of pay checks on the Medical Center Campus.

At present, monthly paid employees are paid once a month on the first workday following the close of the month for which payment is being made; and hourly employees are paid biweekly---every other Wednesday.

If payday occurs during an employee's scheduled vacation, the only courses of action which are available to him are as follows:

1. He may come in on the scheduled payday and pick up his check.

2. He may leave with the payroll division in the Office of Business Affairs a pre-addressed stamped envelope so that the check may be mailed to him on payday.

3. He may leave a pre-addressed stamped envelope to the bank of his choice with an enclosed deposit slip so that on payday his check may be sent to the bank for deposit.

UNIVERSITY OF ILLINOIS

No. 29 January 20, 1970

Medical Center Campus Parking Status Report

Virtually all persons who drive to the campus and a good number of others have experienced frustration this past fall with the twin disruptions of the Polk Street Sewer Project and the campus parking shortage. This report from Clarence C. Leverenz, Director of Auxiliary Services, discusses the problems, current developments and plans for the future.

The fundamental parking problem, of course, has been insufficient space. It is true that parking space was lost due to the Polk Street Project and building construction (the largest loss being the new College of Dentistry site). However, this situation was anticipated and other parking was planned well in advance.

The difficulties came when we failed to receive the two new lots which had been counted upon to meet Fall needs. The new lot south of the College of Nursing building was to have been available by October. The Medical Center Commission land south of the Staff Apartments along Ashland (to Taylor) had been promised by July and it had been planned that a large parking lot would be operational by September. If these two areas had been available as planned the parking problems would have been offset.

A great deal of unseen effort was expended in attempting to make the best of the difficult situation last Fall, but with the absolute of cars exceeding spaces available, the problem was frustrating at best.

A. Current Developments

Fortunately, we are now about to see the fruits of several months of dedicated work by: Mr. R. Newton Pitts, the Parking Administrator; by members of his staff; by Mr. William G. Mays, Physical Plant Superintendent of Operations, and his staff; by members of the Physical Plant Planning and Construction Division; and by others.

1. On January 5, expanded Lot G-1 will open. This is east of the Staff Apartments and Nurses Apartments including the site of the former fraternity properties. It will be a key card (controlled access) lot for 113 parkers (56 existing parkers, 57 new parkers). Those students, faculty, and staff members who were eligible for assignment to this lot by virtue of their position on the waiting list have been notified.

2. A temporary rock surface is being placed on Polk Street from Wood to Winchester before January 5. Similar temporary surfacing to Damen is to follow as soon as possible thereafter. The return of parking from Ashland to Damen on Polk and related streets which were disrupted during the Fall Quarter means approximately 200 more spaces will be available in and near the heart of the campus. Street parkers have traditionally been the early morning arrivers to the campus. During the sewer construction many used the cash lots. Consequently, we feel that as they return to street parking more of the existing cash parking lots space will become available for University personnel who arrive later in the morning and for campus visitors.

3. Arrangements are being completed for a special attendant manned, hourly rate lot to operate on the tennis courts during daytime hours Monday--Friday. This lot is expected to open during the first week of the Winter Quarter and, if needed, will continue until April 1 when the courts must be vacated for physical education and recreation usage. This lot is intended especially for job applicants, clinic patients, campus visitors, and other high turnover users. Mr. Pitts, who is responsible for the day-to-day parking operations, will issue additional information later regarding the exact opening date, operating hours, etc.

4. Earlier this month the Medical Center Commission finished clearing the land along Ashland Avenue to Taylor Street. This past week the Commission voted to give the University title to this land. This was the major breakthrough we have been waiting for. Although related legal transactions must be completed construction arrangements have already been initiated. This area will become the new G-3 Lot, incorporating the present 84 spaces along Marshfield with 245 new spaces extending to Ashland. The lot will be operated on a cash basis in order to serve the maximum numbers of parkers. A temporary rock surface will be used. It is difficult to predict an opening date with winter weather upon us; however, barring lengthy weather delays the lot will open in a matter of weeks rather than months.

5. The new A-3 Lot south of the College of Nursing building (74 spaces) will become available for development as soon as the contractor completes his "punch list" items (a number remain even though the building is occupied). Hard winter will probably set in before we gain access so surfacing may be difficult. Although it thus may be warm weather before full University usage is possible, this lot stands as a valuable "future". Since usage is some time away we request that your inquiries about this lot be held until all arrangements have been confirmed. Mr. Pitts will provide you with final information on this lot at the appropriate time.

B. Long-range Developments

Space does not permit description of all long-range plans and considerations. However, you should know:

1. Attempts are being made to obtain land west of Damen Avenue. This will be necessary in order to handle parking needs in the early 1970s inasmuch as new building construction will make persistant inroads into central campus surface parking areas.

2. A program is being developed for an on-campus multilevel parking structure. Exact plans will be the product of a feasibility study and review by professional parking consultants. However, it is expected that the structure will have a capacity of 1,000 plus cars and will open in 1973 or 1974.

   NOTE--it should be realized that there will be a price tag for this location and convenience. Structure parking costs several times more than surface parking. Surface areas are being used as long as practical to minimize costs but, as the campus grows, parking structures seem to be the only realistic way to meet convenience and location requirements.

3. A negative but realistic note--parking is essentially a self-supporting operation. By policy of the State Board of Higher Education users should pay rates sufficient to cover operating, reserves, and developmental costs. Present parking rates are decidedly

lower than commercial rates. With recent cost escalations our rates are inadequate to provide funds for the type of parking program which the campus should have. Parkers should expect a rate increase next Fall and as often thereafter as necessary to meet operating costs, to provide funds for planning new facilities, for construction expenses, etc. Such rate increases will be necessary if needs are to be met.

4. Negotiations began this Fall toward initiating parking research and obtaining professional consultation. It is felt that a study should be made of both long-range parking needs and the total future transportation needs of the Medical Center campus.

5. Consideration is also being given to distribution of a parking questionnaire; the use of parking meters in certain zones, the application of new parking technology, different rate structures, etc.

If you have questions regarding ongoing parking matters please contact the Parking Office of Mr. R. Newton Pitts, the Parking Administrator. Information on long-range plans will be incorporated into general University planning material and will also come to you in the form of subsequent special releases.

Committee for Pre-Employment Health Examinations

Dr. Lyle H. Lanier, Executive Vice President and Provost of the University of Illinois, has asked a special committee to study the University's regulations and procedures relative to the pre-employment health examination now required for new employees on all three campuses.

The committee, headed by John W. Briscoe, Vice Chancellor for Administrative Affairs, Urbana-Champaign Campus, will submit recommendations they deem appropriate.

Other members of the committee are:

Dr. Donald J. Caseley, Vice Chancellor, Medical Center; Dr. Marvin J. Colbert, Director of the Health Service, Medical Center; Dr. Laurence M. Hursh, Director of the Health Service, Urbana-Champaign; Dr. John E. Kysar, Director of the Health Service, Chicago Circle; and Alfred P. Maurice, Associate Dean of Faculties, Chicago Circle.

Future Changes in Grading System

Following receipt of recommendations of an ad hoc committee to study the University's grading system, Provost Lanier has now authorized the use of recommended guidelines for making future changes in the grading system. These guidelines are as follows:

1. Any proposed change to the letter grade system as presently authorized, or the numeric equivalents of letter grades, which originates on any campus should require authorization of the Board of Trustees, following consideration by the Senates of the three campuses and the University Senates Conference. Consideration by the campus Senates should occur after a review by the respective Senate Committees on Grading or other appropriate Senate Committees.

2. Changes to the "auxiliary symbols" in the grading system should require authorization of the campus Senate only. This action would, through the University Senates Conference, be reported to the other Senates for their information. Any proposal to replace the letter grades with auxiliary symbols should, however, follow the steps in (1) above.

3. Changes in the administrative regulations concerning the "auxiliary" symbols may be authorized by the chief educational officer of the campus concerned.

Should the faculty of any of the Colleges at the Medical Center campus wish to propose changes in the grading system now in use, these guidelines are to be followed.

Gifts and Grants, A Year-End Report

University of Illinois received $75,865,089 in gifts and grants from outside sources--an increase of $7,685,358--during the fiscal year which ended June 30, 1969, a year-end report showed.

This total compares to $68,179,732 received in fiscal 1968.

Most of the increase was in the amount received by the university in funds from the federal government for contract research and other services. This year's total was $63,367,425, which was $7,449,175 greater than sums received in the preceding 12 months.

Funds from contracts with State of Illinois agencies amounted to $2,097,609 as compared to a 1968 total of $1,806,078.

Gifts from private donors totaled $10,400,056, about the same as the $10,455,404 received the year before.

THE SUMMARY

Funds from Private Donors: To the University for Medical Center Campus, $950,156.51; Urbana-Champaign Campus, $6,593,219.14; Chicago Circle Campus, $132,023.17; and University of Illinois Foundation, $2,724,656.72. (Total: $10,400,055.54)

Funds from United States Government: Medical Center Campus (Includes $39,799 from National Defense Education Act, $424,242 from Health Professions Act, $36,000 from Nurses Training Act for student loans), $9,438,535.75; Urbana-Champaign Campus (Includes $862,418 from National Defense Education Act, $81,000 from Health Professions Act for student loans), $47,921,260.68; and Chicago Circle Campus (Includes $161,140 from National Defense Education Act, $68,000 from Educational Opportunity Grants for student loans), $6,007,628.36. (Total: $63,367,424.79)

Funds from Contracts with State of Illinois Agencies: Medical Center Campus, $444,631.48; Urbana-Champaign, $1,570,151.47; Chicago Circle Campus, $82,825. (Total: $2,097,608.88)

CAMPUS REPORT

from the Office of the Chancellor
University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
MAR 31 1970
UNIVERSITY OF ILLINOIS

No. 30 February 23, 1970

Dr. H. Martin Engle to Head U. of I. Hospital

The appointment of Dr. H. Martin Engle as the new Medical Director of the University of Illinois Hospital, effective February 1, 1970, was approved by the University of Illinois Board of Trustees at its January 21 meeting at the Medical Center Campus.

Dr. Engle, a distinguished medical administrator, has since 1966 been Chief Medical Director for the Veterans Administration. A career physician with the VA since 1946, his area of responsibility has included directorships of VA hospitals at Salt Lake City, Utah; Denver, Colorado; and Los Angeles, California.

Dr. Engle will also serve as Vice Chancellor at the Medical Center Campus and as Associate Dean of The Abraham Lincoln School of Medicine within the reorganized College of Medicine. In his role as Vice Chancellor, Dr. Engle will be available for consultation to all colleges at the Medical Center Campus concerning hospital and health agency affiliations, and for other duties as assigned by the Chancellor. As Associate Dean, he will serve as liaison officer for educational matters between the University of Illinois Hospital and The Abraham Lincoln School of Medicine.

A native Chicagoan, Dr. Engle received his M.D. (1939) from the University of Illinois College of Medicine.

He is president-elect of the Association of Military Surgeons, is a diplomate of the American Board of Internal Medical, a fellow of the American College of Hospital Administrators and the American College of Physicians and is a member of the American Medical Association.

He was the recipient of the VA Exceptional Service Award -- the organization's highest -- in 1964 and in 1969 was nominated for the Rockefeller Public Service Award.

During his career with the VA he has been a member of numerous important medical bodies, among them the President's National Advisory Commission on Health Manpower and the Federal Task Force on Health. Others included the National Advisory Health Council of the Office of the Surgeon General, U.S. Public Health Service; the Board of Regents, National Library of Medicine; and the Executive Council, Association of Military Surgeons.

He also served during this period as a member of the Board of Governors of the American College of Physicians and as a member of the AMA House of Delegates.

He is a lecturer and author of note and in 1968 delivered a major address in conjunction with the University's Centennial, entitled "The Expanding Role of the Veterans Administration in Meeting the Health Manpower Needs of the Nation."

Dr. Engle is married and has two children, including a married daughter, Mrs. William Flesner, of Caracas, Venezuela and another daughter, Paige, 17.

Dr. Daniels Named Assistant Dean of the Graduate College

Dr. Ralph Daniels, professor of chemistry in the College of Pharmacy, has been appointed assistant dean of the Graduate College. The appointment was effective January 1, 1970.

A native of New York City, Dr. Daniels joined the University of Illinois in 1952 as an assistant professor of chemistry. He was named an associate professor in 1958 and attained the rank of full professor in 1963.

Earlier, Dr. Daniels had been an instructor in chemistry at Purdue University (1951-52) and a post-doctoral fellow at the University of Wisconsin (1950-51). From 1944 to 1946 he was a research chemist at the Givaudan Delewana Research Institute.

In 1961-62 he was a visiting scientist at the Chester Beatty Research Institute at the University of London.

An author of two books and numerous articles and the holder of three patents, Dr. Daniels earned his A.B. degree at Brooklyn College (1944) and his M.S. (1949) and Ph.D. (1950) degrees at Harvard University.

He is a member of a number of professional and honorary groups including the American Chemical Society, the Chemical Society of London, Sigma Xi, Rho Chi, the Organic and Medicinal Chemistry Divisions of ACS and the American Association of University Professors. He is listed in the American Men of Science and the World Who's Who in Science.

Phemister Named Director of Administrative Studies Office

Larry L. Phemister, a former U.S. Naval officer with a background in mathematics and administrative data processing, has been named director of the Office of Administrative Studies at the Medical Center Campus. He assumed his duties on February 2.

In his new position, Phemister will help make analyses that identify the costs of various educational and public service programs provided by the Medical Center Campus.

Much of the collecting, sorting and storing of data used to make these analyses is done by computer.

Phemister comes from the University's Urbana-Champaign Campus where he spent the past three years as a management methods analyst in the University's Office of Administrative Data Processing.

A native of Mt. Vernon, Ill., Phemister was graduated from the U. S. Naval Academy in Annapolis, Md. in 1960 and served as an officer (including Viet Nam) until August, 1965.

He applied his naval engineering training as an associate development engineer with Honeywell, Inc. in West Covina, Calif. until May, 1966, when he took an academic leave to complete work on a master's degree in systems engineering at West Coast University in Los Angeles.

After receiving his master's Phemister returned to Illinois in January, 1967 to assume his position with the University.

While on active duty with the Navy, Phemister spent some of his time as an instructor of destroyer officers in the U.S. Fleet Anti-Submarine Warfare School.

While in Viet Nam, he received a citation from the commander-in-chief of the U.S. Pacific Fleet for helping prevent the sinking of the USNS Card following an explosion of a Viet Cong mine in Saigon Harbor May 6, 1964.

Inter-Campus Courier Service

Daily round trips are made Monday through Friday between Chicago and Urbana-Champaign to carry University mail, parcels, etc., between the three campuses.

The routine pickup points for these materials are as follows:

Medical Center Campus:

Mail Room vestibule, basement, General Hospital (Deposit Box) and the First Floor, College of Pharmacy Building (Deposit Box)

Chicago Circle Campus:

First Floor University Hall (Deposit Box); First Floor Science & Engineering Office Building (Deposit Box); Services Building (Mail Room)

Moderate sizes and quantities of University mail going to the Urbana-Champaign campus will be picked up during the day by University mail messengers at departmental pickup points. Such mail will reach Urbana during the evening of the day it is picked up, as will mail deposited at any of the above points.

Departments may make arrangements to send larger quantities of mail or parcels by calling the Mail Rooms (Medical Center - Ext. 6794, Chicago Circle - Ext. 2885) or the Transportation Section (Ext. 2842).

Material not pertaining to University business will not be carried.

In addition to the above pickup points, the courier handles book exchanges between the Libraries at the three campuses. Library personnel should be consulted for information regarding this service.

The courier deposits mail at the Urbana Physical Plant Service Building and parcels at the Urbana Business Office Receiving Station. Urbana personnel distribute mail and parcels on that campus.

Mail going to Urbana via the courier requires no postage. It should be addressed to the person for whom it is intended and be clearly marked: "Urbana - Via Shuttle Service"

Special arrangements may be made for handling of materials via the courier service by calling the Mail Rooms or the Transportation Section at the numbers listed above.

Implementation of Legislation Relating to Campus Disorders

The Board of Trustees, during its January 21 meeting, adopted guidelines in accordance with new state and federal legislation for setting up special administrative panels to rule on the withdrawal of state scholarships and other financial aid from students guilty of involvement in campus disorders. The procedures are as follows:

A. State and Federal legislation requiring disqualification for or withdrawal of financial aid will be implemented by the University through a system separate from and independent of other University procedures.

B. Denial or termination of financial aid as required by the legislation will occur only after the applicant or recipient has had notice and an opportunity for hearing.

C. At each campus, the Chancellor, on behalf of the President, will be responsible for the initiation and disposition of such matters within the guildlines here established.

D. Machinery for implementation will have the same basic structure at each campus, as outlined herein.

E. Referral to hearing will be by the direction of the Chancellor. (If a referral under S. B. 191 is contested, the Chancellor shall consult with the President.)

F. At each campus a hearing panel will be appointed annually by the Chancellor on behalf of the President.

G. The panel will hear and decide all cases referred by the Chancellor, and its decision shall be final unless appealed.

H, Any applicant or recipient may appeal the decision of the hearing panel to the Chancellor for review, and the Chancellor's disposition on review shall not be subject to further appeal or review.

I. Each Chancellor will develop procedures for initiation, presentation, hearing and appeal of cases. Hearing and appeal procedures will be subject to the approval of the University Counsel for legal sufficiency.

CAMPUS REPORT

from the Office of the Chancellor

University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE
APR 28 1970
UNIVERSITY OF ILLINOIS
AT URBANA-CHAMPAIGN

No. 32 March 26, 1970

U. of I., Presbyterian-St. Luke's End Long Affiliation

Two new educational programs for increasing the numbers of physicians and other health workers in the State of Illinois have been disclosed by the University of Illinois and Rush Presbyterian-St. Luke's Medical Center. Development of the new programs, approved recently by the State Board of Higher Education and its Health Education Commission, was made possible by the resources which have resulted from an historic 30 year old affiliation agreement between Presbyterian-St. Luke's Hospital and the University of Illinois for the purpose of educating physicians. The new programs, which will lead to a termination of this agreement, establish opportunities for greatly increased enrollment and evolution of new modes of interinstitutional cooperation.

1. In recent actions, Trustees of Rush Medical College signed an agreement of merger with Presbyterian-St. Luke's Medical Center, forming a new corporation known as Rush Presbyterian-St. Luke's Medical Center. The new Medical Center was created to reactivate the Rush Medical College charter and to re-establish a program of instruction in undergraduate medical education. From 1837 to 1942, Rush Medical College was well known throughout the world and awarded thousands of medical degrees. In 1942, Rush programs were merged with those of the University of Illinois, and the affiliation agreement between the two institutions was signed. The agreement was unique in being one of the few affiliations for educational purposes between a private hospital and a public instutition of higher learning. The affiliation agreement is slated to end prior to the fall of 1971, when Rush Medical College plans again to enroll medical students. Eventually, Rush plans the expansion of its College into a Rush Health University, with additional programs to include the undergraduate and graduate training of a wide variety of health professionals.

2. Earlier this year, the University of Illinois College of Medicine reorganized into a series of basic science and clinical schools, in order to permit development of greatly expanded and more flexible educational programs for physicians. The actions by the University College of Medicine to double its enrollment by the addition of schools to the College have created much interest in other areas of the country, and are being studied by visitors from other state institutions. New schools for the College are now being established in Peoria and Rockford, Illinois. The College is also planning a new School of Public Health, and other programs designed to help alleviate the growing health care needs of the State.

Both institutions emphasized strongly the benefits to the State of Illinois that will result from their plans: several hundred more physicians graduated each year and a greater diversity of educational opportunities for students in the allied health professions as well as medicine. It is felt that these changes best utilize the potential resources of the public and private institutions to expand medical education as called for by a report of the Illinois Board of Higher Education.

James A. Campbell, President of Rush Presbyterian-St. Luke's Medical Center, joined David Dodds Henry, President of the University of Illinois, in expressing the regret felt by both institutions that the unique affiliation agreement was to end. President Henry

stated, "We have the deepest appreciation for the invaluable contribution made to the education of medical students through the last three decades by Presbyterian-St. Luke's Hospital. Both in terms of quantity and quality, the unique cooperative arrangement has greatly strengthened the University of Illinois College of Medicine." He joined President Campbell in agreeing that the University and the newly activated Rush Medical Center would be able to cultivate new modes of institutional cooperation to allow both better to serve the State's expanding program of professional and graduate education in the health fields.

Further Employment Of Program Planning Consultants

The University of Illinois Board of Trustees approved during its March 18 meeting the recommendation of Chancellor Joseph S. Begando and other administrative officers at the Medical Center Campus the further employment of Lester Gorsline Associates, Belvedere-Tiburon, California, for consulting services supplementary to those provided under an earlier contract as Phase I in program planning for improved facilities for the University of Illinois Hospital.

In January of 1970 Lester Gorsline Associates submitted to the University a report entitled Preliminary Planning Analysis -- University of Illinois Hospital, in fulfillment of the contract approved by the Board of Trustees at its meeting on December 18, 1968. The report makes several far-reaching recommendations, including a proposal that the University of Illinois Hospital assume responsibility for comprehensive health-care services for a large target population in the west-southwest area of Chicago. The report also recommends the construction of a major new University of Illinois Hospital which would assume a substantial proportion of Cook County Hospital's present patient-care responsibilities.

These recommendations are currently under study at the Medical Center campus. Further, copies of the document have been sent to various institutions, agencies, and individuals that would be directly or indirectly concerned with the findings and recommendations presented in the report, including the Health Education Commission of the Board of Higher Education.

For the purpose of expediting the evaluation of these proposals, clarifying their implications for the several agencies and institutions involved, and other preparation for the next phase of program planning for the Hospital, it is recommended that Lester Gorsline Associates be engaged for additional consulting services during the remainder of the current fiscal year.

Gorsline Report Presented To The News Media

The proposals recommended by Lester Gorsline Associates in the Preliminary Planning Analysis were made public on Friday, March 13 in a press briefing conducted at the La Salle Hotel, Chicago. Newspapers, radio, television, wire services and several news magazines were represented at the briefing.

Those who spoke to the press, discussing the Gorsline Report and the reorganization and expansion of the College of Medicine, were:

President Henry, Vice President and Provost Lanier, Chancellor Begando, Vice Chancellors Donald J. Caseley and H. Martin Engle, Deputy Executive Dean Richard M. Magraw and Alexander M. Schmidt, Dean of The Abraham Lincoln School of Medicine.

THE LIBRARY OF THE
AUG - 6 1970
UNIVERSITY OF ILLINOIS
AT URBANA-CHAMPAIGN

No. 33 May 20, 1970

Action on Selection of President of the University

The Board of Trustees at its April 15 meeting confirmed the following members of the Consultative Committee to assist in the selection of a president for the University under the chairmanship of Dr. Victor J. Stone, Professor of Law, Urbana-Champaign, and faculty member-at-large on the Committee:

I. Faculty Members: Medical Center, Dr. Melvin Sabshin, Professor and Head of the Department of Psychiatry, and Dr. Eddie S. Moore, Assistant Professor of Pediatrics; Chicago Circle, Dr. Robert R. Hall, Professor and Head of the Department of Sociology, and Dr. Gordon H. Geiger, Associate Professor of Metallurgy; Urbana-Champaign, Dr. Frank B. Lanham, Professor and Head of the Department of Agricultural Engineering, and Dr. P. E. Mast, Associate Professor of Electrical Engineering.

II. Students: Medical Center, Michael John Rasnak, Pharmacy II; Chicago Circle, Robert R. Benjamin, junior in political science; Urbana-Champaign, John Raymond DeLong, graduate student in history.

III. Faculty Member-at-Large: Dr. Victor J. Stone, Professor of Law, Urbana-Champaign.

IV. Members of Nonacademic Staff: Medical Center, Mrs. Anna V. Ware, Patient Unit Manager, Department of Nursing, General Hospital; Chicago Circle, William H. Ross, electrician, Physical Plant Department; Urbana-Champaign, John L. Hayes, Accountant II, Housing Division Central Food Stores.

V. Administrative Officers: General Administration, Vice President Eldon L. Johnson; Medical Center Campus, Dean Mary K. Mullane, College of Nursing; Chicago Circle, Dean George Bugliarello, College of Engineering; Urbana-Champaign, Dean Robert W. Rogers, College of Liberal Arts and Sciences.

VI. Three Members, Representing Alumni, the Foundation, and Other Citizens: Ralph S. Johns, Chicago, President, Alumni Association; L. Clifford Goad, Detroit, President, Foundation; C. Edward Raymond, DeKalb, Citizens Committee.

Establishment of a System of Quarter Hours For Graduate Credit

The University of Illinois Board of Trustees, at its April 15 meeting, approved a recommendation that credit for Graduate College courses at the Medical Center be measured by a quarter hour system effective September 1, 1970. The Unit system is

now used.

Following is a comparison of the present and the new system:

	Present	New
Full Academic program	3 units	16 quarter hours
Requirement for M.S. degree	9 units	48 quarter hours
Requirement for Ph. D. degree	27 units	144 quarter hours

The quarter hour system is used by the Graduate College at the Chicago Circle Campus, and the change will provide a useful uniformity between the Graduate College at the two campuses.

The Senate at the Medical Center Campus approved the change upon recommendation from the Executive Committee and the faculty of the Graduate College.

Dr. Farnsworth to Head Department of Pharmacognosy and Pharmacology

The Board of Trustees has approved the appointment of Dr. Norman R. Farnsworth as professor of Pharmacognosy and head of the Department of Pharmacognosy and Pharmacology in the College of Pharmacy, effective September 1, 1970.

Dr. Farnsworth is presently professor of pharmacognosy and chairman of that department at the University of Pittsburgh School of Pharmacy.

He received his B.S. (1953) and his M.S. (1955) from the Massachusetts College of Pharmacy and his Ph.D. (1959) from the University of Pittsburgh.

From 1955-60 he was engaged in pharmaceutical market research for R.A. Gosselin & Company, Dedham, Massachusetts. After joining the University of Pittsburgh faculty in 1955, he progressed through academic ranks and in 1964 was named to his current post there.

He will officially succeed Dr. Ralph F. Voigt, who will retire effective August 31, 1970. Dr. Voigt has headed the Department of Pharmacognosy and Pharmacology since 1955, and has directed the University's Drug and Horticulture Station Since 1947.

Regulations Governing the Determination of Residency Status

Certain revisions of the "Regulations Governing Assessment of Resident or Nonresident Student Fees," as approved by the Board of Trustees on December 17, 1957 and amended on February 21, 1962 were approved by the Board of Trustees on April 15 as recommended by the Director of the University Office of School and College Relations and the Directors of Admissions and Records on the three campuses, to be effective September 1, 1970.

The changes involve condensation, rewording, and reorganization of the current regulations, in order to simplify and clarify them -- in addition to the following substantive changes:

1. Revision of the title to read: "Regulations Governing the Determination of Residency Status for Admission and Assessment of Student Tuition" -- thus establishing that the regulations are used to determine residency for purposes of admission as well as for the assessment of student tuition (as currently used).

2. Change of the title "Dean of Admissions and Records" to "Director of Admissions and Records" -- in conformance with current University Statutes.

3. Establishment of rules for adjustment of tuition assessment in the event of errors in classification.

4. Elimination of reference to self-support and parental control as criteria for establishing residency for an adult student.

5. Addition of active military service as a condition effecting the emancipation of minors.

6. Giving to emancipated minors the same residence privileges as adults.

7. Providing the same residence privileges for husband and wife and eliminating the requirement that spouses be living together to obtain residence privileges.

8. Substitution of "resident immigrant status with the U. S. Immigration and Naturalization Service" as a condition of residency in lieu of filing a Declaration of Intention to become a citizen.

9. Addition of a section concerning residency status of minor children of parents transferred outside the United States, in accordance with recently enacted State law.

10. Classification of the following as residents: staff members of the University and of allied agencies; faculties of state-supported institutions of higher education in Illinois and their spouses and dependent children (currently, these persons receive waiver of the nonresident portion of tuition).

Contracts for Remodeling in Illinois Neuropsychiatric Institute

Contracts for remodeling in the Illinois Neuropsychiatric Institute for the Department of Psychiatry have been approved by the Board of Trustees.

The remodeling will involve portions of the basement, second, third, sixth, seventh and eighth floors. It is estimated that the work will begin May 1 and be completed by October, 1970. Total amount of the contracts is $64,144.

Increase in Architectural Contract for Medical Research Lab Addition

The Board of Trustees has approved the recommendation that the contract with Skidmore, Owings & Merrill, Chicago, be increased in the amount of $13,854.69, for soil test borings and concrete testing, coring and caisson inspection on the Medical

Research Laboratory addition at the Medical Center Campus.

Funds are available in State capital appropriations to the University and have been released by the Governor.

(The Board of Trustees on February 9, 1967, approved the employment of Skidmore, Owings & Merrill for the Medical Research Laboratory Addition, and on July 26, 1967, the assignment of this contract to the Illinois Building Authority. Because of the caisson problems which developed during the construction of this building, the Board of Trustees on March 19, 1969, approved transferring from the Illinois Building Authority to the University a portion of the project costs, including architectural fees to be financed from General Revenue funds. Under the architectural agreement which now has been reassigned from the Authority to the University, soil test boring, concrete testing, and related work are items for which the architect is to be reimbursed. The cost of this work has been firmed up in the amount of $13,854.69. Construction on this project was started in October, 1968, and it is estimated that it will be completed in September, 1970.)

Additional Federal Income Tax Withholding

The Office of Business Affairs, in cooperation with the Administrative Data Processing Office, has incorporated into the payroll procedures the capability of providing additional withholding of Federal income tax.

In addition to the amount normally deducted from an individual's paycheck, the Office of Business Affairs is in a position to increase that deduction by a fixed dollar amount. For example, if an individual has $213.00 withheld on a monthly basis, in addition he may withhold any fixed sum up to the total amount of his net earnings. Assuming this individual had a gross salary of $1,000.00 a month, Federal withholding of $213.00, State withholding of $24.87, retirement of $80.00, health insurance of $26.01, life insurance of $9.60, leaving a net after fixed and voluntary deductions of $646.52, any sum in addition to the $213.00 up to $646.52 could be deducted from the paycheck by completing a new Federal W-4 form (Line 7) at the Payroll Office. The additional deductions would be incorporated into the payroll one month following the month in which the Payroll Office receives a new W-4 form. The Office of Business Affairs would appreciate the cooperation of those wishing an additional deduction to hold changes to one a year.

No. 34 July, 1970

Commencement Address Outlines Medical Center Plans for 1970s

Dr. Lyle H. Lanier, University executive vice president and provost, outlined the "University's Mission for the 1970s in the Health Sciences and Professions" in his commencement address June 12 in Medinah Temple during the Medical Center Campus's commencement, which conferred degrees on 625 graduates. The text of Dr. Lanier's speech is as follows:

As universities attempt to chart their course for the 1970's, they are facing internal and external conditions which have been aptly described as a "crisis of confidence". I am referring not so much to campus disturbances--although to some extent they are symptoms of the malady--as to the apparent weakening of faith in rationality and organized intelligence as instrumentalities for solving human and social problems.

One of the great paradoxes of our age lies in the fact that this nation should have achieved such a high peak of scientific and technical development and at the same time should have generated so much deep-seated pessimism about the ultimate value of these intellectual tools to society. Instead of acceptance as the kind of panacea envisaged in Dr. Vannevar Bush's 1945 volume, Science: The Endless Frontier, scientific method and its products are today increasingly decried by would-be scholars and students who prefer to take to the "intellectual streets" in order to achieve their ends. While it is questionable that human betterment is the primary aim of all of these individuals, it must be recognized that such disillusionment and anti-intellectualism are partly understandable in the light of the mounting problems of modern society to which natural science and technology appear to have been substantial contributors.

The President of the National Academy of Sciences and Chairman of the National Science Board--Dr. Philip Handler--has described these problems in the following excerpt from his address last April before a meeting of the Federation of American Societies for Experimental Biology:

> "Science does not have, and may not even warrant, a very high priority in the United States in 1970. Generate your own list of the truly major problems of American society. Mine would include terminating the war, the search for a stable peace, implementation of a national and worldwide population policy, learning how to deal with political terrorism and the challenge to the legitimacy of government, achieving some progressive modus vivendi in our racial problems, understanding the real roots of youthful disaffection, including the startling rise in drug usage . . .,

> understanding and coping with the increasing frequency of violence and criminal action, learning how to salvage the central city and upgrade the quality of urban life, alleviation of our biological and physical environmental problems, and development of an adequate system for the delivery of health care. Even recognizing the limitations of the best of current health care, and the need for far greater understanding and for new therapeutic approaches to the major killers of mankind, one can only conclude that science--can make only relatively small contributions to these other major problems. And for that reason, in the competition for national resources, science is likely to be placed on the back burner by the nation for some years."

Dr. Handler's sober appraisal in no sense signifies that he has lost faith in "fundamental biological and physical science" or in scientific method generally. He simply recognizes that national priorities have changed towards greater emphasis upon the amelioration of societal ills--including the "development of an adequate system for the delivery of health care." He would agree, I think, that long-term solutions to these problems are unlikely if all scientific research and development were to be placed "on the back burner." In particular, I believe in the essential validity of a common criticism of the priorities underlying scientific-technical development in this country since World War II, namely, that the disparity in growth between the biological and physical sciences and their technologies, on the one hand, and that in the behavioral-social sciences, on the other, has been partly responsible for the difficulties identified by Dr. Handler.

Another major type of imbalance reflected in national and university priorities--and illustrated particularly in the health fields--has been underemphasis upon professional education and study of the delivery of professional services, in comparison with basic research and technical development. Better integration and balance among all these functions is essential--and to achieve this end need not and should not require neglect of basic research.

This brings me to the specific problem of planning for the health sciences and professions during the coming decade. That the health-care system of this country is in serious trouble has been made abundantly clear in numerous studies emphazing among other things:

1. Acute shortages of professional manpower.

2. Inefficient utilization of available resources.

3. Rising expectations of improved health care.

4. Astronomical increases in hospital and other health-care costs.

5. Serious mismatches between the distribution of health care and the needs of the population.

I should like now to review the University's development plan in the health fields for the 1970's, which should help substantially to overcome at least some of these deficiencies in the State's health-care system.

The plan comprises comprehensive programs of expansion and innovation in the health sciences and professions, that are unparalleled in this country. The following summary outlines the highlights of that development plan for the coming decade--most of which will be administered from the Medical Center campus:

1. Expansion of enrollment. For the entire Medical Center campus and its proposed branches in Peoria, Rockford, and Urbana, the number of students will increase from approximately 2,900 this year to 7,500 in 1980--an expansion of 150 per cent. The growth will be mostly in the professional colleges, but enrollment in the Graduate College would increase from almost 400 to 1,800 students by 1980--to meet the expanding need for teaching and research staff in all of the health sciences and professions.

   At the Urbana-Champaign campus, in addition to a one-year School of Basic Medical Sciences--scheduled to open in 1972 as a semiautonomous branch of the College of Medicine--a school offering clinical training and the M. D. degree is provisionally projected for opening by 1980, with 75 students in each of the three classes. And the College of Veterinary Medicine at Urbana will grow from 315 in 1969 to over 500 in 1980.

   For the Medical Center campus, the increases by colleges and schools are as follows:

   a. In Dentistry, the increase for all curricula will be from some 474 in 1969 to more than 1,000 students by 1980.

   b. In Medicine, enrollment for the M. D. degree will rise from 798 this year to more than 1,800 in 1980. Including internship-residency training and graduate study, Medicine's total will increase from 1,355 students this year to over 2,800 in 1980.

   c. In Nursing, there will be almost a fivefold increase--from 321 to some 1,500 students by 1980, with most of the growth being at the graduate level.

   d. In Pharmacy, the increase will be from about 693 to 1,100, including graduate students.

   e. The School of Associated Medical Sciences will grow from 90 students this year to some 650 in 1980, and several new technical specialties will be added to the present four curricula.

   f. Finally, a new School of Public Health, now being organized, will have more than 200 graduate-professional students by 1980.

2. Curriculum changes. Curricular revision is under way in all colleges and and schools, but the modifications of the program for the M. D. degree are perhaps the most extensive. Through improved integration of premedical education with the basic medical sciences, the time for such studies will typically be reduced by one year. And another year would be eliminated at the postdoctoral level by the consolidation of internship training into the fourth

year of the M. D. curriculum. (This would require a statutory change.)

3. Regional decentralization of medical education and strengthening downstate health-care resources. Semiautonomous medical schools will be established as branches of the College of Medicine in Peoria, Rockford, and Urbana. These regional training centers--with expanded internship and residency programs--should serve to increase the number of physicians completing their professional training in Illinois. And these developments, in turn, should enhance the retention of physicians within Illinois as practitioners, and also improve the geographic distribution of health-care resources within the State as a whole.

4. Continuing education. Associated with establishment of regional centers in Peoria, Rockford, and Urbana--and possibly later in Decatur and the Quad-Cities--will be the development of a State-wide network for the continuing education of practitioners--in all of the health fields. This program should improve the quality of health care in downstate Illinois and also add to the incentives to professional practice there.

5. Family practice. One of the highly significant changes in the University's program of medical education will be the addition of a department and curriculum in family practice. These innovations should help to meet the need for personalized health care and for guidance to individuals requiring highly specialized medical services.

6. Community health service. The "Valley" Neighborhood Health Center is another type of effort to adapt the University's teaching and public-service activities to present-day needs. Located near the Medical Center campus, the Valley Center provides to students in the health professions a new and different clinical setting for patient-centered experience. Further, it serves as an experiment for the University in new patterns of delivery of continuous and comprehensive health service to an inner-city community. As experience is gained with this pilot project, the program will be expanded and extended to other communities.

7. Change in role for the University of Illinois Hospital. An even more far-reaching extension and transformation of the relationship of the Medical Center campus to its community has been proposed in plans now under discussion regarding the future of the University of Illinois Hospital. These proposals have suggested the consolidation of the University Hospital and Cook County Hospital into a new but smaller combined facility of 1,500 beds at the Medical Center. (This long-range plan is not the one involved in recent discussions of the immediate operation of the present Cook County Hospital by the University under contract, in cooperation with other medical schools.)

   Under the long-range plan, the University would assume overall professional responsibility for patient-care services for a West Side population of approximately 300,000 people. In effect, the Hospital's status would change from that of a selective-admission "research and educational" institution to a University-conducted community hospital, which would serve also as a natural setting for a comprehensive range of clinical teaching and research.

8. Research on patient care and community health. Within the new School of Public Health, a Center for the Study of Patient Care and Community Health will be established--with responsibility for a wide range of interdisciplinary studies, including the following:

   a. The supply, organization, and utilization of various types of professional manpower for the delivery of health-care services.

   b. The early detection of disease.

   c. The incidence, prevalence, and distribution of types of disease.

   d. Conditions in the physical and social environment influencing patterns of health and illness.

   e. The economics of health care, with special reference to the causes and consequences of escalating costs and inequities of distribution.

In the light of this bird's-eye view of the ten-year development plan, I should like to return to the general issue raised earlier, as to how these programs can contribute to the improvement of the health-care system. There would seem to be little intuitive doubt but that all of them will be beneficial in some degree.

But there is no guarantee, for example, that even the massive increases planned in professional manpower would automatically be utilized so as to reduce imbalances and inequities in the distribution of health services.

There is perhaps even less assurance that these and parallel increases in enrollment elsewhere would lower substantially the mounting costs of hospital care. (According to figures recently released by Senator Ribicoff of the Senate Finance Committee, hospital costs in 1980 were predicted by two expert witnesses to reach $1,000 per day in urban centers and $400 in rural areas--unless current trends are curtailed.)

In my judgment, the Center for the Study of Patient Care and Community Health is the University program that should be able to make the greatest contribution to solutions to problems such as these. Far-reaching changes in the health-care system would be required; and I think these could best be accomplished in the light of the kind of research and evaluation the Center would sponsor.

More generally, the Center would be the means for focusing upon health-care problems all the relevant resources of the social sciences--as well as pertinent expertise from the computer, mathematical, engineering, and administrative sciences. In sum, it will be projected as a world-renowned center of interdisciplinary investigation, whose range of analytical studies would cover all levels of the health-care system--local, State, and national.

I should like now to close with a brief reference to one of the more controversial issues confronting universities these days--one to which programs in the health fields are particularly germane. I refer to the question of whether or not an educational

institution has the right--or the obligation--to intervene directly in "social action," including political advocacy for a preferred attack upon a societal problem.

This general question cannot be given a simply, categorical answer--a fact often ignored by people on both sides of the "ideological" fence. From one point of view, certain of the activities outlined above in the ten-year plan for the health fields clearly constitute forms of "societal action." Conducting a community hospital and assuming comprehensive health-care responsibilities for a fairly large segment of Chicago's inner-city population are clearly in this category.

The University's frame of reference in such undertakings, however, is primarily that of an educational and research institution. It would not, for example, organize a political campaign to secure the acceptance of practices or prerogatives, affecting the community, that might seem to be justified on scientific, professional, or administrative grounds.

In sum, insofar as universities make or support value judgments about man or society, I think they should have to do essentially with ways and means, not with the ultimate ends of action. Furthermore, such evaluation should rest on objective evidence or disinterested professional judgment--and, so far as possible, they should be made with reference to independent and objective criteria for judging the relationships of means to ends.

Within this broad framework, there will be challenging opportunities for the University of Illinois to generate creative changes in the health-care system of the State and Nation.

THE LIBRARY OF THE
AUG - 6 1970
UNIVERSITY OF ILLINOIS
AT URBANA-CHAMPAIGN

No. 35 July, 1970

Establishment of Departments of Family Practice

The Board of Trustees at its June 17 meeting approved a recommendation that the University of Illinois College of Medicine establish Departments of Family Practice within the clinical schools of the College of Medicine. The matter is now subject to final action and approval by the Illinois Board of Higher Education.

By action of the 76th General Assembly, State-supported medical schools are required to establish departments of general (family) practice and to initiate training programs in that specialty. The College of Medicine wishes to proceed with its program in this field -- a program which was being planned prior to the legislative action in connection with the development of regional clinical centers and the community clinic near the Medical Center campus.

An initial budget has been requested for FY1970-71 for the establishment of a Department of Family Practice. The funds requested would be used for the establishment of a departmental office, for salaries of the necessary specialists to provide training in the unique aspects of family practice, and for salaries of staff physicians teaching in ambulatory-care facilities. The College of Medicine plans to concentrate the instruction given by its practitioner-faculty in ambulatory care centers.

The educational program envisaged for the proposed Department of Family Practice reflects recent discussions in the literature of the medical profession concerning the need and the means for training practitioners capable of rendering comprehensive, personal health care to a wide spectrum of patients. The type of physician envisaged has been described in articles and in other reports of family-practice programs across the nation -- as well as in the guidelines recently formulated for graduate training in family practice by the American Academy of General Practice. These sources have provided the background for the following statement of the premises and general objectives that would underlie the College of Medicine's comprehensive programs of undergraduate, graduate, and continuing medical education for family practice:

> The first major assumption is that the family practitioner of the future must be a specialist in his own right, thoroughly knowledgeable in the prevention and recognition of social,

emotional, and organic disease. He must receive specialized education in order that he recognize, understand, and either treat or counsel patients of all ages with a wide variety of disease. He must treat the disease the patient has, not hope the patient has the disease he treats. Modern authorities agree that the family practitioner must be well-trained in areas either not presently included or not well-taught in curricula directed at the budding subspecialist. Experts agree that Departments of General Practice must either contain or have continuing access to demographers, cultural anthropologists, social psychologists, sociologists, medical economists, and other specialists whose skills are necessary to the training of family practitioners to accept full professional responsibility for the health-care and medical needs of the entire family. These specialists in the behavioral and social sciences would preferably be based in a department of family practice; and they would work alongside their colleagues in internal medicine, pediatrics, psychiatry, obstetrics and gynecology, and surgery -- who would be based in their respective existing departments.

The second major assumption is that the family practitioner must fill a role complementary to that of the other practitioner-specialists, utilizing their expertise and services in fulfilling his responsibility as trustee of his patients' health. The family practitioner will have to be educated to a significant degree in the subspecialties of medicine, and this should be done by the best faculty available. Hence, the Department of Family Practice at the University of Illinois would contain expertise specific to comprehensive personal health care, as described above, but would not duplicate the professional skills of existing departments. Rather, the existing departments would cooperate in joint programming and in providing subspecialty training to the future family practitioner along with that given to his future subspecialized colleagues. Since community and preventive medicine will be of great importance to family practitioners, the existing Department of Preventive Medicine and Community Health will work closely with the new Department of Family Practice, avoiding duplication and overlap of faculty and programs. Similar coordination would be achieved with the proposed Graduate School of Public Health.

The third major assumption is that ambulatory care will be of far greater importance to the training of family practitioners than traditional hospital-based care utilizing the bedfast patient. Ambulatory care can be learned only where such care is regularly provided. The University outpatient services provide some training in ambulatory care, but far greater opportunities for learning family medicine as it must be practiced will exist in the various clinical centers now being planned as part of the

College of Medicine, and in affiliated, neighborhood community-health centers. Three clinical centers are now coming into existence, each a cooperative effort among several hospitals. Located in Rockford, Peoria, and Chicago, the clinical centers will offer an unparalleled opportunity for establishing educational programs based directly in the already-existing family practices of the staff of the centers. The staff positions requested will support the practitioner-faculty of the clinical centers who will devote significant amounts of time to the educational programs for family practice.

The proposed timetable for the implementation of the program is as follows:

Academic Year 1970-71

Recruitment of department chairman.

Planning of undergraduate curriculum: course work, alternate quarter programs.

Planning of graduate programs -- i.e., residency program in family practice.

Expansion of programming in continuing education.

Planning of ambulatory-care programs in clinical centers.

Recruitment of academic staff (specialist staff and staff physicians for ambulatory-care centers).

Implementation of alternate quarter programs, most particularly in ambulatory care.

Academic Year 1971-72

Continued recruitment of staff.

Implementation of graduate training program.

Pilot undergraduate curriculum.

Academic Year 1972-73

Full implementation of all programs.

It should be noted that the initial budget request will meet the costs through FY 1971 (academic year 1970-71) only. Additional funds will be necessary for further expansion of the program, particularly for

the development of graduate and continuing education in family practice. Additional staff physicians for ambulatory-care centers (community-based and hospital-based), additions to the specialist staff (including paramedical specialists), and funds for supporting services would be necessary.

Trustees Approve Establishment of Peoria School of Medicine; Dean Named

The Board of Trustees at its June 17, meeting approved the establishment of the Peoria School of Medicine within the University of Illinois College of Medicine. The Trustees also approved the appointment of Dr. Nicholas J. Cotsonas Jr., as professor of medicine and dean of the school, effective July 1, 1970.

Dr. Cotsonas' nomination was made with the advice of a search committee comprised of representatives from the faculty of the Abraham Lincoln School of Medicine and the community of Peoria.

Dr. Cotsonas received his A.B. (1940) from Harvard University and his M.D. (1943) from Georgetown University. After serving in a variety of assignments on the faculty at Georgetown University from 1949-1953, he became an assistant professor of medicine in the University of Illinois College of Medicine.

In 1957 Dr. Cotsonas became an associate professor of medicine and was named professor of medicine in 1962. From December 7, 1966 to December 16, 1967 and again from November 1, 1969 to December 31 of last year he was made acting head of the Department of Medicine within the College. From July 1968 to December 31, 1969 he was chief of medical services at the University of Illinois Hospital and since 1953 has been attending physician and consulting attending physician in cardiology, a post he has held since 1954 at the VA West Side Hospital.

Dr. Jekkals Named Dentistry Department Head

University of Illinois Board of Trustees on June 17 approved the appointment of Dr. Valdemars Janis Jekkals as associate professor and head of the Department of Fixed Partial Prosthodontics in the College of Dentistry, effective July 1, 1970.

Dr. Jekkals had been an assistant professor of fixed partial prosthodontics at the University of Pennsylvania. His appointment officially provides a successor for Dr. Fred N. Bazola, who retired effective April 1, 1968.

Dr. Jekkals' received his D.D.S. (1964) from the Ohio State University and his M.S.D. degree (1970) from the same institution.

CAMPUS REPORT

from the Office of the Chancellor

University of Illinois at the Medical Center, Chicago

THE LIBRARY OF THE

AUG - 6 1970

UNIVERSITY OF ILLINOIS
AT URBANA-CHAMPAIGN

No. 36 July, 1970

Reorganization of the College of Nursing

The Board of Trustees has approved a recommendation that the College of Nursing be reorganized through the formation of "departments" not now in existence. The action was based on the growth in numbers of both students and faculty to the point where it was felt that departmentalization would create a more effective working organization, through formal delegation of responsibilities in specific areas of teaching and research.

The breakdown is as follows, with assigned functions listed:

Department of General Nursing - introductory and general nursing.

Department of Maternal-Child Nursing - specialties of maternity nursing and of child health and pediatric nursing.

Department of Medical-Surgical Nursing - specialties of medical and surgical nursing.

Department of Psychiatric Nursing - specialties of mental health and psychiatric nursing.

Department of Public Health Nursing - specialties of public health nursing and community health.

Dr. Gillette to Head Department of Histology

The Board of Trustees has approved the appointment of Dr. Roy James Gillette as professor of histology and head of the Department of Histology, College of Dentistry, effective June 1, (1970).

Dr. Gillette, presently professor of histology in the U. of I. College of Dentistry, will succeed Dr. James A. Yeager.

Dr. Gillette received his A.B. (1938) from Wayne State University and his Ph.D. (1943) from Washington University. From 1947-53 he was an assistant professor of natural sciences at the University of Chicago. He joined the faculty of the U. of I. College of Dentistry in 1953 as an assistant professor and in 1957 became an associate professor. In 1964

he was promoted to the rank of professor.

Dr. Yost Assistant Administrator for Medical Research Laboratory

Dr. Donald H. Yost has been named assistant administrator for the Medical Research Laboratory.

Dr. Yost has been a pathologist for Abbott Laboratories since 1964 and a clinical associate professor of pathology at Loyola University School of Dentistry since 1965.

A graduate of the Michigan State University College of Veterinary Medicine, Dr. Yost will assist Dr. Robert F. Locke, administrator of the Medical Research Laboratory, in the overall supervision of the facility. In addition he will be involved in the development of a pathology service within the laboratory.

Dr. Yost will also be a member of the Department of Pathology in the University of Illinois College of Medicine.

A veteran of more than 14 years in the U.S. Army Veterinary Corps, Dr. Yost has served as Chief of the Research Pathology Branch of the U.S. Army Medical Unit at Fort Detrick, Md., Chief Pathology Division, U.S. Army Medical Research Laboratory, Fort Knox, Ky., Pathologist at the U.S. Army Environmental Hygiene Agency, Edgewood Arsenal, Md., and Chief of the Diagnostic Pathology Branch, Medical Directorate Chemical Warfare Laboratories, Army Chemical Center, Md.

Houck Designated Chief Security Officer

Senate Bill 331 (76th Illinois General Assembly) prohibits the possession or storage of any weapon on property supported in the whole or in part with State funds or Federal funds administered or granted through State agencies without prior written permission from the chief security officer.

In compliance with the Senate Bill, Chancellor Joseph S. Begando has designated Frank W. Houck, Director of the Physical Plant, as Chief Security Officer for this campus.

Ray Stephens Returns as Safety Officer

Ray Stephens has returned to his position as Safety Officer for the Medical Center Campus following a year's assignment with the Office of Administrative Studies. Mr. Stephens, who had previously been Safety Officer for seven years, is located in Room 176 in the College of Pharmacy Building. His telephone extension is 7411.

Establishment of a School of Public Health

The University of Illinois Board of Trustees, meeting May 20 in Chicago, approved the establishment of a School of Public Health at the Medical Center Campus. The proposal is subject to action by the Illinois State Board of Higher Education.

Also approved was the establishment of a Center for the Study of Patient Care and Community Health as a research unit within the school.

The programs were first approved in principle by the Board on October 16, 1967. Thereafter, the proposal was submitted on December 13, 1967 to the Director of the Study of Education in the Health Fields, which was being sponsored by the Illinois Board of Higher Education. In accordance with these actions, the University's budget request for operations in fiscal year 1971 included an item of $247,000 for the establishment of the School and its Center.

During the present academic year (1969-70), a search is being made for a dean for the Graduate School of Public Health—with the hope that his appointment might become effective somewhat before September 1970 and that both an assistant dean and a director for the Center for the Study of Patient Care and Community Health could be available by the beginning of the next academic year.

The year 1970-71 would be devoted to the recruitment of faculty and to the following planned activities: (a) developing the core curriculum about which would radiate the multidisplinary areas of specialized study that make up the entire public health matrix; (b) developing Phase I of the Center for the Study of Patient Care and Community Health, including a detailed inventory of the existing resources of the Medical Center, Chicago Circle and Urbana-Champaign campuses which would be expected to lend significant support to the activities of the Center; (c) seeking to enlist the cooperation of faculty members of the professional and graduate schools at all three campuses in planning appropriate interaction between core-curricular studies of the School and related programs conducted by existing academic units (d) exploring with other universities and research agencies in the Chicago area how their unique resources for public health and related studies might lend support to the School's programs of graduate studies and research in public health.

The initial eight faculty positions would be allocated to such special public health areas as : epidemiology, biostatistics, environmental health, health care administration, health education, health care economics and medical sociology. Supporting graduate courses in the behavioral sciences at the Chicago Circle Campus would be available as part of the graduate curriculum in public health.

An entering class of 20 to 25 students would be admitted for the academic year 1971-72. Enrollments would be expanded in yearly increments toward the goal of 100 master's degrees and 40 doctoral degree candidates with the expectation that these goals would be achieved by 1975-76.

New Campus Director of Planning and Construction

Donald C. Neville has been appointed campus director of planning and construction for the Medical Center Campus, effective September 1, 1970. He succeeds Frank E. Hostettler, who is retiring.

A native of Ridgway, Illinois, Mr. Neville earned his B.S. (1957) and his M.S. (1960) degrees at the University of Illinois.

He has been with the University since 1957 serving as a space analyst (1957-1959); Research Specialist with rank of assistant professor, Physical Plant (1959-62); Assistant to director (administration) Physical Plant (1959-62); and assistant to the University director of Physical Plant planning and construction since 1968.
